SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Needs and Uses: In the 2005 Report and Order and Further Notice of Proposed Rulemaking, In the Matter of Rules and Regulations Implementing Minimum Customer Account Record Exchange Obligations on All Local and Interexchange Carriers (2005 Report and Order), CG Docket No. 02-386, FCC 05-29, which was released on February 25, 2005, the Commission adopted rules governing the exchange of customer account information between local exchange carriers (LECs) and interexchange carriers (IXCs). The Commission concluded that mandatory, minimum standards are needed in light of record evidence demonstrating that information needed by carriers to execute customer requests and properly bill customers is not being consistently

provided by all LECs and IXCs. Specifically, the 2005 Report and Order requires LECs to supply customer account information to IXCs when: (1) The LEC places an end user on, or removes an end user from, an IXC's network; (2) an end user presubscribed to an IXC makes certain changes to her account information via her LEC; (3) an IXC requests billing name and address information for an end user who has usage on an IXC's network but for whom the IXC does not have an existing account; and (4) a LEC rejects an IXC-initiated PIC order. The 2005 Report and Order required IXCs to notify LECs when an IXC customer informs an IXC directly of the customer's desire to change IXCs. In the accompanying Further Notice of Proposed Rulemaking, the Commission sought comment on whether to require the exchange of customer account information between LECs. In December 2007, the Commission declined to adopt mandatory LEC-to-LEC data exchange requirements.

SUPPLEMENTARY INFORMATION:

A. Purpose

The Data Universal Numbering System (DUNS) number is the nine-digit identification number assigned by Dun and Bradstreet Information Services to an establishment. The Government uses the DUNS number to identify contractors in reporting to the Federal Procurement Data System (FPDS). The FPDS provides a comprehensive mechanism for assembling, organizing, and presenting contract placement data for the Federal Government. Federal agencies report data on all contracts in excess of the micro-purchase threshold to the Federal Procurement Data Center which collects, processes, and disseminates official statistical data on Federal contracting. Contracting officers insert the Federal Acquisition Regulation (FAR) provision at 52.204-6, Data Universal Numbering System (DUNS) Number, in solicitations they expect will result in contracts in excess of the micro-purchase threshold and do not contain FAR 52.204-7, Central Contractor Registration. The majority of offerors submit their DUNS through CCR as required by FAR 52.204-7, and not under the FAR provision at 52.204-6.

B. Annual Reporting Burden

Respondents: 22,070.
Responses per Respondent: 3.
Annual Responses: 66,210.
