SUPPLEMENTARY INFORMATION:

I. Background

The Federal Motor Carrier Safety Administration (FMCSA) published a final rule, Electronic Logging Devices (ELDs) and Hours of Service Supporting Documents, on December 16, 2015 (80 FR 78292). This rulemaking stated that:

FMCSA will publish compliance test procedures to assist providers in determining whether their products meet the requirements. ELD providers are not required to use FMCSA's compliance test procedures. They may use any test procedures they deem appropriate, but FMCSA will use the compliance test procedures during any investigation and rely upon the results from that testing in making a determination of whether a system satisfies the requirements of [the] rule.

Soon after the publication of the final rule, on January 26, 2016, FMCSA made the compliance test procedures available on the Web site at www.fmcsa.dot.gov/technology-providers. The Web site also stated that there would be a listening session in the future in order to get input from ELD providers.

II. Meeting Participation

This meeting is open to all members of the public. However, FMCSA particularly requests participation from the ELD provider community. An agenda for the meeting is available at www.fmcsa.dot.gov/technology-providers. Comments and input from the ELD providers and the public on the compliance test procedures will be accepted throughout the meeting, subject to the discretion of the Agency. The meeting will be live-captioned and recorded and available after the webinar on the ELD Web page in docket FMCSA-2016-0054.

This meeting offers the provider community an opportunity to give input on these voluntary compliance test procedures and share best practices. The discussion will focus solely on the compliance test procedures. As the ELD rule is final, comments about the rule, including the technical specifications, are *not* appropriate during this meeting. The compliance test procedures are to be used only to confirm that the technical specifications in Appendix A to Subpart B of Part 395 have been met; they do not deal with the specifications themselves.

FMCSA plans to take this opportunity to ask those providers participating about their own internal testing procedures, as well as their thoughts on the procedures FMCSA has prepared. FMCSA may revise the compliance test procedures based on information received at this listening session.
