

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 147

[EPA-HQ-OW-2015-0372; FRL 9953-37-OW]

State of Kentucky Underground Injection Control (UIC) Class II Program; Primacy Approval

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is taking direct final action to approve the Commonwealth of Kentucky’s Underground Injection Control Class II (UIC) Program for primacy. The EPA determined that the state’s program is consistent with the provisions of the Safe Drinking Water Act (SDWA) at Section 1425 to prevent underground injection activities that endanger underground sources of drinking water. The agency’s approval allows the state to implement and enforce state regulations for UIC Class II injection wells located within the state. The Commonwealth’s authority excludes the regulation of injection well Classes I, III, IV, V and VI and all wells on Indian lands, as required by rule under the SDWA.

DATES: This rule is effective on January 26, 2017 without further notice, unless EPA receives adverse comment by November 28, 2016. If EPA receives adverse comment, we will publish a timely withdrawal in the **Federal Register** informing the public that the

rule will not take effect. For judicial purposes, this final rule is promulgated as of January 26, 2017. The incorporation by reference of certain publications listed in the rule is approved by the Director of the Federal Register as of January 26, 2017.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OW-2015-0372, to the *Federal eRulemaking Portal*: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Holly S. Green, Drinking Water Protection Division, Office of Ground Water and Drinking Water (4606M), U.S.

Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 566-0651; fax number: (202) 564-3754; email address: green.holly@epa.gov; or Nancy H. Marsh, Safe Drinking Water Branch, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303; telephone number (404) 562-9450; fax number: (404) 562-9439; email address: marsh.nancy@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Why is EPA issuing a direct final rule?

EPA published this rule without a prior proposed rule because the agency views this action as noncontroversial and anticipates no adverse comment. However, in the “Proposed Rules” section of today’s **Federal Register**, EPA published a separate document that serves as the proposed rule if the agency receives adverse comment on this direct final rule. The agency will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. For further information about commenting on this rule, see the **ADDRESSES** section of this document.

If EPA receives adverse comment, the agency will publish a timely withdrawal in the **Federal Register**, informing the public that this direct final rule will not take effect. The agency will then address all public comments in any subsequent final rule based on the proposed rule.

II. Does this action apply to me?

Regulated Entities

Category	Examples of potentially regulated entities	North American industry classification system
Industry	Private owners and operators of Class II injection wells located within the state (Enhance Recovery, Produce Fluid Disposal and Hydrocarbon Storage).	211111 & 213111

This table is intended to be a guide for readers regarding entities likely to be regulated by this action. This table lists the types of entities that EPA is now aware could potentially be regulated by this action. If you have questions regarding the applicability of this action to a particular entity, consult the persons listed in the preceding **FOR FURTHER INFORMATION CONTACT** section.

III. Legal Authorities

EPA approves the Commonwealth of Kentucky’s UIC Program primacy application for Class II injection wells located within the state, as required by

rule under the SDWA, to prevent underground injection activities that endanger underground sources of drinking water. Accordingly, the agency codifies the state’s program in the *Code of Federal Regulations* (CFR) at 40 CFR part 147, under the authority of the SDWA, sections 1425, 42 U.S.C. 300h-4. The state applied to EPA under sections 1425 of the SDWA, 42 U.S.C. Sections 300h-4, for primacy (primary enforcement responsibility) for all Class II injection wells within the state except those on Indian lands.

The agency’s approval is based on a legal and technical review of the state’s

primacy application as directed at 40 CFR part 145 and the requirements for state permitting and compliance evaluation programs, enforcement authority and information sharing to determine that the state’s program is effective. EPA oversees the state’s administration of the UIC program; part of the agency’s oversight responsibility requires quarterly reports of non-compliance and annual UIC performance reports pursuant to 40 CFR 144.8. The Memorandum of Agreement between EPA and the Commonwealth of Kentucky, signed by the Regional Administrator on October 20, 2015,

provides the agency with the opportunity to review and comment on all permits. The agency continues to administer the UIC program for Class I, III, VI, V and VI injection wells in the state and all wells on Indian lands (if any such lands exist in the state in the future).

IV. Kentucky's Application

A. Public Participation Activities Conducted by the Commonwealth of Kentucky

As part of the primacy application requirements, the state held a public hearing on the state's intent to apply for primacy. The hearing was held on September 23, 2014, in the city of Frankfort, Kentucky. Both oral and written comments received for the hearing were generally supportive of the state pursuing primacy for the UIC Class II injection well program.

B. Public Participation Activities Conducted by EPA

On November 10, 2015, the agency published a notice of the state's application in the **Federal Register** (80 FR 69629). This notice provided a comment period and that a public hearing would be held if requested. The EPA received one comment during the comment period, and no requests for a public hearing. An anonymous commenter suggested the state agency give permission to construct these Class II wells so that energy dependency and job creation remain domestic and that extraction of oil and gas resources be done in an environmentally sound manner. The agency determined that the issue was outside the scope of the UIC program and not relevant as to whether the state's regulations are effective to manage the UIC Class II injection well program in accordance with section 1425 of the Safe Drinking Water Act.

C. Incorporation by Reference

This direct final rule amends 40 CFR part 147 and incorporates by reference EPA-approved state statutes and regulations. The provisions of the Commonwealth of Kentucky Code that contain standards, requirements and procedures applicable to owners or operators of UIC Class II wells are incorporated by reference into 40 CFR part 147. Any provisions incorporated by reference, as well as all permit conditions or permit denials issued pursuant to such provisions, will be enforceable by EPA pursuant to the SDWA, section 1423 and 40 CFR 147.1(e).

In order to better serve the public, the agency is reformatting the codification

of the EPA-approved state statutes and regulations. Instead of codifying the Commonwealth of Kentucky's Statutes and Regulations as separate paragraphs, the agency is now codifying a binder that contains the "EPA-Approved Commonwealth of Kentucky Safe Drinking Water Act § 1425 Underground Injection Control (UIC) Program Statutes and Regulations for Class II wells." This binder will be incorporated by reference into 40 CFR part 147 and available at www.regulations.gov in the docket for this rule. The agency is also codifying a table listing the "EPA-Approved Commonwealth of Kentucky Safe Drinking Water Act § 1425 Underground Injection Control (UIC) Program Statutes and Regulations for Class II wells" in 40 CFR part 147.

V. Statutory and Executive Order Reviews

A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This action is exempt from review by the Office of Management and Budget (OMB) because OMB has determined that the approval of state UIC primacy for Class II rules are not significant regulatory actions.

B. Paperwork Reduction Act

This action does not impose any new information collection burden. EPA determined that there is no need for an Information Collection Request under the Paperwork Reduction Act because this direct final rule does not impose any new federal reporting or recordkeeping requirements. Reporting or recordkeeping requirements are based on the Commonwealth of Kentucky's UIC Regulations, and the state is not subject to the Paperwork Reduction Act. However, OMB has previously approved the information collection requirements contained in the existing UIC regulations at 40 CFR parts 144–148 for SDWA section 1422 states and also for section 1425 states under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* and assigned OMB control number 2040–0042. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

C. Regulatory Flexibility Act (RFA)

I certify that this action will not have a significant economic impact on a substantial number of small entities under the RFA. In making this determination, the impact of concern is any significant adverse economic impact on small entities. An agency may certify that a rule will not have a

significant economic impact on a substantial number of small entities if the rule relieves regulatory burden, has no net burden or otherwise has a positive economic effect on the small entities subject to the rule. This action does not impose any new requirements on any regulated entities. It simply codifies the Commonwealth of Kentucky's UIC Program regulations, which meets the effectiveness standard under SDWA section 1425 for regulating a Class II well program. I have therefore concluded that this action will have no net regulatory burden for any directly regulated small entities.

D. Unfunded Mandates Reform Act (UMRA)

This action does not contain an unfunded mandate as described in UMRA, 2 U.S.C. 1521–1538. The action imposes no enforceable duty on any state, local or tribal governments or the private sector.

E. Executive Order 13132—Federalism

This action does not have federalism implications. It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

F. Executive Order 13175—Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications as specified in Executive Order 13175 as explained in section V.C. Thus, Executive Order 13175 does not apply to this action.

G. Executive Order 13045: Protection of Children From Environmental Health & Safety Risks

EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern environmental health or safety risks that EPA has reason to believe may disproportionately affect children, per the definition of "covered regulatory action" in section 2–202 of the Executive Order. This action is not subject to Executive Order 13045 because it approves a state action as explained in section V.C.

H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

This action is not subject to Executive Order 13211 because it is not a significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act (NTTAA)

This rulemaking does not involve technical standards.

J. Executive Order 12898: Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations

EPA believes the human health or environmental risk addressed by this action will not have potential disproportionately high and adverse human health or environmental effects on minority, low-income or indigenous populations because the rule does not change the level of protection provided to human health or the environment.

K. Congressional Review Act (CRA)

This action is subject to the CRA, and EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 147

Environmental protection, Appeals, Incorporation by reference, Penalties, Requirements for plugging and abandonment, Underground Injection Control, Protection for USDWs.

Dated: October 19, 2016.

Gina McCarthy,
Administrator.

For the reasons set out in the preamble, title 40 of the Code of Federal Regulations is amended as follows:

PART 147—STATE, TRIBAL, AND EPA-ADMINISTERED UNDERGROUND INJECTION CONTROL PROGRAMS

■ 1. The authority citation for part 147 is revised to read as follows:

Authority: 42 U.S.C. 300h–4.

■ 2. Section 147.900 is added to read as follows:

Subpart S—Kentucky

§ 147.900 State-administered program—Class II wells.

The UIC program for Class II injection wells in the Commonwealth of Kentucky, except for those on Indian lands, is the program administered by the Kentucky Department of Natural Resources, Division of Oil and Gas approved by the EPA pursuant to section 1425 of the SDWA. Notification of this approval was published in the **Federal Register** on October 28, 2016]; the effective date of this program is January 26, 2017. Table 1 to paragraph (a) of this section is the table of contents of the Kentucky state statutes and

regulations incorporated as follows by reference. This program consists of the following elements, as submitted to the EPA in the state’s program application.

(a) *Incorporation by reference.* The requirements set forth in the Kentucky State statutes and regulations cited in the binder entitled “EPA-Approved Commonwealth of Kentucky Safe Drinking Water Act § 1425 Underground Injection Control (UIC) Program Statutes and Regulations for Class II wells,” dated August 2016 is hereby incorporated by reference and made a part of the applicable UIC program under the SDWA for the Commonwealth of Kentucky. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies of the Kentucky regulations may be obtained or inspected at the Kentucky Department of Natural Resources, Division of Oil and Gas, 3th Floor, 300 Sower Blvd., Frankfort, Kentucky 40601, (315) 532–0191; at the U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303–8960, (404) 562–8190; or at the National Archives and Records Administration (NARA). For information on availability of this material at NARA, call (202) 741–6030, or go to: <http://www.archives.gov/federal-register/cfr/ibr-locations.html>.

(b) *Memorandum of Agreement (MOA)*. The MOA between EPA Region 4 and the Commonwealth of Kentucky Department of Natural Resources signed by EPA Regional Administrator on October 20, 2015.

(c) *Statements of Legal Authority*. “Underground Injection Control Program, Attorney General’s Statement,” signed by General Counsel of Kentucky Energy and Environmental Cabinet on June 7, 2010.

(d) *Program Description*. The Program Description submitted as part of Kentucky’s application, and any other materials submitted as part of this application or as a supplement thereto.

■ 3. Section 147.901 is amended by revising the section heading and the first sentence of paragraph (a) to read as follows:

§ 147.901 EPA-administered program—Class I, III, IV, V, and VI wells and Indian lands.

(a) *Contents*. The UIC program for Class I, III, IV, V and VI wells and all wells on Indian lands in the Commonwealth of Kentucky is administered by the EPA. * * *

* * * * *

■ 4. Add § 147.902 to read as follows:

§ 147.902 Aquifer Exemptions.

(a) This section identifies any aquifers or their portions exempted in accordance with §§ 144.7(b) and 146.4 of this chapter. These aquifers are not being proposed for exemption under the Commonwealth of Kentucky’s primacy approval. Rather, the exempted aquifers listed below were previously approved while EPA had primary enforcement authority for the Class II UIC program in the Commonwealth of Kentucky and are included here for reference. Additional information pertinent to these exempted aquifers or their portions resides in EPA Region 4.

(1) The following eight aquifers (underground sources of drinking water) in the Commonwealth of Kentucky have been exempted in accordance with the provisions of §§ 144.7(b) and 146.4 of this chapter for Class II injection activities only: A portion of the Tar Springs sandstone formation that has a quarter mile radius areal extent (125.6 acres) that is located at latitude 37.7261 and longitude –86.6914. The formation has a true vertical depth from surface of 280 feet.

(2) A portion of the Tar Springs sandstone formation that has a quarter mile radius areal extent (125.6 acres) that is located at latitude 37.7294 and longitude –86.7212. The formation has a true vertical depth from surface of 249 feet.

(3) A portion of the Tar Springs sandstone formation that has a quarter mile radius areal extent (125.6 acres) that is located at latitude 37.7055 and longitude –86.7177. The formation has a true vertical depth from surface of 210 feet.

(4) A portion of the Pennsylvanian Age sandstone formation that has a quarter mile radius areal extent (125.6 acres) that is located at latitude 37.5402 and longitude –87.2551. The formation has a true vertical depth from surface of 1,050 feet.

(5) A portion of the Tar Springs sandstone formation that has a quarter mile radius areal extent (125.6 acres) that is located at latitude 37.7301 and longitude –87.6922. The formation has a true vertical depth from surface of 240 feet.

(6) A portion of the Caseyville sandstone formation that has a quarter mile radius areal extent (125.6 acres) that is located at latitude 37.5776 and longitude –87.1321. The formation had a true vertical depth from surface of 350 feet.

(7) A portion of the Caseyville sandstone formation that has a quarter

mile radius areal extent (125.6 acres) that is located at latitude 37.5778 and longitude –87.1379. The formation has a true vertical depth from surface of 1,080 feet.

(8) A portion of the Caseyville sandstone formation that has a quarter mile radius areal extent (125.6 acres) that is located at latitude 37.5652 and longitude –87.1222. The formation has a true vertical depth from surface of 1,060 feet.

(b) [Reserved]

■ 5. Section 147.903 is amended by revising the section heading to read as follows:

§ 147.903. Existing Class I and III wells authorized by rule.

§ 147.904 [Removed and reserved]

■ 6. Section 147.904 is removed and reserved.

[FR Doc. 2016–25931 Filed 10–27–16; 8:45 am]

BILLING CODE 6560–50–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

45 CFR Part 5

RIN 0991–AC04

Freedom of Information Regulations

AGENCY: Office of the Secretary, Department of Health and Human Services (HHS).

ACTION: Final rule.

SUMMARY: This rule amends the Department of Health and Human Services (HHS’s) Freedom of Information Act (FOIA) regulations. The regulations have been revised in order to incorporate changes made to the FOIA by the Electronic FOIA Act of 1996 (E–FOIA Act), the Openness
