PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§39.13 [Amended]

2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

(a) Comments Due Date

We must receive comments by January 3, 2017.

(b) Affected ADs

None.

(c) Applicability

This AD applies to Zodiac Aero Evacuation Systems fusible plugs installed on emergency evacuation equipment. These affected fusible plugs might be installed on the emergency evacuation equipment of various transport airplanes, certified in any category, including, but not limited to, the airplanes of manufacturers specified in paragraphs (c)(1), (c)(2), (c)(3), and (c)(4) of this AD.

1. Airbus.
2. The Boeing Company.
4. Fokker Services B.V.

(d) Subject

Air Transport Association (ATA) of America Code 25, Equipment/furnishings.

(e) Unsafe Condition

This AD was prompted by reports indicating that affected fusible plugs activated (vented gas) below the rated temperature. We are issuing this AD to detect and correct fusible plugs that might activate below the rated temperature, which renders the evacuation system unusable.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Fusible Plug Identification, and Replacement

Within 30 days after the effective date of this AD: Do an inspection to determine the part number and lot number of the fusible plugs installed in the emergency evacuation equipment (including all inflation valves, reservoir and valve assemblies, and evacuation slides, slides/rafts and life rafts). A review of airplane maintenance records is acceptable to make this determination if the part number and lot number of the fusible plugs can be conclusively determined from that review. If any fusible plug has part number (P/N) B13984–3, stamped with Lot PA–21 or PA–22, before further flight, replace the fusible plug with a new part.

Note 1 to paragraph (g) of this AD:

Guidance can be found in the applicable component maintenance manual for the replacement. In addition, Air Cruisers Service Information Letter 25–246, Rev. No. 1, dated February 21, 2014, provides information regarding affected fusible plugs and guidance on the replacement.

(h) Reporting

If any fusible plug having P/N B13984–3, stamped with Lot PA–21 or PA–22, is identified during the inspection required by paragraph (g) of this AD: At the time specified in paragraph (h)(1) or (h)(2) of this AD, report the finding to Air Cruisers, Attention Kelly Schmidt, 1747 State Route 34, Wall Township, NJ 07727–3935; fax: 732–681–9163; email: aircruisers@zodiacaerospace.com. Include the quantity of fusible plugs scrapped and the name of the company or service center.

1. If any affected fusible plug was identified on or after the effective date of this AD: Submit the report within 30 days after the part number identification.

2. If any affected fusible plug was identified before the effective date of this AD: Submit the report within 30 days after the effective date of this AD.

(i) Parts Installation Prohibition

As of the effective date of this AD, no person may install on any airplane any fusible plug having P/N B13984–3, stamped with Lot PA–21 or PA–22.

(j) Paperwork Reduction Act Burden Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. The OMB Control Number for this collection of information subject to the Paperwork Reduction Act is 2120–0056. Public reporting for this collection of information is estimated to be approximately 5 minutes per response, including the time for reviewing instructions, completing and reviewing the collection of information. All responses to this collection of information are mandatory. Comments concerning the accuracy of this burden and suggestions for reducing the burden should be directed to the FAA at: 800 Independence Ave. SW., Washington, DC 20591; Attn: Information Collection Clearance Officer, AES–200.

(k) Alternative Methods of Compliance (AMOCs)

(1) The Manager, New York Aircraft Certification Office (ACO), ANE–170, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the ACO, send it to ATTN: Program Manager, Continuing Operational Safety, FAA, New York ACO, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone: 516–228–7300; fax: 516–794–5531.

2. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(l) Related Information

Issued in Renton, Washington, on November 8, 2016.

Michael Kaszycki,
Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 51, 52, 60, 70, and 71

RIN 2060–AS62

Revisions to the Prevention of Significant Deterioration (PSD) and Title V Greenhouse Gas (GHG) Permitting Regulations and Establishment of a Significant Emissions Rate (SER) for GHG Emissions Under the PSD Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; extension of comment period.

SUMMARY: On August 26, 2016, the Environmental Protection Agency (EPA) issued a proposed rule to revise provisions in the Prevention of Significant Deterioration (PSD) and Title V permitting regulations applicable to greenhouse gases (GHGs) to fully conform with recent court decisions. The EPA is extending the comment period on this proposed rule that was scheduled to close on December 2, 2016. The EPA received a letter requesting the extension of the proposed rule public comment period to allow the public additional time to review the rule and supporting documentation.

DATES: The public comment period on the proposed rule published in the Federal Register on October 3, 2016 (81 FR 68110), is being extended. Written comments must be received on or before December 16, 2016.

SUMMARY: The Environmental Protection Agency (EPA) is proposing action on the portions of six submissions from the State of Wyoming that are intended to demonstrate that the State Implementation Plan (SIP) meets certain interstate transport requirements of the Clean Air Act (Act or CAA). These submissions address the 2006 and 2012 fine particulate matter (PM_{2.5}) National Ambient Air Quality Standards (NAAQS), 2008 ozone NAAQS, 2008 lead (Pb) NAAQS, 2010 sulfur dioxide (SO_{2}) NAAQS and 2010 nitrogen dioxide (NO_{2}) NAAQS. The interstate transport requirements under the CAA consist of four elements: Significant contribution to nonattainment (prong 1) and interference with maintenance (prong 2) of the NAAQS in other states; and interference with measures required to be included in the plan for other states to prevent significant deterioration of air quality (prong 3) or to protect visibility (prong 4). Specifically, the EPA is proposing to approve interstate transport progs 1 and 2 for the 2008 Pb and 2010 NO_{2} NAAQS, and proposing to approve prong 1 and disapprove prong 2 for the 2008 ozone NAAQS. The EPA is also proposing to approve interstate transport prog 4 for the 2008 Pb and 2010 SO_{2} NAAQS, and proposing to disapprove prog 4 for the 2006 PM_{2.5}, 2008 ozone, 2010 NO_{2} and 2012 PM_{2.5} NAAQS.

DATES: Comments must be received on or before December 19, 2016.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R08–OAR–2016–0521 at http://www.regulations.gov. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from www.regulations.gov. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e., on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit http://www2.epa.gov/dockets/commenting-epa-dockets.

FOR FURTHER INFORMATION CONTACT: For additional information on this action, contact Jessica Montañez, Office of Air Quality Planning and Standards, Environmental Protection Agency (C504–03), Research Triangle Park, North Carolina 27711; telephone number (919) 541–3407; fax number (919) 541–5509; email address: montanez.jessica@epa.gov.

SUPPLEMENTARY INFORMATION: After considering the public comment received, the EPA has decided to extend the public comment period by 2 weeks, until December 16, 2016. This extension will ensure that the public has additional time to review the proposed rule and its supporting documents.

Dated: November 9, 2016.

Mary Henigin,
Acting Director, Office of Air Quality Planning and Standards.

Tips for preparing your comments.

• Follow directions and organize your comments;
• Explain why you agree or disagree;
• Suggest alternatives and substitute language for your requested changes;
• Describe any assumptions and provide any technical information and/or data that you used;
• If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced;
• Provide specific examples to illustrate your concerns, and suggest alternatives;
• Explain your views as clearly as possible, avoiding the use of profanity or personal threats; and
• Make sure to submit your comments by the comment period deadline identified.

II. Background

On September 21, 2006, the EPA revised the primary 24-hour NAAQS for PM_{2.5} to 35 micrograms per cubic meter...
