

Manager. The revisions will include initial and refresher training regarding compliance with the PDO.

(12) Use of the proposed alternative method described in this petition will prevent miners from being exposed to unnecessary hazards, and will increase the measure of protection to the miners.

The petitioner asserts that application of the existing standard to the particular overcast area will result in a diminution of safety to the miners and that the proposed alternative method will at all times guarantee no less than the same measure of protection to the miners as would be provided by the existing standard.

Sheila McConnell,

Director, Office of Standards, Regulations, and Variances.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection

instruments are understandable, and OSHA's estimate of the information collection burden is correct. The Occupational Safety and Health Act of 1970 (the OSH Act) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act, or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

The Standards on Construction Fall Protection Systems Criteria and Practices (29 CFR 1926.502) and Training Requirements (29 CFR 1926.503) ensure that employers provide the required fall protection for their workers. Accordingly, these standards have the following paperwork requirements: Paragraphs (c)(4)(ii) and (k) of 29 CFR 1926.502, which specify certification of safety nets and development of fall protection plans, respectively, and paragraph (b) of 29 CFR 1926.503, which requires employers to certify training records. The training certification requirement specified in paragraph (b) of 29 CFR 1926.503 documents the training provided to workers potentially exposed to fall hazards in construction. A competent person must train these workers to recognize fall hazards and in the use of procedures and equipment that minimize these hazards. An employer must verify compliance with this training requirement by preparing and maintaining a written certification record that contains the name or other identifier of the worker receiving the training, the date(s) of the training, and the signature of the competent person who conducted the training, or of the employer.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the collection of information requirements contained in the Construction Standards on Fall Protection Systems Criteria and Practices (29 CFR 1926.502) and Training Requirements (29 CFR 1926.503). OSHA is requesting a 31,264 burden hour reduction, from 457,108 hours to 425,844 based on the Agency's determinations that fewer employers are required to comply with the Standard's collection of information requirements and that information exchanged during an OSHA compliance inspection is not covered by the PRA. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Construction Fall Protection Systems Criteria and Practices (29 CFR 1926.502) and Training Requirements (29 CFR 1926.503).

OMB Control Number: 1218–0197.

Affected Public: Business or other for-profits; Federal Government; State, Local, or Tribal Government.

Number of Responses: 5,314,317.

Frequency of Record Keeping: On occasion, annually.

Average Time per Response: Time per response ranges from 5 minutes (.08 hour) to certify a safety net to 1 hour to develop a fall protection plan.

Estimated Total Burden Hours: 425,844.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for this ICR (Docket No. OSHA–2010–0008). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your full name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693–2350, (TTY) (877) 889–5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.

OFFICE OF MANAGEMENT AND BUDGET

Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity

AGENCY: Executive Office of the President, Office of Management and Budget (OMB).

ACTION: Review and Possible Limited Revision of OMB's Statistical Policy Directive on Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity.

SUMMARY: The Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity were last revised in 1997 (62 FR 58782, Oct. 30, 1997; see https://www.whitehouse.gov/omb/fedreg_1997standards). Since these revisions were implemented, much has been learned about how these standards have improved the quality of Federal information collected and presented on race and ethnicity. At the same time, some areas may benefit from further refinement. Accordingly, OMB currently is undertaking a review of particular components of the 1997 standard: The use of separate questions measuring race and ethnicity and question phrasing; the classification of a Middle Eastern and North African group and reporting category; the description of the intended use of minimum reporting categories; and terminology used for race and ethnicity classifications. OMB's current review of the standard is limited to these areas. Specific questions appear under the section, "Issues for Comment."

DATES: Comments on the review and possible limited revisions to OMB's Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity detailed in this notice must be in writing. To ensure consideration of comments, they must be received no later than [30 days from the publication of this notice]. Please be aware of delays in mail processing at Federal facilities due to increased security. Respondents are encouraged to send comments electronically via email, or <http://www.regulations.gov> (discussed in **ADDRESSES** below).

ADDRESSES: Written comments on these issues may be addressed to Katherine K. Wallman, Chief Statistician, Office of Management and Budget, 1800 G St., 9th Floor, Washington, DC 20503. You may also send comments or questions via Email to Race-ethnicity@omb.eop.gov or to <http://www.regulations.gov>—a Federal E-Government Web site that allows the public to find, review, and submit comments on documents that agencies have published in the **Federal Register** and that are open for comment. Simply type, "Race-ethnicity" (in quotes) in the Comment or Submission search box, click Go, and follow the instructions for submitting comments.

Comments submitted in response to this notice may be made available to the public through relevant Web sites. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary
