

and increase feedback, which will in turn lead to consistent program management and improved environmental results. The Framework is described in the April 26, 2005 **Federal Register** Notice (79 FR 21408). This request will allow OECA to collect information from enforcement and compliance files reviewed during routine on-site visits of state or local agency offices that will assist in the evaluation of the State Review Framework implementation from FY 2017 to the end of FY 2019. It will allow also EPA to make inquiries to assess the State Review Framework process, including the consistency achieved among the EPA Regions and states, the resources required to conduct the reviews, and the overall effectiveness of the program.

Form Numbers: None.

Respondents/affected entities: States, localities, and territories.

Respondent's obligation to respond: Required as part of program authorization under the Clean Water, Clean Air, and Resource Conservation and Recovery Acts.

Estimated number of respondents: 54.

Frequency of response: Once every five years.

Total estimated burden: 2,765 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$108,649 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is decrease of 2,862 hours (per year) in the total estimated respondent burden compared with the ICR currently approved by OMB. SUPPLEMENTARY INFORMATION:

A. Purpose

The Federal Acquisition Streamlining Act (FASA) of 1994, Public Law 103-355, provided authorities that streamlined the acquisition process and minimize burdensome Government-unique requirements. Sections 2001 and 2051 of FASA substantially changed the statutory authorities for Government financing of contracts. Sections 2001(f) and 2051(e) provide specific authority for Government financing of purchases of commercial items; here, contract financing is permitted with certain limitations. Likewise, sections 2001(b) and 2051(b) substantially revised the authority for Government financing of purchases of non-commercial items, by permitting contract financing on the basis of certain classes of measures of performance.

To implement these changes, DOD, NASA, and GSA amended the FAR by revising Subparts 32.0, 32.1, and 32.5; by adding new Subparts 32.2 and 32.10; and by adding new clauses to 52.232.

The coverage enables the Government to provide financing to assist in the performance of contracts for commercial items and provide financing for non-commercial items based on contractor performance.
