

requires us to develop a CCP for each national wildlife refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System (NWRS), consistent with sound principles of fish and wildlife management, conservation, legal mandates, and Service policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.

Each unit of the NWRS was established for specific purposes. We use these purposes as the foundation for developing and prioritizing the management goals and objectives for each refuge within the NWRS mission, and to determine how the public can use each refuge. The planning process is a way for us and the public to evaluate management goals and objectives that will ensure the best possible approach to wildlife, plant, and habitat conservation, while providing for wildlife-dependent recreation opportunities that are compatible with each refuge's establishing purposes and the mission of the NWRS.

#### Additional Information

The final CCP may be found at [http://www.fws.gov/mountain-prairie/refuges/wy\\_ner.php](http://www.fws.gov/mountain-prairie/refuges/wy_ner.php). The final CCP includes detailed information about the planning process, refuge, issues, and management alternative selected. The Web site also includes an EA, prepared in accordance with the National Environmental Policy Act (NEPA) (43 U.S.C. 4321 *et seq.*). The EA includes discussion of four alternative refuge management options. The Service's selected alternative is reflected in the final CCP, and also in the FONSI.

The selected alternative focuses on habitat and wildlife management that allow for natural processes to promote habitats. Some habitats, such as wetlands, will be managed to enhance swan habitat and improve forage quantity and quality for elk and bison. The refuge will increase opportunities for wildlife-dependent public uses such as hunting, fishing, wildlife observation and photography, and environmental education. We will keep some areas undeveloped, return some areas to a

natural state, and increase development in other areas to enhance visitor services. A detailed description of objectives and actions included in this selected alternative is found in chapter 4 of the final CCP.

Dated: September 23, 2016.

#### Announcement of National Geospatial Advisory Committee Meeting

**AGENCY:** U.S. Geological Survey, Interior.

**ACTION:** Notice of meeting

**SUMMARY:** The National Geospatial Advisory Committee (NGAC) will meet on December 14, 2016, from 12:30 p.m. to 4:00 p.m. EST. The meeting will be held via web conference and teleconference.

The NGAC, which is composed of representatives from governmental, private sector, non-profit, and academic organizations, has been established to advise the Chair of the Federal Geographic Data Committee on management of Federal geospatial programs, the development of the National Spatial Data Infrastructure, and the implementation of Office of Management and Budget (OMB) Circular A-16. Topics to be addressed at the meeting include:

- FGDC Update
- NGAC Subcommittee Reports
- Review of NGAC Papers
- Transition Planning
- Planning for 2017 NGAC Activities

Members of the public who wish to attend the meeting must register in advance. Please register by contacting Lucia Foulkes at the Federal Geographic Data Committee (703-648-4142, [lfoulkes@usgs.gov](mailto:lfoulkes@usgs.gov)). Meeting registrations are due by December 9, 2016. Meeting information (web conference and teleconference instructions) will be provided to registrants prior to the meeting. While the meeting will be open to the public, attendance may be limited due to web conference and teleconference capacity.

The meeting will include an opportunity for public comment. Attendees wishing to provide public comment should register by December

9. Please register by contacting Lucia Foulkes at the Federal Geographic Data Committee (703-648-4142, [lfoulkes@usgs.gov](mailto:lfoulkes@usgs.gov)). Comments may also be submitted to the NGAC in writing.

**DATES:** The meeting will be held on December 14, 2016, from 12:30 p.m. to 4:00 p.m. EST.

**FOR FURTHER INFORMATION CONTACT:** John Mahoney, U.S. Geological Survey (206-220-4621).

**SUPPLEMENTARY INFORMATION:** Meetings of the National Geospatial Advisory Committee are open to the public. Additional information about the NGAC and the meeting are available at [www.fgdc.gov/ngac](http://www.fgdc.gov/ngac).

#### Notice of Filing of Plats of Survey; Colorado

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of filing of plats of survey; Colorado.

**SUMMARY:** The Bureau of Land Management (BLM) Colorado State Office is publishing this notice to inform the public of the official filing of the survey plat listed below. The plat will be available for viewing in the BLM Colorado State Office.

**DATES:** The plat described in this notice was filed on November 4, 2016.

**ADDRESSES:** BLM Colorado State Office, Cadastral Survey, 2850 Youngfield Street, Lakewood, CO 80215-7093.

**FOR FURTHER INFORMATION CONTACT:** Randy Bloom, Chief Cadastral Surveyor for Colorado, (303) 239-3856.

Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FRS is available 24 hours a day, seven days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** The supplemental plat in Township 11 South, Range 69 West, Sixth Principal
