#### SUPPLEMENTARY INFORMATION:

On November 17, 2014, notice was published in the **Federal Register** (79 FR 68413) of a request for a permit to conduct research on shortnose sturgeon had been submitted by the above-named applicant. On June 26, 2015, notice was published in the **Federal Register** (80 FR 36770) that the application was amended to include a request to conduct research on Atlantic sturgeon. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 19255 authorizes annual takes of endangered shortnose and Atlantic sturgeon to document nursery areas, individual movement patterns, seasonal movements, home ranges, and habitat usage(s) in the Delaware River. The authorized activities include capture of shortnose and Atlantic shortnose with gillnets. It also authorizes individuals to be weighed, measured, marked with Passive Integrated Transponder (PIT), T-bar tagged, anesthetized, acoustic tagged, genetic tissue sampled, gastric lavaged, and photographed. It also authorized one unintentional mortality per species during the life of the permit. Specific activities and number of animals authorized per species are found on the permit. The shortnose sturgeon research activities are a continuation of the ones authorized under the DNREC expired Permit No. 14396 (75 FR 4043). The Atlantic sturgeon research activities were incorporated under the ones authorized under the DNREC Permit No. 16431 (76 FR 58469), which was set to expire April 5, 2017. Permit No. 16431 was terminated with issuance of Permit No. 19225, valid until February 5, 2021.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: February 9, 2016.
