Title: National Food Study Pilot.
OMB Control Number: 0536–NEW.
Summary of Collection: The

Economic Research Service (ERS) will be conducting the National Alternative Data Collection Method (ADCM) for Collecting FoodAPS-Like Data Study (aka National Food Study Pilot). The mission of ERS is to provide timely research and analysis to public and private decision makers on topics related to agriculture, food, the environment, and rural America. To achieve this mission, ERS requires a variety of data that describe agricultural production, food distribution channels, availability and price of food at the point of sale, and household demand for food products. Section 17 (U.S.C. 2026) (a) (1) of the Food and Nutrition Act of 2008 provides legislative authority for the planned data collection. .

Need and Use of the Information: The main objective of the National Food Study Pilot (NSF) is to test an alternative method of collecting data on the food acquired by American households that leads to more complete and accurate information about patterns of food acquisitions. The NSF Pilot will make use of the latest computer technologies to collect data on foods acquired and to monitor data. The data collection will provide information that is critical to ERS' plans for the next round of FoodAPS data collection. The NSF Pilot findings will be used to improve the sampling design and data collection methodology for the next FoodAPS Study.

The policy and operational issues include, but are not limited to, the preparation of the program budget, development and implementation of program policy and regulations, and identification of areas for technical assistance and training. Specifically, this study will help FNS obtain:

- General descriptive data on the CN program characteristics to help FNS respond to questions about the nutrition programs in schools;
- Data related to program administration for designing and revising program regulations, managing resources, and reporting requirements; and
- Data related to program operations to help FNS develop and provide training and technical assistance for School Food Authorities (SFAs) and State Agencies responsible for administering the CN programs.

The activities to be undertaken subject to this notice include:

- Conducting a multi-modal (*e.g.* paper, web, and telephone) survey of approximately 1,750 SFA Directors in School Year (SY) 2016-17, SY 2017-18, and SY 2018-19; and
- Conducting a multi-modal (*e.g.* paper, web, and telephone) survey of all 55 State Agency CN Directors in SY 2016-17, SY 2017-18, and SY 2018-19.

Affected Public: State, Local and Tribal Governments.

Estimated Total Annual Responses: 6737 responses across the entire collection. This includes 5,423 for the respondents and 1,314 for the non-respondents.

Estimate of Time per Respondent and Annual Burden: The average time across all respondents is 42 minutes (0.70 hours). This includes 3.5 minutes (0.06 hours) for non-respondents and 51 minutes (0.85 hours) for respondents. The total annual reporting burden is estimated at 4,699 (see Exhibit 1. Estimates of Respondent Burden). The estimates presented are expected to be typical of the burden in each year of data collection. FNS will submit amended estimates if burden deviates significantly for a particular year.

Dated: September 20, 2016.
