FTA may enter into agreements or other arrangements or relationships with these non-selected Sandbox applicants to collaborate in the format of technical assistance, such as data collection and analysis. Such agreements will assist FTA's effort in building a MOD Community of Practice (CoP) to maximize learning and opportunities for collaboration for all.

In addition, FTA intends to continue the dialogue with industry stakeholders on how FTA can continue to support innovative practices and shared-ride, on-demand mobility services. This may be done through an upcoming online dialogue to seek public comment on the overall MOD Program as it relates to advancing public transportation through the provision of flexible mobility choices and innovative business models. FTA also intends to issue

Frequently Asked Questions (FAQs), to further explain the eligibility of such services under current transit law and FTA's core programs, such as the Urbanized Area and Rural formula programs. FTA encourages your comments and questions, which can be submitted to *TransitInnovations@dot.gov*.
