and determinations that a significant encroachment is the only practicable alternative under 23 CFR 650.113 and 650.115)

- E.O. 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low Income Populations
- E.O. 13112, Invasive Species.

The MOU would allow UDOT to act in the place of FHWA in carrying out the environmental review-related functions described above, except with respect to government-to-government consultations with federally recognized Indian tribes. The FHWA will retain responsibility for conducting formal government-to-government consultations with federally recognized Indian tribes, which is required under some of the listed laws and executive orders. The UDOT will continue to handle routine consultations with the tribes and understands that a tribe has the right to direct consultation with the FHWA upon request. The UDOT also may assist FHWA with formal consultations, with consent of a tribe, but FHWA remains responsible for the consultation.

The UDOT also will not assume FHWA’s responsibilities for conformity determinations required under Section 176 of the CAA (42 U.S.C. 7506), or any responsibility under 23 U.S.C. 134 or 135, or under 49 U.S.C. 5303 or 5304.

A copy of the proposed MOU may be viewed on the DOT DMS Docket, as described above, or may be obtained by contacting FHWA or the State at the addresses provided above. A copy also may be viewed on UDOT’s Web site at: https://www.udot.utah.gov/go/nepoaassigntment.

The FHWA Utah Division, in consultation with FHWA Headquarters, will consider the comments submitted when making its decision on the proposed MOU revision. Any final MOU approved by FHWA may include changes based on comments and consultations relating to the proposed MOU and will be made publicly available.

FAST Act Section 1422 Study on Performance of Bridges

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comment.

SUMMARY: Section 1422 of the Fixing America’s Surface Transportation (FAST) Act directs the Administrator of the Federal Highway Administration (FHWA) to commission the Transportation Research Board of the National Academy of Sciences to conduct a study on the performance of bridges that received funding under the Innovative Bridge Research and Construction program in meeting the goals of that program. Section 1422 also directs the Administrator of FHWA to provide an opportunity for public comment on the study proposal before commissioning the study. This notice provides the study proposal and the opportunity for public comment.

DATES: Comments must be received on or before December 16, 2016.

ADDRESSES: Mail or hand deliver comments to Docket Management Facility: U.S. Department of Transportation, 1200 New Jersey Avenue SE., Room W12–140, Washington, DC 20590. You may also submit comments electronically at www.regulations.gov. A copy of the proposed MOU may be viewed on the DOT DMS Docket, as described above, or may be obtained by contacting FHWA or the State at the addresses provided above. A copy also may be viewed on UDOT’s Web site at: https://www.udot.utah.gov/go/nepoaassigntment.

The FHWA Utah Division, in consultation with FHWA Headquarters, will consider the comments submitted when making its decision on the proposed MOU revision. Any final MOU approved by FHWA may include changes based on comments and consultations relating to the proposed MOU and will be made publicly available.

FAST Act Section 1422 Study on Performance of Bridges

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comment.

SUMMARY: Section 1422 of the Fixing America’s Surface Transportation (FAST) Act directs the Administrator of the Federal Highway Administration (FHWA) to commission the Transportation Research Board of the National Academy of Sciences to conduct a study on the performance of bridges that received funding under the Innovative Bridge Research and Construction program in meeting the goals of that program. Section 1422 also directs the Administrator of FHWA to provide an opportunity for public comment on the study proposal before commissioning the study. This notice provides the study proposal and the opportunity for public comment.

DATES: Comments must be received on or before December 16, 2016.

ADDRESSES: Mail or hand deliver comments to Docket Management Facility: U.S. Department of Transportation, 1200 New Jersey Avenue SE., Room W12–140, Washington, DC 20590. You may also submit comments electronically at www.regulations.gov. A copy of the proposed MOU may be viewed on the DOT DMS Docket, as described above, or may be obtained by contacting FHWA or the State at the addresses provided above. A copy also may be viewed on UDOT’s Web site at: https://www.udot.utah.gov/go/nepoaassigntment.

The FHWA Utah Division, in consultation with FHWA Headquarters, will consider the comments submitted when making its decision on the proposed MOU revision. Any final MOU approved by FHWA may include changes based on comments and consultations relating to the proposed MOU and will be made publicly available.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

(C) the development of construction techniques to increase safety and reduce construction time and traffic congestion;
(D) the development of engineering design criteria for innovative products and materials for use in highway bridges and structures;
(E) the development of cost-effective and innovative techniques to separate vehicle and pedestrian traffic from railroad traffic;
(F) the development of highway bridges and structures that will withstand natural disasters, including alternative processes for the seismic retrofit of bridges; and
(G) the development of new nondestructive bridge evaluation technologies and techniques.

The study also will include an analysis of the utility, compared to conventional materials and technologies, of each of the innovative materials and technologies used in projects for bridges under the program in meeting the needs of the United States in 2015 and in the future for a sustainable and low lifecycle cost transportation system;
recommendations to Congress on how the installed and lifecycle costs of bridges could be reduced through the use of innovative materials and technologies, including, as appropriate, any changes in the design and construction of bridges needed to maximize the cost reductions; and
a summary of any additional research that may be needed to further evaluate innovative approaches to reducing the installed and lifecycle costs of highway bridges.

The FAST Act requires each State that received funds under the program to provide to the Transportation Research Board any relevant data needed to carry out the study.

The FHWA proposes to focus the study on only the technologies implemented by the IBRC program and will only include bridges that received IBRC program funding. The FHWA’s Recommendations to Congress on how to reduce the installed and life cycle costs of bridges will also be based upon the IBRC program study and improvements inspired by the program.
In addition, FHWA proposes to focus the study on the effect of the designs, materials, and construction methods on the performance of bridges while they are in service.

The FHWA proposes that the assessment of the performance of bridges while they are in service will use existing information and data that is known or has already been collected by the bridge owners. The FHWA proposes the TRB contact recipients of IBRC funding to provide information and data by interview, survey, and/or release of records. Interviews and surveys may be required to determine which projects to focus the study on and to gather relevant background, cost, and performance information. Records required may include data, documents, and reports associated with design, construction, in-service inspection, maintenance, evaluation, monitoring, and other relevant phases or activities.

Interested parties are invited to provide comment on this study proposal.

Dated: November 9, 2016.
Gregory G. Nadeau,
Administrator, Federal Highway Administration.

[F] the development of highway bridges and structures that will withstand natural disasters, including alternative processes for the seismic retrofit of bridges; and

SUPPLEMENTARY INFORMATION: In its PTCSP, Amtrak asserts that the ACSES II system it is implementing is designed as a vital overlay positive train control (PTC) system as defined in 49 CFR 236.1015(e)(2). The PTCSP describes Amtrak’s ACSES II implementation and the associated ACSES II safety processes, safety analyses, and test, validation, and verification processes used during the development of ACSES II. The PTCSP also contains Amtrak’s operational and support requirements and procedures.

Amtrak’s PTCSP and the accompanying request for approval and system certification are available for review online at www.regulations.gov (Docket Number FRA–2010–0029) and in person at DOT’s Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to comment on the PTCSP by submitting written comments or data. During its review of the PTCSP, FRA will consider any comments or data submitted. However, FRA may elect not to respond to any particular comment and, under 49 CFR 236.1009(d)(3), FRA maintains the authority to approve or disapprove the PTCSP at its sole discretion. FRA does not anticipate scheduling a public hearing regarding Amtrak’s PTCSP because the circumstances do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, the party should notify FRA in writing before the end of the comment period and specify the basis for his or her request.

Privacy Act Notice

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 49 CFR 21.3, FRA solicits comments from the public to better inform its decisions. DOT posts these
