

designated trustees to develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent of the injured natural resources under their trusteeship, including the loss of use and services from those resources from the time of injury until the time of restoration to baseline (the resource quality and conditions that would exist if the spill had not occurred) is complete. The Trustees are:

#### **Overview of the Louisiana TIG Draft Restoration Plan 1: Restoration of Wetlands, Coastal, and Nearshore Habitats, Habitat Projects on Federally Managed Lands, and Birds (Draft Restoration Plan 1)**

The Draft Restoration Plan 1 is being released in accordance with the Oil Pollution Act (OPA), the Natural Resources Damage Assessment (NRDA) regulations found in the Code of Federal Regulations (CFR) at 15 CFR 990, the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*), the Consent Decree, and the Final PDARP/PEIS.

The total estimated cost for the proposed engineering and design activities for the six proposed restoration projects is \$22,300,000. Details on the proposed engineering and design activities for the restoration projects are provided in the draft restoration plan.

#### **Next Steps**

As described above, the Trustees will consider holding public meetings to facilitate the public review and comment process, if requested. After the public comment period ends, the Trustees will consider and address the comments received before issuing a final restoration plan.

Consistent with the PDARP/PEIS, in this Draft Restoration Plan 1 the Louisiana TIG is proposing a preliminary phase of restoration planning to perform engineering and design evaluation for restoration projects to develop information needed to fully consider the implementation phase which will be proposed in a subsequent restoration plan. Although information gathered may inform future projects, the outcome of the preliminary phases does not commit the Trustees to future actions.

#### **Invitation to Comment**

The Trustees seek public review and comment on the proposed projects and supporting analysis included in the Draft Restoration Plan 1. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time.
