II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has summarized these statements set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On September 7, 2016, The Nasdaq Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") a proposed rule change ("Proposal") to adopt paragraph (d) and Commentary .12 to Exchange Rule 4770 to describe changes to system functionality necessary to implement the Plan. The Exchange also proposed amendments to Rule 4770(a) and (c) to clarify how the Trade-at exception may be satisfied. The SEC published the Proposal in the Federal Register for notice and comment on September 20, 2016.⁵ Nasdaq subsequently filed three Partial Amendments to clarify aspects of the Proposal. The Commission approved the Proposal, as amended, on October 7, 2016.⁶

In SR–NASDAQ–2016–126, Nasdaq had initially proposed a re-pricing functionality for Price to Comply Orders, Non-Displayed Orders, and Post-Only Orders entered through the OUCH and FLITE protocols in Group Three securities.⁷ Nasdaq subsequently determined that it would not offer this re-pricing functionality for Price to Comply Orders, Non-Displayed Orders, and Post-Only Orders entered through the OUCH and FLITE protocols in Group Three securities. As part of Partial Amendment No. 2 to SR–NASDAQ–2016–126, Nasdaq is proposed to delete the relevant language from Rule 4770 related to this re-pricing functionality.

In that amendment, Nasdaq noted that this change would only impact the treatment of Price to Comply Orders, Non-Displayed Orders, and Post-Only orders that are submitted through the

³ As originally proposed, Rule 4770(d)(3) stated that Price to Comply Orders in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price. Rule 4770(d)(3) stated that, if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order’s limit price. Rule 4770(d)(4) stated that, if market conditions allow, the Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the Nasdaq Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.

⁷ As originally proposed, Rule 4770(d)(2) stated that Price to Comply Orders in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price. Rule 4770(d)(3) stated that, if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order’s limit price. Rule 4770(d)(4) stated that, if market conditions allow, the Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the Nasdaq Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.
Security will be adjusted repeatedly in conditions allow, a Price to Comply as follows:

in Test Group Three securities shall be Post-Only Orders that are entered Orders, Non-Displayed Orders, and Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders, that are entered through the OUCH and FLITE protocols in Test Group Three Securities. As of October 31, 2016.

In the Amendment, Nasdaq further noted that its systems are currently programmed so that Price to Comply Orders, Non-Displayed Orders and Post-Only Orders entered through the OUCH and FLITE protocols in Test Group Three Securities may be adjusted repeatedly to reflect changes to the NBBO and/or the best price on the Nasdaq book. Nasdaq stated that it is re-programming its systems to remove this functionality for Price to Comply Orders, Non-Displayed Orders and Post-Only Orders entered through the OUCH and FLITE protocols in Test Group Three Securities. Nasdaq anticipates that this re-programming shall be completed no later than November 30, 2016. If it appears that this functionality will remain operational by October 17, 2016, Nasdaq indicated that it would file a proposed rule change with the SEC and will provide notice to market participants sufficiently in advance of that date to provide effective notice. The rule change and the notice to market participants will describe the current operation of the Nasdaq systems in this regard, and the timing related to the re-programming.

At this time, Nasdaq is still in the process of re-programming its systems to eliminate the re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols. Nasdaq anticipates that this re-programming shall be complete on or before October 31, 2016. Therefore, the current treatment of Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols in Test Group Three securities shall be as follows:

Following entry, and if market conditions allow, a Price to Comply Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price.

Following entry, and if market conditions allow, a Price to Display Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Display Order is able to be ranked and displayed at its original entered limit price.

Following entry, and if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order's limit price.

Following entry, and if market conditions allow, a Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the Nasdaq Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.

In addition to this proposal, Nasdaq will also issue an Equity Trader Alert that describes the current operation of the Nasdaq systems in this regard, and the timing related to the removal of this re-pricing functionality.

Nasdaq also proposes to re-number Commentary .12, which relates to the Block Size exception, to Commentary .13. A previous filing (SR–NASDAQ–2016–123) added Commentary to Rule 4770 that resulted in Commentary .11, which addresses the effective date of the Rule, being re-numbered as Commentary .12. Nasdaq therefore proposes to re-number the Commentary .12 that addresses the Block Size exception as Commentary .13.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act, in general, and further the objectives of Section 6(b)(5) of the Act, in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The purpose of this filing is to inform the SEC and market participants of the status of Nasdaq’s attempts to re-program its systems to remove the re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols. Nasdaq anticipates providing additional specificity to market participants as to the timing of the new functionality at a later date.

Nasdaq anticipates providing additional specificity to market participants as to the timing of the new functionality at a later date.

3. Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The purpose of this proposal is to provide the SEC and market participants with notice of Nasdaq’s efforts to remove its re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols.

4. For example, on September 23, 2016, 0.3% of orders in Test Group Three securities were entered on Nasdaq at a price that crossed the NBBO. Nasdaq believes that this number will be even lower starting October 17, 2016, when the $0.05 tick increment for Test Group Three securities is in place. 
protocols, consistent with its statements in SR–NASDAQ–2016–126.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act13 and subparagraph (f)(6) of Rule 19b–4 thereunder.14

A proposed rule change filed under Rule 19b–4(f)(6) normally does not become operative prior to 30 days after the date of filing. Rule 19b–4(f)(6)(iii), however, permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the 30-day operative delay contained in Rule 19b–4(f)(6)(iii) so that this proposed change will be in operative as of October 17, 2016, the date that Test Group Three securities begin to be subject to the quoting and trading restrictions of the Plan and, therefore, the relevant language in Rule 4770.

The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because it will allow the Exchange to implement the proposed rules immediately thereby preventing delays in the implementation of the Plan. The Commission notes that the Pilot started implementation on October 3, 2016, Test Group Three securities were phased into the Pilot starting on October 17, 2016, and waiving the 30-day operative delay would ensure that the rules of the Exchange would be in place during implementation. Therefore, the Commission hereby waives the 30-day operative delay and designates the proposed rule change to be operative upon filing with the Commission.15

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
