

considering each industry segment (and groupings of facilities in the production segment) to be separate sampling populations. Thus, a statistically significant number of facilities within each industry segment (or “population”) will be required to complete the Part 2 detailed facility survey.

The data collected throughout this process will be used to determine the number of potentially affected emission sources and the types and prevalence of emission controls or emission reduction measures used for these sources at existing oil and gas facilities, among other purposes. This information may also be used to fill data gaps, to evaluate the emission and cost impacts of various regulatory options, and to establish appropriate standards of performance for oil and gas facilities.

Respondents will be required to respond under the authority of section 114 of the CAA. The EPA anticipates issuing the CAA section 114 letters by late October, 2016. These letters would require the owner/operator of an oil and gas facility to complete and submit the Part 1 survey within 30 days of receipt

of the survey, and would require facilities to complete and submit the Part 2 survey with 120 days of receipt.

All information submitted to the Agency in response to the surveys will be managed in accordance with applicable laws and the EPA’s regulations governing treatment of CBI at 40 CFR part 2, subpart B. Any information determined to constitute a trade secret will be protected under 18 U.S.C. 1905.

Form numbers: None.

Respondents/affected entities:

Respondents affected by this action are owners/operators of oil and natural gas facilities.

Respondent’s obligation to respond: Mandatory. (Pursuant to section 114 of the CAA.)

Estimated number of respondents:

The estimated number of respondents for Part 1 is 15,000 operators representing approximately 698,800 facilities (total). The estimated number of respondents for Part 2 is 3,818.

Frequency of response: This is a one-time survey.

Total estimated burden: 245,481 hours. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$37,692,625, which includes \$6,987,000 in operating and maintenance (O&M) costs.

Changes in estimates: This is a new ICR.
