The Exchange has made the following representations and statements in describing the Fund and its investment strategies, including the Fund’s portfolio holdings and investment restrictions.\(^9\)

A. Exchange’s Description of the Fund’s Principal Investments

According to the Exchange, the Fund’s investment objective will be to seek to provide as high a level of current income as is consistent with liquidity and minimum volatility of principal. The Fund will seek to achieve its investment objective by investing, under normal market conditions,\(^10\) at least 80% of its net assets in a portfolio of registered U.S. government money market mutual funds (“Underlying Funds”)\(^11\) and in U.S. dollar-denominated government securities and other money market securities eligible for investment by U.S. government money market funds (including indirect investments in those securities through the Underlying Funds).

Under normal market conditions, the Fund intends to invest a substantial portion of its assets in the following Underlying Funds: (a) Treasury Portfolio; (b) Government TaxAdvantage Portfolio; (c) Government & Agency Portfolio; and (d) Premier US Government Money Portfolio, each of which is advised by an affiliate of the Adviser. The Sub-Adviser may add, eliminate, or replace any or all Underlying Funds at any time. Any additions to or replacements of the Underlying Funds in the Fund’s portfolio also will be registered U.S. government money market funds with investment characteristics that are substantially similar to those of the Underlying Funds. The Adviser, the Sub-Adviser, or their affiliates may advise some or all the Underlying Funds. In constructing the Fund’s portfolio, the Sub-Adviser generally will allocate and re-allocate the Fund’s assets among the Underlying Funds on a monthly basis on an approximate pro rata basis that is based on the amount of net assets of each Underlying Fund. However, the Sub-Adviser is not required to invest the Fund’s assets in any particular Underlying Fund or allocate any particular percentage of the Fund’s assets to any particular Underlying Fund.

B. Exchange’s Description of the Fund’s Other Investments

While the Fund, under normal circumstances, will invest at least 80% of its net assets in the securities and financial instruments described above, the Fund may invest its remaining assets in other assets and financial instruments, as described below.

The Fund (and the Underlying Funds) may invest in certain U.S. government obligations other than those referenced above, namely Treasury receipts where the principal and interest components are traded separately under the Separate Trading of Registered Interest and Principal of Securities (STRIPS) program. The Fund also may invest directly in repurchase agreements and reverse repurchase agreements.

C. Exchange’s Description of the Fund’s Investment Restrictions

According to the Exchange, the Fund will be classified as “non-diversified.”

The Fund intends to maintain the required level of diversification and otherwise conduct its operations so as to qualify as a regulated investment company for purposes of the U.S. Internal Revenue Code of 1986, as amended.

The Fund may invest up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment). The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund’s net assets are held in illiquid assets. Illiquid assets include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.

The Fund will not invest in futures, options, swaps, or forward contracts.

The Fund’s investments will be consistent with the Fund’s investment objective and will not be used to enhance leverage. That is, while the Fund will be permitted to borrow as permitted under the 1940 Act, the Fund’s investments will not be used to seek performance that is the multiple or inverse multiple of the Fund’s primary broad-based securities benchmark index (as defined in Form N-1A).

III. Proceedings to Determine Whether to Approve or Disapprove SR–NYSEArca-2016–97 and Grounds for Disapproval Under Consideration

The Commission is instituting proceedings pursuant to Section 19(b)(2)(B) of the Act\(^12\) to determine whether the proposed rule change should be approved or disapproved. Institution of such proceedings is appropriate at this time in view of the legal and policy issues raised by the proposed rule change. Institution of proceedings does not indicate that the Commission has reached any conclusions with respect to any of the issues involved. Rather, as described below, the Commission seeks and encourages interested persons to

\(^9\) The Commission notes that additional information regarding the Trust, the Fund, and the Shares, including investment strategies, risks, net asset value (“NAV”) calculation, creation and redemption procedures, fees, Fund holdings disclosure policies, distributions, and taxes, among other information, is included in the Notice and the Registration Statement, as applicable. See Notice and Registration Statement, supra notes 3 and 7, respectively.

\(^10\) The term “under normal market conditions” includes, but is not limited to, the absence of extreme volatility or trading halts in the fixed income securities markets or the financial markets generally; circumstances under which the Fund’s investments are made for temporary defensive purposes; operational issues (e.g., systems failure) causing dissemination of inaccurate market information; or force majeure type events such as natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance.

\(^11\) According to the Exchange, each Underlying Fund is a “government money market fund,” as that term is defined in Rule 2a–7 of the 1940 Act (“Rule 2a–7”), and seeks to maintain a stable $1.00 NAV. Each Underlying Fund has an investment objective of seeking to provide current income consistent with preservation of capital and liquidity. The securities held by the Underlying Funds will comply with all requirements of Rule 2a–7 and other Commission rules applicable to money market funds seeking a stable NAV. Each Underlying Fund invests at least 99.5% of its total assets in cash, government securities, and/or repurchase agreements collateralized by cash or government securities. In addition, each Underlying Fund invests only in U.S. dollar-denominated securities maturing within 397 days of the date of purchase, with certain exceptions permitted by applicable regulations, and maintains a dollar-weighted average portfolio maturity of no more than 60 days, and a dollar-weighted average portfolio maturity (as determined without exceptions regarding certain interest rate adjustments under Rule 2a–7) of no more than 120 days. The Exchange represents that, unlike the Underlying Funds, the Fund will not be a money market fund, meaning that the Fund will not be subject to other requirements of Rule 2a–7. However, the Fund will only purchase securities issued by registered government money market funds, or securities that comply with the quality and eligibility requirements of Rule 2a–7. The Fund and the Underlying Funds may invest in variable and floating rate instruments that are permitted under the requirements of Rule 2a–7, and may transact in securities on a when-issued, delayed delivery, or forward commitment basis.

provide comments on the proposed rule change.

Pursuant to Section 19(b)(2)(B) of the Act, the Commission is providing notice of the grounding for disapproval under consideration. The Commission is instituting proceedings to allow for additional analysis of the proposed rule change's consistency with Section 6(b)(5) of the Act, which requires, among other things, that the rules of a national securities exchange be “designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade,” and “to protect investors and the public interest.”

Under the proposal, BNYM will calculate the Fund’s NAV at 12:00 p.m., Eastern time, every day the New York Stock Exchange is open. In addition, to initiate an order for a creation unit, the Distributor or its agent must receive an irrevocable order from an authorized participant, in proper form, no later than 12:00 p.m., Eastern time, if that order is placed in order to receive that day’s NAV. Likewise, with respect to redemptions, an authorized participant must submit an irrevocable request to redeem shares of the Fund generally before 12:00 p.m., Eastern time on any business day in order to receive that day’s NAV. The Commission notes the proposal does not provide any explanation for the early NAV calculation time and creation and redemption cut-off time. The proposal also does not explain whether the early NAV calculation time and creation and redemption cut-off time would have any impact on the trading of the Shares, including any impact on arbitrage.

Accordingly, the Commission seeks commenters’ views on the 12:00 p.m. NAV calculation time and creation and redemption cut-off time, and on whether the Exchange’s statements relating to the NAV calculation and the creation and redemption process support a determination that the listing and trading of the Shares would be consistent with Section 6(b)(5) of the Act, which, among other things, requires that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and to protect investors and the public interest.

IV. Procedure: Request for Written Comments

The Commission requests that interested persons provide written submissions of their views, data, and arguments with respect to the issues identified above, as well as any other concerns they may have with the proposal. In particular, the Commission invites the written views of interested persons concerning whether the proposal is consistent with Section 6(b)(5) or any other provision of the Act, or the rules and regulations thereunder. Although there do not appear to be any issues relevant to approval or disapproval that would be facilitated by an oral presentation of views, data, and arguments, the Commission will consider, pursuant to Rule 19b-4, any request for an opportunity to make an oral presentation.

Interested persons are invited to submit written data, views, and arguments regarding whether the proposal should be approved or disapproved by November 17, 2016. Any person who wishes to file a rebuttal to any other person’s submission must file that rebuttal by December 1, 2016. The Commission asks that commenters address the sufficiency of the Exchange’s statements in support of the proposal, which are set forth in the Notice, in addition to any other comments they may wish to submit about the proposed rule change.
