Preliminary Results. We received no comments. The Department conducted these reviews in accordance with section 751(a)(2) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The merchandise subject to the order is solid urea, a high-nitrogen content fertilizer which is produced by reacting ammonia with carbon dioxide. The product is currently classified under the Harmonized Tariff Schedules of the United States (HTSUS) item number 3102.10.0010. Previously such merchandise was classified under item number 480.3000 and 3102.10.0000 of the HTSUS. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise subject to the order is dispositive.

Final Results of the Administrative Review

The Department made no changes to its calculations announced in the *Preliminary Results*. As a result of this administrative review, we determine that an estimated weighted-average dumping margin of 0.00 percent exists for MCC EuroChem for the period July 1, 2014, through June 30, 2015.

Final Results of the New Shipper Review

The Department made no changes to its calculations announced in the *Preliminary Results*. As a result of this new shipper review, we determine that an estimated weighted-average dumping margin of 0.00 percent exists for merchandise produced and exported by PhosAgro for the period July 1, 2014, through June 30, 2015.

Assessment

In accordance with 19 CFR 351.212 and the *Final Modification*,² the Department will instruct U.S. Customs and Border Protection (CBP) to liquidate all appropriate entries for MCC EuroChem and PhosAgro without regard to antidumping duties.

For entries of subject merchandise during the period of review produced by MCC EuroChem and PhosAgro for which they did not know their merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the

intermediate company(ies) involved in the transaction.³

We intend to issue instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the notice of final results of the administrative and new shipper reviews for all shipments of solid urea from Russia entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2) of the Act: (1) The cash deposit rate with respect to the administrative review respondent, MCC EuroChem, will be 0.00 percent, the weighted average dumping margin established in the final results of the administrative review; (2) for merchandise exported by manufacturers or exporters not covered in this administrative review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which that manufacturer or exporter participated; (3) if the exporter is not a firm covered in this administrative review, a prior review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the manufacturer of subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 64.93 percent, the all-others rate established in the original less-than-fair-value investigation.⁴

With respect to PhosAgro, the new shipper respondent, the Department established a combination cash deposit rate for this company, consistent with its practice, as follows: (1) For subject merchandise produced and exported by PhosAgro, the cash deposit rate will be 0.00 percent; (2) for subject merchandise exported by PhosAgro, but not produced by PhosAgro, the cash deposit rate will

be the rate for the all-others established in the less-than-fair-value investigation; and (3) for subject merchandise produced by PhosAgro but not exported by PhosAgro, the cash deposit rate will be the rate applicable to the exporter.

These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing these results of administrative and new shipper reviews in accordance with sections 751(a)(1) 751(a)(2)(B)(iii), 751(a)(3) and 777(i)(1) of the Act and 19 CFR 351.213(h), 351.214 and 351.221(b)(5).

Dated: November 14, 2016.

Assistant Secretary for Enforcement and Compliance.
