### Bureau of Land Management

[LLMT929000/L14400000.BJ0000;  
17X1109AF; MO#4500100894]

#### Notice of Filing of Plats of Survey; Montana

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of filing of plats of survey.

**SUMMARY:** The Bureau of Land Management (BLM) will file the plat of survey of the lands described below in the BLM Montana State Office, Billings, Montana, on November 28, 2016.

**DATES:** A notice of protest of the survey must be filed before November 28, 2016 to be considered. A statement of reasons for a protest may be filed with the notice of protest and must be filed within thirty days after the notice of protest is filed.

**ADDRESSES:** Protests of the survey should be sent to the Branch of Cadastral Survey, Bureau of Land Management, 5001 Southgate Drive, Billings, Montana 59101-4669.

**FOR FURTHER INFORMATION CONTACT:** Blaise Lodermeier, Cadastral Surveyor, Branch of Cadastral Survey, Bureau of Land Management, 5001 Southgate Drive, Billings, Montana 59101-4669, telephone (406) 896-5128 or (406) 896-5003, [bloderme@blm.gov](mailto:bloderme@blm.gov). Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** This survey was executed at the request of the Chief, Branch of Realty, Lands and Renewable Energy, Bureau of Land Management, Billings, Montana, and was necessary to create Tracts of land to be transferred to the State of Montana through the indemnity selection process.

The lands we surveyed are:

#### Principal Meridian, Montana

Tps. 7 and 8 N., R. 47 E.

The plat, in two sheets, representing the dependent resurvey of Tract O, Tract Z, and a portion of Tract N (Tps. 7 and 8 N., R. 47 E.), and the subdivision of Tract O and Tract Z into Tract CC, Tract DD, Tract EE, and Tract FF, Township 7 North, Range 47 East, Principal Meridian, Montana, was accepted March 17, 2016.

We will place a copy of the plat, in two sheets, in the open files. They will be available to the public as a matter of information. If the BLM receives a protest against this survey, as shown on this plat, in two sheets, prior to the date of the official filing, we will stay the filing pending our consideration of the protest. We will not officially file this plat, in two sheets, until the day after we have accepted or dismissed all protests and they have become final, including decisions or appeals. Before including your address, phone number, email address, or other personally identifying information in your comment, you should be aware that your entire comment—including your personally identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personally identifying information from public review, we cannot guarantee that we will be able to do so.

**Authority:** 43 U.S.C. Chap. 3.

#### National Register of Historic Places; Notification of Pending Nominations and Related Actions

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** The National Park Service is soliciting comments on the significance of properties nominated before October 1, 2016, for listing or related actions in the National Register of Historic Places.

**DATES:** Comments should be submitted by November 14, 2016.

**ADDRESSES:** Comments may be sent via U.S. Postal Service to the National Register of Historic Places, National

Park Service, 1849 C St. NW., MS 2280, Washington, DC 20240; by all other carriers, National Register of Historic Places, National Park Service, 1201 Eye St. NW., 8th floor, Washington, DC 20005; or by fax, 202-371-6447.

**SUPPLEMENTARY INFORMATION:** The properties listed in this notice are being considered for listing or related actions in the National Register of Historic Places. Nominations for their consideration were received by the National Park Service before October 1, 2016. Pursuant to section 60.13 of 36 CFR part 60, written comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

##### SUPPLEMENTARY INFORMATION:

##### Background

On September 30, 2010, pursuant to  
the Surface Mining Control and  
Reclamation Act, 30 U.S.C. 1272 (c)  
(SMCRA), the State of Tennessee filed a  
petition with the Office of Surface  
Mining and Reclamation and  
Enforcement (OSMRE) to designate  
certain lands in the state as unsuitable  
for surface coal mining operations.  
These lands include the area within 600  
feet of all ridge lines (a 1,200 foot  
corridor) lying within the North  
Cumberland Wildlife Management Area  
(NCWMA)—comprised of the Royal  
Blue Wildlife Management Area, the  
Sundquist Wildlife Management Area,  
and the New River Wildlife  
Management Area (also known as the  
Brimstone Tract Conservation  
Easement)—and the Emory River Tracts  
Conservation Easement (ERTCE),  
encompassing approximately 67,326  
acres and 505 miles of ridgelines. In  
Tennessee, OSMRE has operated a  
Federal regulatory program as the  
primary regulator under SMCRA since  
October 1984, when the state repealed  
its surface mining law; therefore, in  
accordance with its responsibility in  
administering the Federal program in  
Tennessee, the OSMRE must process  
and make decisions on all petitions  
submitted to designate areas in the state  
as unsuitable for surface coal mining  
operations.

The petition includes two primary  
allegations with numerous allegations of  
fact and supporting statements. In  
primary allegation 1, the petitioner  
contends that the petition area should  
be designated unsuitable for surface coal  
mining operations because mining in  
the area would be incompatible with  
existing state or local land use plans or  
programs. SMCRA 522(a)(3)(A), 30  
U.S.C. 1272(a)(3)(A). In primary  
allegation 2, the petitioner contends that  
the OSMRE should designate the  
petition area as unsuitable for surface  
coal mining operations because such  
operations would affect fragile or  
historic lands, resulting in significant  
damage to important historic, cultural,  
scientific, and aesthetic values and  
natural systems. SMCRA 522(a)(3)(B),  
30 U.S.C. 1272(a)(3)(B).

The Director, OSMRE, is required to  
make a decision on the petition. The  
Final PED/EIS considers in detail the  
following alternatives for action by the  
Director:

- Alternative 1—do not designate any  
of the petition area as unsuitable for  
surface coal mining operations (no-  
action). There would be no change in  
types of permit applications accepted  
for evaluation.
- Alternative 2—designate the entire  
petition area (67,326 acres) as  
unsuitable for all surface coal mining  
operations (state's proposed action). No  
types of surface mining permit  
applications would be accepted for this  
area.
- Alternative 3—designate the state  
petition area (67,326 acres) as  
unsuitable for surface coal mining  
operations that are not remaining. Under  
this alternative, remaining could  
continue to be permitted on a case-by-  
case basis. The only acceptable types of  
permits would be permits for remaining.
- Alternative 4—grant an expanded  
corridor designation of independently  
identified ridgelines within the petition  
area (76,133 acres) as unsuitable for  
surface coal mining operations that are  
not remaining (agency's preferred  
alternative). Under this alternative,  
remaining could continue to be permitted  
on a case-by-case basis. The only  
acceptable types of permits would be  
permits for remaining.
- Alternative 5—designate lands as  
unsuitable for surface coal mining based  
on the presence of certain sensitive  
resources (12,331 acres). No types of  
surface mining permits would be  
accepted for this area.
- Alternative 6—designate a reduced  
corridor of 600 feet (39,106 acres). No  
types of surface mining permits would  
be accepted for this area.
