SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of September 17, 2015 (80 FR 56170), we issued a final rule entitled “Current Good Manufacturing Practice, Hazard Analysis, and Risk-Based Preventive Controls for Food for Animals” (the final rule) in which we established requirements for facilities subject to food registration to implement current good manufacturing practices and establish and implement hazard analysis and risk-based preventive controls for food for animals. The final rule, which is codified at part 507 (21 CFR part 507), became effective November 16, 2015 (except for paragraph (2) of the definition of “qualified auditor” in § 507.3, and §§ 507.12(a)(1)(ii), 507.105(a)(2), 507.105(c), 507.110(d)(2)(ii), 507.130(d), 507.135(d), 507.175(c)(2), and 507.175(c)(13)) but has compliance dates staggered over several years after publication of the final rule.

We examined the economic implications of the final rule as required by the Regulatory Flexibility Act (5 U.S.C. 601-612) and determined that the final rule will have a significant economic impact on a substantial number of small entities. In compliance with section 212 of the Small Business Regulatory Enforcement Fairness Act (Pub. L. 104-121, as amended by Pub. L. 110-28), we are making available the

SECG to explain the actions that a small entity must take to comply with the rule.

We are issuing the SECG consistent with our good guidance practices regulation (21 CFR 10.115(c)(2)). The SECG represents the current thinking of FDA on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

LIBRARY OF CONGRESS

U.S. Copyright Office

37 CFR Part 201

[Docket No. RM 2011-6]

Designation of Agent To Receive Notification of Claimed Infringement

AGENCY: U.S. Copyright Office, Library of Congress.

ACTION: Final rule.

SUMMARY: Under the Digital Millennium Copyright Act ("DMCA"), the U.S. Copyright Office is required to maintain a "current directory" of agents that have been designated by online service providers to receive notifications of claimed infringement. Since the DMCA's enactment in 1998, online service providers have designated agents with the Copyright Office using the Office's or their own paper form, and the Office has made scanned copies these filings available to the public by posting them on the Office's Web site. Although the DMCA requires service providers to update their designations with the Office as information changes, an examination of the Office's current directory reveals that many have failed to do so, and that much of the information currently contained in the directory has become inaccurate and out of date. On September 28, 2011, the Office issued a notice of proposed rulemaking to update relevant regulations in anticipation of creating a new electronic system through which service providers would be able to more efficiently submit, and the public would be better able to search for, designated agent information. On May 25, 2016, with the electronic system in its final stages of development, the Office issued a notice of proposed rulemaking proposing significantly lower fees for designating agents through the forthcoming online system. As the next step in implementation, the Office today announces the adoption of a final rule to govern the designation and maintenance of DMCA agent information under the new electronic system and to establish the applicable fees.

DATES: Effective December 1, 2016.

SUPPLEMENTARY INFORMATION:

I. Background

In 1998, Congress enacted section 512 of title 17, United States Code, as part of the Digital Millennium Copyright Act ("DMCA").¹ Among other things, section 512 provides safe harbors from copyright infringement liability for online service providers that are engaged in specified activities and that meet certain eligibility requirements.² A service provider seeking to avail itself of the safe harbor in section 512(c) (for storage of material at the direction of a user) is required to designate an agent to receive notifications of claimed copyright infringement by making contact information for the agent available to the public on its Web site, and by providing such information to the Copyright Office.³ The safe harbors in subsections 512(b) (for system caching) and (d) (for information location tools) incorporate the notice provisions of section 512(c) and thus also require that notices of infringement be sent to "the designated agent of a service provider"⁴—that is, an agent that has been designated by the service provider as described above.⁵

The language of section 512(c)(2) makes clear that a service provider must maintain the same contact information required under section 512(c)(2)(A) and (B) both on its Web site and at the Copyright Office.⁶ A service provider that fails to maintain current and accurate information, both on its Web site and with the Office, may not satisfy the statutory requirements necessary for
