

reviewing DMM trading provides an appropriate framework in today's market structure for ensuring that DMMs are not establishing a price to benefit their own account.

For all of the foregoing reasons, the Exchange believes that retaining Prohibited Transactions is no longer necessary.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,¹⁹ in general, and furthers the objectives of Section 6(b)(5) of the Act,²⁰ in particular, because it is designed to prevent fraudulent and manipulative acts and practices, promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system, and protect investors and the public interest.

In particular, the Exchange believes that eliminating Rule 104(g)(III) would remove impediments to and perfect the mechanism of a free and open market and a national market system by permitting DMMs to enter trades in the last ten minutes of trading that establish a new high or low in a security even though the DMM has a position in that security. As proprietary traders without the ability to direct or influence trading or control the quote, restricting DMM trading in the final ten minutes of trading is no longer necessary.

The Exchange believes that eliminating Prohibited Transactions would not be inconsistent with the public interest and the protection of investors because DMM trading decisions going into the closing trade would continue to be evaluated from the perspective of their obligations to the marketplace, including the obligation to arrange a fair and orderly close, as set forth in Exchange rules. Further, the Exchange believes that eliminating Rule 104(g)(i)(A)(III) would not be inconsistent with the public interest and the protection of investors because existing safeguards would remain in place to ensure that DMMs do not inappropriately influence or manipulate the close, thereby establishing substantially the same result without an outright prohibition. As noted above, DMM trading would remain subject to Exchange rules, including the obligation to maintain a fair and orderly market under Rule 104. More specifically, in lieu of the obligations associated with Rule 104(g)(i)(A)(III), in the last ten minutes of trading the DMMs would be

subject to the reentry obligations associated with Conditional Transactions. Accordingly, during that period, DMMs would have an obligation to reenter the market if their trading both reaches across the market and increases or establishes a position.

For the foregoing reasons, the Exchange believes that the proposal is consistent with the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change is not intended to address competitive issues but rather to eliminate redundant approvals of manual trades on its trading Floor.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Petition to Obtain Approval of a Fee for Representing a Claimant Before the Social Security Administration—20 CFR 404.1720, 404.1725, 416.1520, and 416.1525—0960-0104. A Social Security claimant's representative, whether an attorney or a non-attorney, uses Form SSA-1560-U4 to petition SSA for authorization to charge and collect a fee. A claimant may also use the form to agree or disagree with the requested fee amount or other information the representative provides on the form. The SSA official responsible for setting the fee uses the information from the form to determine a reasonable fee amount representatives may charge for their services. The respondents are attorneys and non-attorneys who represent Social Security claimants.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)

II. SSA submitted the information collections below to OMB for clearance. Your comments regarding the information collections would be most useful if OMB and SSA receive them 30 days from the date of this publication. To be sure we consider your comments, we must receive them no later than December 19, 2016. Individuals can obtain copies of the OMB clearance

packages by writing to OR.Reports.Clearance@ssa.gov.
 1. *Request for Corrections of Earnings Record—20 CFR 404.820 and 20 CFR 422.125—0960-0029.* Individuals alleging inaccurate earnings records in SSA's files use paper Form SSA-7008, or a personal interview during which SSA employees key their answers into our electronic Earnings Modernization

Item Correction system, to provide the information SSA needs to check earnings posted, and, as necessary, initiate development to resolve any inaccuracies. The respondents are individuals who request correction of earnings posted to their Social Security earnings record.

Type of Request: Revision of an OMB-approved information collection.

2. *Supplemental Security Income (SSI)—Quality Review Case Analysis—0960-0133.* To assess the SSI program and ensure the accuracy of its payments, SSA conducts legally mandated periodic SSI case analysis quality reviews. SSA uses Form SSA-8508 to

conduct these reviews, collecting information on operating efficiency, the quality of underlying policies, and the effect of incorrect payments. SSA also uses the data to determine SSI program payment accuracy rate, which is a performance measure for the agency's

service delivery goals. Respondents are recipients of SSI payments selected for quality reviews.

Type of Request: Revision of an OMB approved information collection.

3. *Application for Supplemental Security Income—20 CFR 416.305–416.335, Subpart C—0960–0444.* SSA uses Form SSA–8001–BK to determine an applicant’s eligibility for SSI, and SSI payment amounts. SSA employees also collect this information during

interviews with members of the public who wish to file for SSI. SSA uses the information for two purposes: (1) To formally deny SSI for non-medical reasons when information the applicant provides results in ineligibility; or (2) to establish a disability claim, but defer the

complete development of non-medical issues until SSA approves the disability. The respondents are applicants for SSI.

Type of Request: Revision of an OMB-approved information collection.

4. *Employer Reports of Special Wage Payments—20 CFR 404.428–404.429—0960–0565.* SSA collects information on the SSA–131 to prevent earnings-related overpayments, and to avoid erroneous withholding of benefits. SSA field

offices and program service centers also use Form SSA–131 for awards and post-entitlement events requiring special wage payment verification from employers. While we need this information to ensure the correct

payment of benefits, we do not require employers to respond. The respondents are large and small businesses that make special wage payments to retirees.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)

This collection comprises the various application methods for each type of benefits. SSA uses the information we gather through the multiple information collection tools in this information collection request to determine applicants’

eligibility for specific Social Security benefits, as well as the amount of the benefits. Individuals filing for disability benefits can, and in some instances SSA may require them to, file applications under both Title II, Social Security disability benefits, and Title XVI, SSI payments. We refer to disability applications filed under both titles as “concurrent applications.” This collection comprises the various application methods for each type of benefits. These methods include the following modalities: Paper forms (Forms SSA–1, SSA–2, and SSA–16); Modernized Claims System (MCS)

screens for in-person interview applications; and Internet-based iClaim and iAppointment applications. SSA uses the information we collect through these modalities to determine: (1) The applicants’ eligibility for the above-mentioned Social Security benefits, and (2) the amount of the benefits. The respondents are applicants for retirement, survivors, and disability benefits under Title II of the Social Security Act.
