FOR FURTHER INFORMATION CONTACT: Helen Jackson, NSTAC Designated Federal Officer, Department of Homeland Security, (703) 235–5321 (telephone) or helen.jackson@hq.dhs.gov (email).

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. appendix (Pub. L. 92–463). The NSTAC advises the President on matters related to national security and emergency preparedness (NS/EP) telecommunications policy.

Agenda: The committee will meet in an open session on December 7, 2016, to receive remarks from Department of Homeland Security (DHS) leadership and other senior Government officials regarding the Government’s current cybersecurity initiatives and NS/EP priorities. Meeting participants will: (1) Receive a keynote address regarding the Government’s ongoing cybersecurity and NS/EP communications efforts; (2)
engage in a panel discussion with senior Government officials regarding the effects of new technology on NS/EP processes and procedures; and (3) discuss the progress related to the draft National Cyber Incident Response Plan. Additionally, DHS will provide NSTAC members an update on the Government’s progress in implementing recent NSTAC recommendations. Finally, the NSTAC members will receive an update on the NSTAC Emerging Technologies Strategic Vision Subcommittee’s study of the near- and long-term NS/EP implications of emergent and expected information and communications technologies.

The committee will also meet in a closed session to receive a classified briefing regarding cybersecurity threats and discuss future studies based on the Government’s NS/EP priorities and perceived vulnerabilities.

Basis for Closure: In accordance with 5 U.S.C. 552b(c), The Government in the Sunshine Act, it has been determined that two agenda items require closure, as the disclosure of the information discussed would not be in the public interest.

The first of these agenda items, the classified briefing, will provide members with a cybersecurity threat briefing on threats to critical infrastructure. Disclosure of these threats would provide criminals who seek to compromise commercial and Government networks with information on potential vulnerabilities and mitigation techniques, weakening the Nation’s cybersecurity posture. This briefing will be classified at the top secret/sensitive compartmented information level, thereby exempting disclosure of the content by statute. Therefore, this portion of the meeting is required to be closed pursuant to 5 U.S.C. 552b(c)(1)(A) & (B).

The second agenda item, the discussion of potential NSTAC study topics, will address areas of critical cybersecurity vulnerabilities and priorities for Government. Government officials will share data with NSTAC members on initiatives, assessments, and future security requirements across public and private sector networks. The information will include specific vulnerabilities within cyberspace that affect the United States’ ICT infrastructures and proposed mitigation strategies. Disclosure of this information to the public would provide criminals with an incentive to focus on these vulnerabilities to increase attacks on the Nation’s critical infrastructure and communications networks. As disclosure of this portion of the meeting is likely to significantly frustrate implementation of proposed DHS actions, it is required to be closed pursuant to 5 U.S.C. 552b(c)(9)(B).

Dated: November 9, 2016.

Helen Jackson, Designated Federal Officer for the NSTAC.
