

whether or not the inside corners of the four-sided figures are rounded off or not sharp angles. As used herein, the term "integral" refers to strands and junctions that are homogenous with each other. The products covered have a tensile strength of greater than 5 kilonewtons per meter ("kN/m") according to American Society for Testing and Materials ("ASTM") Standard Test Method D6637/D6637M in any direction and average overall flexural stiffness of more than 100,000 milligram-centimeter according to the ASTM D7748/D7748M Standard Test Method for Flexural Rigidity of Geogrids, Geotextiles and Related Products, or other equivalent test method standards.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise further processed in a third country, including by trimming, slitting, coating, cutting, punching holes, stretching, attaching to woven or non-woven fabric or sheet material, or any other finishing, packaging, or other further processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the country of manufacture of the biaxial integral geogrid.

The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States ("HTSUS") under the following subheading: 3926.90.9995. Subject merchandise may also enter under subheadings 3920.20.0050 and 3925.90.0000. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

### National Oceanic and Atmospheric Administration

RIN 0648-XD608

#### Endangered Species; File No. 19255

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; issuance of a permit, and termination of a permit.

**SUMMARY:** Notice is hereby given that the Delaware Department of Natural Resources and Environmental Control (DNREC) [Responsible Party: Michael Stangl], 3002 Bayside Dr., Dover, Delaware 19977, has been issued a permit to take shortnose (*Acipenser brevirostrum*) and Atlantic (*Acipenser oxyrinchus oxyrinchus*) sturgeon in the Delaware River for purposes of scientific research. Additionally, Permit No. 16431, issued to the same Permit Holder for study of Atlantic sturgeon, is hereby terminated.

**ADDRESSES:** The permit and related documents are available for review

upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

#### FOR FURTHER INFORMATION CONTACT:

Malcolm Mohead or Rosa L. González, (301) 427-8401.

#### SUPPLEMENTARY INFORMATION:

On November 17, 2014, notice was published in the **Federal Register** (79 FR 68413) of a request for a permit to conduct research on shortnose sturgeon had been submitted by the above-named applicant. On June 26, 2015, notice was published in the **Federal Register** (80 FR 36770) that the application was amended to include a request to conduct research on Atlantic sturgeon. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 19255 authorizes annual takes of endangered shortnose and Atlantic sturgeon to document nursery areas, individual movement patterns, seasonal movements, home ranges, and habitat usage(s) in the Delaware River. The authorized activities include capture of shortnose and Atlantic shortnose with gillnets. It also authorizes individuals to be weighed, measured, marked with Passive Integrated Transponder (PIT), T-bar tagged, anesthetized, acoustic tagged, genetic tissue sampled, gastric lavaged, and photographed. It also authorized one unintentional mortality per species during the life of the permit. Specific activities and number of animals authorized per species are found on the permit. The shortnose sturgeon research activities are a continuation of the ones authorized under the DNREC expired Permit No. 14396 (75 FR 4043). The Atlantic sturgeon research activities were incorporated under the ones authorized under the DNREC Permit No. 16431 (76 FR 58469), which was set to expire April 5, 2017. Permit No. 16431 was terminated with issuance of Permit No. 19225, valid until February 5, 2021.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: February 9, 2016.

#### Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 41 Review Workshop for South Atlantic red snapper and gray triggerfish.

**SUMMARY:** The SEDAR 41 assessments of the South Atlantic stocks of *red snapper* (*Lutjanus campechanus*) and gray triggerfish (*Balistes caprisiscus*) will consist of a series of workshops and webinars: Data Workshops; an Assessment Workshop and webinars; and a Review Workshop. See **SUPPLEMENTARY INFORMATION.**

**DATES:** The SEDAR 41 Review Workshop will be held on March 15-17, 2016, from 8:30 a.m. until 6 p.m. and March 18, 2016, from 8 a.m. until 1 p.m. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from, or completed prior to the time established by this notice.

#### ADDRESSES:

*Meeting address:* The SEDAR 41 Assessment Workshop will be held at the Crowne Plaza Hotel, 4831 Tanger Outlet Boulevard, North Charleston, SC 29418; phone: (843) 744-4422.

*SEDAR address:* South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405; [www.sedarweb.org](http://www.sedarweb.org).

**FOR FURTHER INFORMATION CONTACT:** Julia Byrd, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4366; email: [julia.byrd@safmc.net](mailto:julia.byrd@safmc.net).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions,

have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing a workshop and webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Review Workshop are as follows:

Independent peer review of the assessment developed during the Data Workshop and Assessment Process. Panelists will review the assessment and document their comments and recommendations in a Summary Report.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

### Special Accommodations

These meetings are accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see **ADDRESSES**) at least 10 business days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: February 10, 2016.

**Tracey L. Thompson,**

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

**RIN 0648-XE438**

#### Fisheries of the South Atlantic; South Atlantic Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** The South Atlantic Fishery Management Council (Council) will hold a meeting of its Scientific and Statistical Committee (SSC) to review methods for determining the recreational annual catch limit (ACL) in numbers for the Florida Keys/East Florida (FLK/EFL) Hogfish stock.

**DATES:** The SSC meeting will be held via webinar on Friday, March 4, 2016, from 9 a.m. to 12 p.m.

**ADDRESSES:** The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact John Carmichael at the Council (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of the webinar.

*Council address:* South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

**FOR FURTHER INFORMATION CONTACT:** John Carmichael; 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4366 or toll free (866) SAFMC-10; fax: (843) 769-4520; email: [john.carmichael@safmc.net](mailto:john.carmichael@safmc.net).

**SUPPLEMENTARY INFORMATION:** This meeting is held to review proposed

methods for calculating the recreational ACL of FLK/EFL Hogfish in numbers of fish. The Council stated at their September 2015 meeting in Hilton Head, SC that they would like the recreational ACL for the FLK/EFL stock of Hogfish to be set in numbers rather than in pounds. Items to be addressed during this meeting:

Review and comment on the risks and uncertainties associated with proposed methods for calculating the recreational ACL of the FLK/EFL Hogfish stock in numbers. The SSC will provide recommendations for Council consideration as appropriate.

### Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.
