DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

November 3, 2016.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by December 8, 2016 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Food and Nutrition Service

Title: Child and Adult Care Food Program (CACFP) Family Day Care Homes Meal Claims Feasibility Study.

OMB Control Number: 0584-NEW.

Summary of Collection: To comply with the Improper Payments Elimination and Recovery Act (IPERA) of 2010 and the Improper Payments Elimination and Recovery Improvement Act of 2012 (IPERIA), the Food and Nutrition Service (FNS) needs a reliable methodology to estimate erroneous payments for provider meal claims in the CACFP. The objective of this feasibility study is to design and test a data collection method that enables FNS to estimate erroneous payments due to meals claimed improperly by family day care home providers participating in the CACFP. Specifically, the study focuses on accurately estimating meals that are claimed but not served.

Need and Use of the Information: This study will collect real-time attendance and meal-serving information from participating providers and parents. FNS will use this data to identify and test a data collection method that will accurately estimate erroneous payments due to meals that are claimed improperly by FDCHs participating in the CACFP. FNS needs to collect this information to accurately estimate errors in meal claims in order to fulfill the requirements under the IPERA and the IPERIA to identify and reduce erroneous payments in the CACFP.

Description of Respondents: Individuals or households, Not-for profit institutions, and State, Local, or Tribal Government.

Number of Respondents: 1,038.

Frequency of Responses: Reporting: Other (two times a day for four weeks).

Total Burden Hours: 3,285.

Ruth Brown,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Importation of Fresh Citrus Fruit From Uruguay, Including *Citrus* Hybrids and *Fortunella* spp., Into the Continental United States.

OMB Control Number: 0579-0401.

Type of Request: Approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart—Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-75).

Section 319.56-59 of the regulations provides the requirements for the importation of fresh citrus fruit from Uruguay, including *Citrus* hybrids and *Fortunella* spp., into the continental United States under a systems approach. This systems approach includes, among other things, requirements for production sites and packinghouses,

pest monitoring and pest control practices, orchard sanitation, packinghouse procedures, a phytosanitary certificate, and the importation of commercial consignments only. In addition, the regulations require the use of information collection activities, such as a bilateral workplan, production site and packinghouse registration, monitoring and inspection of registered production sites, investigation and remedial action, carton markings, recordkeeping, certification and monitoring of treatment facilities, and a phytosanitary certificate.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.426 hours per response.

Respondents: Citrus producers, packers, importers, and the national plant protection organization officials of Uruguay.

Estimated annual number of respondents: 16.

Estimated annual number of responses per respondent: 192.3.

Estimated annual number of responses: 3,077.

Estimated total annual burden on respondents: 1,311 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
