Abstract: Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the NESHAP General Provisions (40 CFR part 63, subpart A), as well as for the specific requirements at 40 CFR part 63, subpart DDDD. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities:

Plywood and composite wood products (PCWP) facilities.

Respondent’s obligation to respond: Mandatory (40 CFR part 63, subpart DDDD).

Estimated number of respondents: 228 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 11,900 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,250,000 (per year), which includes \$16,000 in either annualized capital/startup or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the total estimated labor hours as currently identified in the OMB Inventory of Approved Burdens. This increase is not

due to any program changes. The change in the labor burden and cost estimates occurred because of a change in assumption. This ICR assumes all existing respondents will have to familiarize with the regulatory requirements each year. In addition, there is a small increase in O&M cost due to rounding of total cost figure to three significant figures.

Courtney Kerwin,

Director, Regulatory Support Division.
