

As a part of these efforts, EPA's ORD/AED is seeking approval to conduct a revealed preference survey to collect data on: People's saltwater recreational activities; how recreational values are related to water quality; how perceptions of water quality relate to objective measures; the connections between perceptions of water quality, recreational choices and values, and sense of place; and demographic information. If approved, the survey will be administered using a mixed-mode approach that includes a mailed invitation to a web survey with an optional paper survey for people who are unable or unwilling to answer the web survey. The survey will be sent to a total of 8,400 residents living in counties where more than 25% of the county's geographic boundaries falls within 100 miles of the Cape as measured from Bourne, Massachusetts, which is the first town on Cape Cod heading east. This area includes coastal counties of New Hampshire, the eastern half of Massachusetts, all of Rhode Island, and the eastern part of Connecticut. In addition, we will oversample two populations: residents of Cape Cod and people who shellfish recreationally. We will send 750 surveys to each of these groups.

ORD will use the survey responses to estimate willingness to pay for changes related to reductions in nutrient and pathogen loadings to coastal New England waters. The analysis relies on state of the art theoretical and statistical tools for non-market welfare analysis. A non-response bias analysis will also be conducted to inform the interpretation and validation of survey responses.

All responses to the survey will be kept confidential to the extent provided by law. To ensure that the final survey sample includes a representative and diverse population of individuals, the survey questionnaire will elicit basic demographic information, such as age, race and ethnicity, number of children under 18, type of employment, and income. However, the survey questionnaire will not ask respondents for personal identifying information, such as names or phone numbers. Instead, each survey response will receive a unique identification number. Prior to taking the survey, respondents will be informed that their responses will be kept confidential to the extent provided by law. The name and address of the respondent will not appear in the resulting database, preserving the respondents' identities. The survey data will be made public only after it has been thoroughly vetted to ensure that all other potentially identifying information has been removed. After

data entry is complete, the surveys themselves will be destroyed and only respondent codes will remain.

Form Numbers: None.

Respondents/affected entities: Eligible respondents for the survey are individuals 18 years of age or older who reside in counties where at least 25% of county's geographic area falls within a 100-mile radius of Cape Cod. This includes coastal counties of New Hampshire, the eastern half of Massachusetts, all of Rhode Island, and the eastern part of Connecticut. The sample will be stratified by geography, with Barnstable County, Massachusetts sampled at a rate 3.06 times higher than the rest of the population in the study area. Additionally, the sample will be a dual-frame sample, where the main frame is the general population address-based frame of the U.S. Postal Service Delivery Sequence File, and a supplementary frame is the frame of shellfish license holder records. Households will be selected randomly from the DSF, which covers over 97% of residences in the U.S. EPA will request participation from a random stratified sample of 10,270 households in two phases. The first phase, a pretest, will be sent to 370 addresses. The second phase, encompassing full survey administration, will be administered to an additional 9,900 addresses. In each phase, we anticipate a response rate of 27 percent, resulting in 90 and 2,365 completed surveys, respectively, after accounting for expected undeliverable surveys.

Respondent's obligation to respond: voluntary.

Estimated number of respondents: 2,455 (total).

Frequency of response: The survey is a one-time data collection activity.

Total estimated burden: 614 hours (total). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: Assuming 15 minutes are needed to complete the survey, the total respondent cost comes to \$21,386 for the pre-test and main survey combined, using an average wage rate for New England of \$34.83 from the United States Department of Labor. This would be a one-time expenditure of their time.

Changes in Estimates: This is the first notice; there is no change in estimates at this time.

Dated: October 31, 2016.

FEDERAL COMMUNICATIONS COMMISSION

Public Safety and Homeland Security Bureau; Federal Advisory Committee Act; Task Force on Optimal Public Safety Answering Point Architecture

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In accordance with the Federal Advisory Committee Act (FACA), this notice advises interested persons that the Federal Communications Commission's (FCC) Task Force on Optimal Public Safety Answering Point (PSAP) Architecture (Task Force) will hold its ninth meeting.

DATES: December 2, 2016.

ADDRESSES: Federal Communications Commission, Room TW-C305 (Commission Meeting Room), 445 12th Street SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Timothy May, Federal Communications Commission, Public Safety and Homeland Security Bureau, 202-418-1463, email: timothy.may@fcc.gov.

SUPPLEMENTARY INFORMATION: The meeting will be held on December 2, 2016, from 1:00 p.m. to 5:00 p.m. in the Commission Meeting Room of the FCC, Room TW-305, 445 12th Street SW., Washington, DC 20554. The Task Force is a Federal Advisory Committee that studies and reports findings and recommendations on PSAP structure, architecture, operations, and funding to promote greater efficiency of PSAP operations, security, and cost containment during the deployment of Next Generation 911 systems. On December 2, 2014, pursuant to the FACA, the Commission established the Task Force charter for a period of two years, through December 2, 2016. At this meeting, the Task Force will hear presentations and consider votes to adopt the reports and recommendations of the Task Force's three working groups: Working Group 1—Cybersecurity: Optimal Approach for PSAPs, Working Group 2—Optimal 911 Service Architecture, and Working Group 3—Optimal Resource Allocation.

Members of the general public may attend the meeting. The FCC will attempt to accommodate as many attendees as possible; however, admittance will be limited to seating availability. The Commission will provide audio and/or video coverage of the meeting over the Internet from the FCC's Web page at <https://www.fcc.gov/general/live>.

Open captioning will be provided for this event. Other reasonable

accommodations for people with disabilities are available upon request. Requests for such accommodations should be submitted via email to fcc504@fcc.gov or by calling the Consumer & Governmental Affairs at (202) 418-0432 (TTY). Such requests should include a detailed description of the accommodation requested. In addition, please include a way the FCC may contact you if it needs more information. Please allow at least five days' advance notice; last minute requests will be accepted, but may be impossible to fill.
