[Docket No. 2016-5]

### Copyright Office Technical Amendments

**AGENCY:** U.S. Copyright Office, Library of Congress.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The U.S. Copyright Office is proposing to amend its regulations governing registration, recordation, licensing, and other services that the Office provides. The amendments will improve the quality of the Office’s regulations by updating cross-references to the Copyright Act and the Office’s regulations, replacing outdated terminology, reflecting structural changes to the Office and its senior management, eliminating expired or obsolete provisions, and correcting nonsubstantive errors. While these amendments are intended to be technical in nature, out of an abundance of caution, the Office is publishing the proposed regulations for public comment.

**DATES:** Written comments must be received no later than 11:59 p.m. Eastern Time on November 2, 2016.

**ADDRESSES:** The Copyright Office is using the [regulations.gov](http://www.regulations.gov) system for the submission and posting of public comments in this proceeding. All comments are therefore to be submitted electronically through [regulations.gov](http://www.regulations.gov). Specific instructions for submitting comments are available on the Copyright Office Web site at <http://copyright.gov/rulemaking/2016technicalamendments/index.html>. If electronic submission of comments is not feasible, please contact the Office using the contact information below for special instructions.

Each person can be reached by telephone at 202-707-8040.

**SUPPLEMENTARY INFORMATION:** The U.S. Copyright Office (the “Office”) is proposing to make a series of technical amendments (the proposed “Rule”) that address certain inconsistencies and inaccuracies in parts 201, 202, 203, 204,

205, 210, 211, 212 and subchapter B of title 37 of the Code of Federal Regulations. Specifically, the proposed rule makes technical changes to regulations governing registration, recordation, and licensing. These changes include the removal of expired or obsolete provisions that no longer serve any purpose, such as regulations issued under the now-defunct Copyright Arbitration Royalty Panel system. It also proposes technical changes to the regulations for submitting requests under the Freedom of Information Act and the Privacy Act, the procedures for serving legal process on the Office, and the regulations governing the Office's general operations.

While the amendments are self-explanatory, for convenience, the Office has summarized them in seven categories below.

### I. Reorganization of the U.S. Copyright Office

The Register of Copyrights has reorganized the administrative divisions of the Office in the last few years. The Register appointed a Chief Information Officer ("CIO") to serve as her primary advisor on information technology, and a Director of the Copyright Technology Office, who supervises the day-to-day maintenance of the Office's registration and recordation systems.

The Register also divided the former Information and Records Division into the Office of Public Records and Repositories ("PRR") and Office of Public Information and Education ("PIE"). PRR, headed by an expert in public administration, includes the Recordation Section, the Records Management Section, and the Records Research and Certification Section. PIE is headed by an Associate Register of Copyrights and includes the Publications Section and the Copyright Information Section.

The proposed rule reflects these developments by updating § 203.3 by providing titles of the Office's senior management and updated descriptions for each division within the Office, including the Office of the Register, the Office of the General Counsel, the Office of Policy and International Affairs, the Office of Registration Policy and Practice, the Office of Public Records and Repositories, the Office of Public Information and Education, the Office of the Chief Information Officer, and the Office of the Chief of Operations (which includes the Receipt Analysis and Control Division, the Copyright Acquisitions Division, and the Licensing Division). It also provides updated mailing addresses as set forth in 37 CFR 201.1(b)(2) and (c).

Additionally, when referring to the Office's Web site, the proposed rule replaces the term "homepage" with the term "Web site."

In the interest of consistency, the proposed rule also removes the initials "U.S." from certain provisions that refer to the "U.S. Copyright Office." Finally, the proposed rule clarifies that checks, money orders, or other fees submitted to the Office should be made payable to the "U.S. Copyright Office," rather than the "Register of Copyrights." See, e.g., 37 CFR 201.6, 201.33(e)(2)(i), 201.39(g)(3)(i).

### II. Compendium of U.S. Copyright Office Practices

The *Compendium of U.S. Copyright Office Practices, Third Edition*, published in December 2014, is the administrative manual of the Register of Copyrights concerning the statutory duties of the Copyright Office under title 17 of the United States Code. It serves as both a technical manual for the Office's staff and a guidebook for authors, copyright licensees, practitioners, scholars, the courts, and members of the general public.<sup>1</sup> The proposed rule clarifies the means for viewing and obtaining copies of the *Third Edition*, as well as prior editions of the *Compendium*, set forth in 37 CFR 201.2(b)(7).

### III. Grammatical Amendments

The proposed rule corrects errors in spelling, capitalization, punctuation, spacing, and numbering, and addresses inconsistencies in the use of abbreviations, symbols, time periods, and italics. For example, the proposed rule revises 37 CFR 201.4 to reflect that registrations issued under the 1909 Act may contain a prefix consisting of one or two letters (e.g., E, EU, F, G, K, etc.) as opposed to "a two- or three-letter prefix," and corrects the word "or" to "of" in the definition of "official certification."

### IV. Updated Citations and Cross-References to the Copyright Act and the Code of Federal Regulations

The proposed rule adopts the appropriate format for citing or cross-referencing other provisions of the Code of Federal Regulations, as recommended by the *Federal Register Document Drafting Handbook*. It also reserves §§ 201.15, 205.6 through 205.10, and 205.14 through 205.20 for future use.

In addition, the proposed rule revises erroneous cross-references to the Copyright Act and the Code of Federal

Regulations. By way of example, the proposed rule corrects a cross-reference relating to the deposit requirements for certain sculptural works to make clear the Office's practice of allowing applicants, under certain circumstances, to submit a single copy of a board game (rather than two copies) instead of a photograph, as set forth in 37 CFR 202.20(c)(2)(i)(G) and (c)(2)(xi)(B).

### V. Updated Terminology

The proposed rule reflects a number of changes in terminology. These changes replace outdated terms that are no longer used by the Office, but they do not represent a substantive change in policy. For example, the Office now uses the term "applicant" when referring to a person who submits an application for registration, and uses the term "remitter" when referring to a person who submits a document for recordation. The proposed rule adds these terms where they are missing from the regulations. The proposed rule also replaces the term "certificate of record" with "certificate of recordation," "Visual Arts Regulatory Statements" with "Visual Arts Registry Statements," "vessel hulls" with "vessel designs," and "restored works" to "restored copyright." It also removes references to information provided "on the application" for deposit accounts and the term "preregistration." Finally, the proposed rule updates the name of Form SC from "Statement of Account for Secondary Transmissions by Satellite Carriers to Home Viewers" in § 201.11(d)(2) to "Statement of Account for Secondary Transmissions by Satellite Carriers of Distant Television Signals."

### VI. Improved Readability and Style

Consistent with the Office's longstanding policy,<sup>2</sup> the proposed rule replaces gender-specific references with gender-neutral references. The proposed rule also improves readability by renumbering certain provisions, by rewriting awkward phrases or paragraphs, and by deleting redundant provisions that repeat what is stated elsewhere in the same provision. For example, the Office's regulations governing Freedom of Information Act policies in § 203.4(f) and (g) were rewritten without substantive change to improve readability. In all cases, these changes are intended to clarify the

existing regulations, but do not represent a substantive change in policy.

## VII. Expired or Obsolete Provisions

The Office has identified a number of provisions that have expired or have become obsolete. Because these provisions no longer serve any purpose, the Office is removing them from its regulations.

*Effective Date of Registration for Registrations Issued in 1991.* The Copyright Fees and Technical Amendments Act of 1989 increased the filing fee for registering a claim to copyright from \$10 to \$20.<sup>3</sup> The proposed rule eliminates a provision in § 202.4 establishing a procedure for assigning an effective date of registration for claims received between January 3, 1991 and December 31, 1991 that were submitted with an insufficient filing fee, as these dates have passed.

*Registration of Mask Works.* The proposed rule removes language in § 211.4(b)(1) specifying that January 7, 1985 will be the effective date of registration for applications to register mask works received before that date<sup>4</sup> because any such applications have been processed by now.

*Recordation of Statements of Intent to Enforce Filed Under the North American Free Trade Agreement.* Because the deadline for filing a “Statement of Intent” to reclaim copyright protection for certain motion pictures fixed or published in Canada or Mexico that fell into the public domain in the United States due to a lack of a copyright notice under NAFTA expired on December 31, 1994,<sup>5</sup> and because the provision that authorized the Office to record these types of statements has been removed from the statute, the proposed rule removes the corresponding provision at 37 CFR 201.31 from the regulations.<sup>6</sup>

*Registration of Restored Works.* The proposed rule removes outdated language in § 201.31 related to a procedure for registering foreign works that were restored to copyright protection under section 104A of the Copyright Act (as amended by the

URAA)<sup>7</sup> and describes the correct procedure for registering a restored work.

*Recordation of Notices of Intent to Enforce a Restored Work Under the URAA.* The proposed rule clarifies 37 CFR 201.33 and 201.34, which explain that a list of parties that filed a Notice of Intent to Enforce<sup>8</sup> a restored work under the URAA is available on the Office’s Web site, by removing outdated instructions for logging onto the Office’s Web site or for obtaining access to these records through terminals located in the Office and reflecting reliance upon email addresses rather than “telefax number[s].”

*Recordation of Voluntary Agreements Between Copyright Owners and Public Broadcasters.* In accordance with statutory changes that removed the prior section 118(b)(2) from the Copyright Act,<sup>9</sup> and gave the Copyright Royalty Judges rather than the Register of Copyrights authority over the statutory license in section 118,<sup>10</sup> the Office is removing the obsolete regulatory provision at 37 CFR 201.9 relating to recordation of voluntary agreements between copyright owners and public broadcasting entities<sup>11</sup> from the regulations.

*IBM-PC Compatible Disks for Recording Documents Pertaining to Computer Shareware.* The Office is updating its administrative procedure in 37 CFR 201.26(d)(4) for recording documents pertaining to computer shareware to no longer indicate that they be submitted on both paper and diskette; they will now be accepted without a diskette. The Office has recorded less than two dozen shareware documents since the final rule was adopted.

*Copyright Arbitration Royalty Panel Rules and Procedures.* Subchapter B contains various regulations relating to the former Copyright Arbitration Royalty Panel or “CARP,” including legacy royalty rates for past accounting periods, which certain regulations were phased out by the Copyright Royalty and Distribution Reform Act of 2004.<sup>12</sup> The successor entity to the CARP, the Copyright Royalty Board, has issued its own set of rules and procedures.<sup>13</sup>

Accordingly, the Office is removing obsolete CARP regulations, while retaining parts 254 and 256 which contain information related to coin-operated phonorecord players and the cable compulsory license, respectively. However, the Office notes that these legacy rates and regulations will remain accessible via past editions of the Code of Federal Regulations for any who may have need to consult them. In addition, legacy regulations are available on the Government Publishing Office’s Federal Digital System (“FDsys”) at [www.gpo.gov/fdsys](http://www.gpo.gov/fdsys).

*Statements of Account covering compulsory licenses for secondary transmissions by cable systems.* The Office is removing the portions of § 201.17(i) that relate to filings covering the accounting periods in 1983 that were affected by the 1982 cable rate adjustment,<sup>14</sup> as the Office does not expect to receive any additional filings covering these accounting periods. Similarly, the Office is removing § 201.17(m)(2)(iii), which applies only to statements for the 1978–1 accounting period, along with certain other references to pre-1978 activities in 201.17(e) and (f).

*Verification of a Statement of Account for secondary transmissions made by cable systems and satellite carriers.* Effective November 18, 2014, the Office implemented § 201.16, which sets forth procedures by which a copyright owner may audit a statement of account filed with the Office under 17 U.S.C. 111(d)(1) or 119(b)(1).<sup>15</sup> This regulation includes a provision outlining a procedure in the event the Office received a notice of intent to audit a statement of account prior to the effective date of the section. See 37 CFR 201.16(c)(7). Because the Office did not in fact receive any notice of intent to audit prior to the effective date of the section, that provision is now obsolete and may be removed.

*Statements of Account for digital audio recording devices or media.* Section 201.28(c)(3) includes provisions that solely concern Statements of Account filed for the period covering October 28, 1992 through the end of the first accounting year for importers/manufacturers of digital audio recording devices. Because the Office does not expect to receive any additional filings covering this accounting period, the Office is removing this language.

*Forms on Copyright Office Web site.* The proposed rule updates § 201.28 to reflect that forms relating to various statutory licenses are available on the Copyright Office Web site and removes references addressing requests by mail or facsimile.

*Telegrams and Cablegrams.* The existing regulations in §§ 201.13 and 201.22 allow copyright owners to serve certain types of notices required under sections 110(4)(B)(iii)<sup>16</sup> and 411(c)<sup>17</sup> by telegram or cablegram. The proposed rule updates these regulations to remove references to these obsolete forms of communication and instead allow for service of notices by email or fax.

*Inspection of U.S. Copyright Office Records.* The proposed rule removes § 201.2(b)(4)'s requirement that requests to inspect a pending application, deposit for a pending application,<sup>18</sup> or a document submitted for recordation<sup>19</sup> be limited to materials submitted within twelve months prior to the request, given that the processing time for a paper application may be longer than that in some cases.

*Refunds.* The proposed rule removes the reference to postage stamps in 37 CFR 201.6(c)(1) because in practice, the Office has never used this method of payment in issuing refunds.

\* \* \* \* \*

(c) \* \* \*

(1) Statements of Account shall cover semiannual accounting periods of January 1 through June 30, and July 1 through December 31, and shall be deposited in the Copyright Office, together with the total royalty fee for such accounting periods as prescribed by 17 U.S.C. 111(d)(1)(B) through (F), by no later than the immediately following August 29, if the Statement of Account covers the January 1 through June 30 accounting period, and by no later than the immediately following March 1, if the Statement of Account covers the July 1 through December 31 accounting period.

(e) \* \* \*

(7) The designation “Gross Receipts”, followed by the gross amount paid to the cable system by subscribers for the basic service of providing secondary transmissions of primary broadcast transmissions during the period covered by the Statement of Account.

(i) If the cable system maintains its revenue accounts on an accrual basis, gross receipts for any accounting period includes all such amounts accrued for secondary transmission service furnished during that period, regardless of when accrued:

(A) Less the amount of any bad debts actually written-off during that accounting period;

(B) Plus the amount of any previously written-off bad debts for secondary transmission service which were actually recovered during that accounting period.

(ii) If the cable system maintains its revenue accounts on a cash basis, gross receipts of any accounting period includes all such amounts actually received by the cable system during that accounting period.

\* \* \* \* \*

(f) \* \* \*

(3) In computing the DSE of a primary transmitter in a particular case of carriage on or after July 1, 1981, the cable system may make no prorated adjustments other than those specified in 17 U.S.C. 111(f)(5)(B), and which remain in force under that provision. Two prorated adjustments, as prescribed in that section, are permitted under certain conditions where:

(i) A station is carried on a part-time basis where full-time carriage is not possible because the cable system lacks the activated channel capacity to retransmit on a full-time basis all signals which it is authorized to carry; and

(ii) A station is carried on a “substitute” basis under rules, regulations, or authorizations of the FCC in effect on October 19, 1976 (as defined in 17 U.S.C. 111(f)(5)(B)(ii)), which permitted a cable system, at its election, to omit the retransmission of a particular program and substitute another program in its place.

\* \* \* \* \*

(i) \* \* \*

(3) It shall be presumed that the 3.75% rate of 37 CFR 308.2(c) applies to DSEs accruing from newly added distant signals, carried for the first time by a cable system after June 24, 1981. The presumption of this section can be rebutted in whole or in part:

(i) By actual carriage of a particular distant signal prior to June 25, 1981, as reported in Statements of Account duly filed with the Copyright Office (“actual carriage”), unless the prior carriage was not permitted by the FCC; or

(ii) By carriage of no more than the number of distant signals which was or would have been allotted to the cable system under the FCC’s quota for importation of network and

nonspecialty independent stations (47 CFR 76.59(b), 76.61 (b) and (c), and 76.63, referring to 76.61 (b) and (c), in effect on June 24, 1981).
