

public comments received on the questions posed by HUD and sets forth new selection criteria for HUD to use in determining which metropolitan areas would be impacted by the shift to a Small Area FMR and provides that the criteria values would be set by notice in the **Federal Register**. Specifically, HUD codified in the final rule the selection parameters in regulatory text for setting Small Area FMRs but provided that HUD would set the selection values through this **Federal Register** notice and that subsequent Small Area FMR Area designations will be specified through **Federal Register** notice with opportunity for public comment as new Small Area FMR designations are made.

In response to comments, HUD also adds two new selection criteria to those provided in the proposed rule. First, HUD adds the vacancy rate of an area as a criterion to the selection parameters for Small Area FMRs and excludes metropolitan areas with a certain ACS vacancy rate from being designated a Small Area FMR area. Second, HUD adds a threshold for the voucher concentration ratio to better target communities where voucher concentration is most severe. Consequently, in addition to the voucher concentration ratio included in the proposed rule, the final rule also requires the numerator of this measure, the concentration of voucher holders within concentrated low income areas, to meet a minimum standard level.

II. Selection Values for Selecting Small Area FMRs

Through this notice, HUD is setting the selection values to determine the first-set of metropolitan FMR areas subject to Small Area FMRs for use in the administration of tenant-based assistance under the HCV program. Metropolitan FMR areas that meet the following requirement will be subject to Small Area FMRs consistent with 24 CFR 888.113(c):

(i) There are at least 2,500 HCV under lease;

(ii) At least 20 percent of the standard quality rental stock, within the metropolitan FMR area is in small areas (ZIP codes) where the Small Area FMR is more than 110 percent of the metropolitan FMR;

(iii) The percentage of voucher families living in concentrated low income areas relative to all renters within the area must be at least 25 percent;

(iv) The measure of the percentage of voucher holders living in concentrated low income areas relative to all renters within these areas over the entire

metropolitan area exceeds 155 percent (or 1.55); and

(v) The vacancy rate for the metropolitan area is higher than 4 percent. The vacancy rate is calculated using data from the 1-year American Community Survey (ACS) tabulations, the vacancy rate is the number of Vacant For Rent Units divided by the sum of the number of Vacant For Rent Units, the number of Renter Occupied Units, and the number of Rented, not occupied units. The vacancy rate will be calculated from the 3 most current ACS 1 year datasets available and average the 3 values.

The metropolitan FMR Areas that meet these requirements are as follows:

Atlanta-Sandy Springs-Marietta, GA HUD Metro FMR Area
 Bergen-Passaic, NJ HUD Metro FMR Area
 Charlotte-Gastonia-Rock Hill, NC-SC HUD Metro FMR Area
 Chicago-Joliet-Naperville, IL HUD Metro FMR Area

[Docket ID BSEE-2016-0007; OMB Number 1014-0006; 17XE1700DX EEEE500000 EX1SF0000.DAQ000]

Information Collection Activities: Sulfur Operations; Submitted for Office of Management and Budget (OMB) Review; Comment Request

ACTION: 30-Day notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Safety and Environmental Enforcement (BSEE) is notifying the public that we have submitted to OMB an information collection request (ICR) to renew approval of the paperwork requirements in the regulations under Subpart P, *Sulfur Operations*. This notice also provides the public a second opportunity to comment on the paperwork burden of these regulatory requirements.

DATES: You must submit comments by December 16, 2016.

ADDRESSES: Submit comments by either fax (202) 395-5806 or email (*OIRA_Submission@omb.eop.gov*) directly to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior (1014-0006). Please provide a copy of your comments to BSEE by any of the means below.

- *Electronically:* go to <http://www.regulations.gov> and search for BSEE-2016-0007. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- *Email:* Kelly.odom@bsee.gov, fax (703) 787-1546, or mail or hand-carry comments to: Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; Attention: Kelly Odom; 45600 Woodland Road, Sterling, VA 20166. Please reference 1014-0006 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT: Kelly Odom, Regulations and Standards Branch, (703) 787-1775, to request additional information about this ICR. To see a copy of the entire ICR submitted to OMB, go to <http://www.reginfo.gov> (select Information Collection Review, Currently Under Review).

SUPPLEMENTARY INFORMATION:

Title: 30 CFR 250, Subpart P, *Sulfur Operations*.

OMB Control Number: 1014-0006.

Abstract: The Outer Continental Shelf (OCS) Lands Act (OCSLA) at 43 U.S.C. 1334 authorizes the Secretary of the Interior to prescribe rules and regulations necessary for the administration of the leasing provisions of that Act related to mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease, right-of-way, or a right-of-use and easement. Operations on the OCS must preserve, protect, and develop mineral resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

In addition to the general rulemaking authority of the OCSLA at 43 U.S.C. 1334, section 301(a) of the Federal Oil and Gas Royalty Management Act (FOGRMA), 30 U.S.C. 1751(a), grants authority to the Secretary to prescribe such rules and regulations as are reasonably necessary to carry out FOGRMA's provisions. While the majority of FOGRMA is directed to royalty collection and enforcement, some provisions apply to offshore operations. For example, section 108 of FOGRMA, 30 U.S.C. 1718, grants the Secretary broad authority to inspect

lease sites for the purpose of determining whether there is compliance with the mineral leasing laws. Section 109(c)(2) and (d)(1), 30 U.S.C. 1719(c)(2) and (d)(1), impose substantial civil penalties for failure to permit lawful inspections and for knowing or willful preparation or submission of false, inaccurate, or misleading reports, records, or other information. Because the Secretary has delegated some of the authority under FOGRMA to BSEE, 30 U.S.C. 1751 is included as additional authority for these requirements.

Regulations implementing these responsibilities are under 30 CFR part 250. Some responses are mandatory and some are required to obtain or retain a benefit. No questions of a sensitive nature are asked. BSEE will protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and DOI's implementing regulations (43 CFR 2); 30 CFR 250.197, *Data and information to be made available to the public or for limited inspection*; and 30 CFR part 252, *OCS Oil and Gas Information Program*.

BSEE uses the information collected under subpart P to:

- Ascertain that a discovered sulfur deposit can be classified as capable of production in paying quantities.
- ensure accurate and complete measurement of production to determine the amount of sulfur royalty payments due the United States; and that the sale locations are secure, production has been measured accurately, and appropriate follow-up actions are initiated.

- ensure the adequacy and safety of firefighting systems; the drilling unit is fit for the intended purpose; and the adequacy of casing for anticipated conditions.

- review drilling, well-completion, well-workover diagrams and procedures, as well as production operation procedures to ensure the safety of the proposed sulfur drilling, well-completion, well-workover and proposed production operations.

- monitor environmental data during sulfur operations in offshore areas where such data are not already available to provide a valuable source of information to evaluate the performance of drilling rigs under various weather and ocean conditions. This information is necessary to make reasonable determinations regarding safety of operations and environmental protection.

Frequency: Submissions are on occasion and generally vary by section.

Description of Respondents: Potential respondents comprise Federal OCS sulfur lessees.

Estimated Reporting and Recordkeeping Hour Burden: The estimated annual hour burden for this information collection is a total of 897 hours. The following chart details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Citation 30 CFR 250 subpart P	Reporting and recordkeeping requirement	Hour burden	Average number of annual reponses	Annual burden hours

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: There are no non-hour cost burdens associated with this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .” Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

To comply with the public consultation process, on June 3, 2016, we published a **Federal Register** notice (81 FR 35798) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 250.199 provides the OMB Control Number for the information collection requirements imposed by the 30 CFR 250, Subpart P regulations. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We did not receive any comments in response to the **Federal Register** notice or unsolicited comments from respondents covered under these regulations.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 332–345]

Recent Trends in U.S. Services Trade, 2017 Annual Report

AGENCY: United States International Trade Commission.

ACTION: Schedule for 2017 report and opportunity to submit information.

SUMMARY: The Commission has prepared and published annual reports in this series under investigation No. 332–345, *Recent Trends in U.S. Services Trade*, since 1996. The 2017 report, which the Commission plans to publish in May 2017, will provide aggregate data on cross-border trade in services for the period ending in 2015, and transactions by affiliates based outside the country of their parent firm for the period ending in 2014. The report’s analysis will focus on professional services (including accounting and auditing, architecture and engineering, legal services, and business management and consulting). The Commission is inviting interested members of the public to furnish information and views in connection with the 2017 report.

DATES: December 16, 2016: Deadline for filing written submissions.

May 19, 2017: Anticipated date for publishing the report.

ADDRESSES: All Commission offices are located in the United States International Trade Commission Building, 500 E St. SW., Washington, DC. All written submissions should be addressed to the Secretary, United States International Trade Commission, 500 E St. SW., Washington, DC 20436. The public record for this investigation may be viewed on the Commission’s electronic docket information system (EDIS) at <https://edis.usitc.gov/>.

FOR FURTHER INFORMATION CONTACT: Project Leader Art Chambers (202–205–2766 or arthur.chambers@usitc.gov) or Services Division Chief Martha Lawless (202–205–3497 or martha.lawless@usitc.gov) for information specific to this investigation. For information on the legal aspects of these investigations, contact William Gearhart of the

Commission’s Office of the General Counsel (202–205–3091 or william.gearhart@usitc.gov). The media should contact Margaret O’Laughlin, Office of External Relations (202–205–1819 or margaret.olaughlin@usitc.gov). Hearing-impaired individuals may obtain information on this matter by contacting the Commission’s TDD terminal at 202–205–1810. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000.

SUPPLEMENTARY INFORMATION:

Background: The 2017 annual services trade report will provide aggregate data on cross-border trade and affiliate transactions in services, and more specific data and information on trade in professional services (accounting and auditing, architecture and engineering, legal services, and business and management consulting). Under Commission investigation No. 332–345, the Commission publishes two annual reports, one on services trade (*Recent Trends in U.S. Services Trade*), and a second on merchandise trade (*Shifts in U.S. Merchandise Trade*). The Commission’s 2016 annual report in the series of reports on *Recent Trends in U.S. Services Trade* is now available online at <http://www.usitc.gov>.

The initial notice of institution of this investigation was published in the **Federal Register** on September 8, 1993 (58 FR 47287) and provided for what is now the report on merchandise trade. The Commission expanded the scope of the investigation to cover services trade in a separate report, which it announced in a notice published in the **Federal Register** on December 28, 1994 (59 FR 66974). The separate report on services trade has been published annually since 1996, except in 2005. As in past years, the report will summarize trade in services in the aggregate and provide analyses of trends and developments in selected services industries during the latest period for which data are published by the U.S. Department of Commerce, Bureau of Economic Analysis.

Written Submissions: Interested parties are invited to file written submissions and other information concerning the matters to be addressed by the Commission in its 2017 report. For the 2017 report, the Commission is particularly interested in receiving information relating to trade in professional services (accounting and
