

■ 3. Section 52.1881 is amended by adding paragraph (a)(16) to read as follows:

**§ 52.1881 Control strategy: Sulfur oxides (sulfur dioxide).**

(a) \* \* \*  
 (16) Approval—The 2010 SO<sub>2</sub> maintenance plan for the Ohio portion of the Campbell-Clermont KY-OH (Pierce Township, Clermont County),

has been approved as submitted on August 11, 2015.

\* \* \* \* \*

**PART 81—DESIGNATION OF AREAS FOR AIR QUALITY PLANNING PURPOSES**

■ 4. The authority citation for part 81 continues to read as follows:

OHIO—2010 SULFUR DIOXIDE NAAQS  
 [Primary]

Authority: 42 U.S.C. 7401, *et seq.*

■ 5. Section 81.336 is amended by revising the entry for “Campbell-Clermont Counties, KY-OH” in the table entitled “Ohio—2010 Sulfur Dioxide NAAQS [Primary]” to read as follows:

**§ 81.336 Ohio.**

\* \* \* \* \*

Designated area	Designation	
	Date	Type
Campbell-Clermont Counties, KY-OH <sup>1</sup> ..... Clermont County (part): Pierce Township	11/21/16	Attainment.
* * * * *		

<sup>1</sup> Excludes Indian country located in each area, if any, unless otherwise specified.

RIN 2060-AT15

**Revisions to Procedure 2—Quality Assurance Requirements for Particulate Matter Continuous Emission Monitoring Systems at Stationary Sources**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is taking direct final action to update a procedure in the New Source Performance Standards (NSPS). The procedure provides the ongoing quality assurance/quality control (QA/QC) procedures for assessing the acceptability of particulate matter (PM) continuous emissions monitoring systems (CEMS). The procedure explains the criteria for passing an annual response correlation audit (RCA) and the criteria for passing an annual relative response audit (RRA). The procedure currently contains a requirement that the annual QA/QC test results for affected facilities must fall within the same response range that was used to develop the existing PM CEMS correlation curve. As a result, some

facilities are unable to meet the criteria for passing their annual QA/QC test because their emissions are now lower than the range previously set during their correlation testing. We are modifying the procedure to allow facilities to extend their PM CEMS correlation regression line to the lowest PM CEMS response obtained during the annual RCA or RRA, when these PM CEMS responses are less than the lowest response used to develop the existing correlation curve. This change will ensure that facilities that have reduced their emissions since completing their correlation testing will no longer be penalized because their lower emissions fall outside their initial response range. This action also corrects a typographical error in the procedure.

**DATES:** This rule is effective on February 21, 2017 without further notice, unless the EPA receives adverse comment by December 21, 2016. If the EPA receives adverse comment, we will publish a timely withdrawal in the **Federal Register** informing the public that the rule will not take effect.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2016-0382, to the *Federal eRulemaking Portal*: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (e.g., on the Web, Cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

**FOR FURTHER INFORMATION CONTACT:** Questions concerning this direct final rule should be addressed to Ms. Kimberly Garnett, U.S. Environmental Protection Agency, Office of Air Quality Planning and Standards, Air Quality Assessment Division, Measurement Technology Group (E143-02), Research Triangle Park, NC 27711; telephone number: (919) 541-1158; fax number: (919) 541-0516; email address: [garnett.kim@epa.gov](mailto:garnett.kim@epa.gov).

**SUPPLEMENTARY INFORMATION:** The information in this **SUPPLEMENTARY INFORMATION** section of this preamble is organized as follows:

- I. General Information
  - A. Why is the EPA using a direct final rule?
  - B. Does this action apply to me?
  - C. Where can I obtain a copy of this action?
  - D. Judicial Review
- II. This Final Action
- III. Statutory and Executive Order Reviews
  - A. Executive Order 12866: Regulatory Planning and Review and Executive

- Order 13563: Improving Regulation and Regulatory Review
- B. Paperwork Reduction Act (PRA)
  - C. Regulatory Flexibility Act (RFA)
  - D. Unfunded Mandates Reform Act (UMRA)
  - E. Executive Order 13132: Federalism
  - F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments
  - G. Executive Order 13045: Protection of Children from Environmental Health Risks and Safety Risks
  - H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use
  - I. National Technology Transfer and Advancement Act
  - J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations
  - K. Congressional Review Act (CRA)
  - L. Determination Under Section 307(d)

## I. General Information

### A. Why is the EPA using a direct final rule?

The EPA is publishing this rule without a prior proposed rule because we view this as a non-controversial action and anticipate no adverse comment. This action modifies Procedure 2, sections 10.4(5) and (6), to allow facilities that have reduced their PM emissions since their PM CEMS correlation curve was developed to extend their correlation regression line to the point corresponding to the lowest PM CEMS response obtained during an annual RCA or RRA. This extended correlation regression line will then be used to determine if results of this RCA or RRA meet the criteria specified in section 10.4, paragraphs (5) and (6) of Procedure 2, respectively. This change will ensure that facilities that have reduced their emissions since completing their correlation testing will no longer be penalized because their lower emissions fall outside their initial response range. This action also corrects a typographical error in the introduction to section 10.4, paragraph (6) of Procedure 2. In the “Proposed Rules” section of this **Federal Register** publication, we are publishing a separate proposed rule to modify Procedure 2. If the EPA receives any significant and relevant adverse comments, we will publish a timely withdrawal in the **Federal Register** informing the public that this direct final rule will not take effect. In that case, we would address all public comments in any subsequent final rule based on the proposed rule. We will not institute a second comment period on the proposed rule. Any parties interested in commenting must do so at

this time. For further information about commenting on the proposed rule, see the **ADDRESSES** section of this direct final rule.

### B. Does this action apply to me?

The entities potentially affected by this rule include any facility that is required to install and operate a PM CEMS under any provision of title 40 of the CFR. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

### C. Where can I obtain a copy of this action?

In addition to being available in the docket, an electronic copy of this rule will also be available online at <http://www3.epa.gov/ttn/emc/new.html>.

### D. Judicial Review.

Under section 307(b)(1) of the Clean Air Act (CAA), petitions for judicial review of this action must be filed in the United States Court of Appeals for the District of Columbia Circuit by January 20, 2017. Clean Air Act section 307(d)(7)(B) further provides that “[o]nly an objection to a rule or procedure that was raised with reasonable specificity during the period for public comment (including any public hearing) may be raised during judicial review.” This section also provides a mechanism for the EPA to reconsider the rule “[i]f the person raising an objection can demonstrate to the Administrator that it was impracticable to raise such objection within [the period for public comment] or if the grounds for such objection arose after the period for public comment (but within the time specified for judicial review) and if such objection is of central relevance to the outcome of the rule.” Any person seeking to make such a demonstration should submit a Petition for Reconsideration to the Office of the Administrator, U.S. EPA, Room 3000, EPA WJC, 1200 Pennsylvania Ave. NW., Washington, DC 20460, with a copy to both the person(s) listed in the preceding **FOR FURTHER INFORMATION CONTACT** section of this direct final rule, and the Associate General Counsel for the Air and Radiation Law Office, Office of General Counsel (Mail Code 2344A), U.S. EPA, 1200 Pennsylvania Ave. NW., Washington, DC 20460. Filing a petition for reconsideration by the Administrator of this final action does not affect the finality of this action for the purposes of judicial review, nor does it extend the time within which a petition for judicial review must be filed, and shall not

postpone the effectiveness of this action. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2) of the CAA).

Rather than file an immediate petition for judicial review of this direct final rule, parties with objections are encouraged to file comments in response to the parallel notice of proposed rulemaking published in the “Proposed Rules” section of today’s **Federal Register** to allow the EPA to withdraw this direct final rule and address the comment(s) in the final rulemaking.

## II. This Final Action

On January 12, 2004, the EPA promulgated Procedure 2—Quality Assurance Requirements for Particulate Matter Continuous Emission Monitoring Systems at Stationary Sources (69 FR 1786). Procedure 2, sections 10.4(5) and (6), contain the requirement that when conducting the annual RCA or RRA QA/QC test procedures, a specified amount of the required number of PM CEMS response values, or data points, must lie within the PM CEMS response range used to develop the PM CEMS correlation curve. In other words, when conducting the annual QA/QC tests, the PM CEMS response values should not be higher or lower than the values used to develop the correlation curve for that PM CEMS. Recently, as PM emission limits have been reduced and facilities have installed more robust PM emission control devices, a number of facilities have found that their PM emissions are lower than their PM CEMS correlation curve. As a result, the facilities are now unable to meet the criteria for a passing the annual Procedure 2 QA/QC tests.

In order to rectify this situation, we are modifying Procedure 2, sections 10.4(5) and (6), to allow facilities to extend their correlation regression line to the lowest PM CEMS response obtained during a RCA or RRA. When a RCA or RRA is performed, if any of the PM CEMS response values are lower than the response range of the existing correlation curve, the facility will take the existing correlation regression line and extend it to the lowest PM CEMS response value found during the annual RCA or RRA. The extension of the existing regression line will be accomplished by using the lowest PM CEMS response value, or x-value, found during the RCA or RRA, solving the regression line equation for the corresponding y-value and then extending the regression line to this new lowest point. This extended correlation regression line will then be used to determine if the RCA or RRA data meet

the criteria specified for a RCA or a RRA, in section 10.4(5) and (6), respectively.

This action also corrects a typographical error in the introduction to section 10.4, paragraph (6) of Procedure 2. Paragraph (6) which originally read, “To pass an RRA, you must meet the criteria specified in paragraphs (6)(i) and (ii) . . .”, is being corrected to read: “To pass an RRA, you must meet the criteria specified in paragraphs (6)(i) through (iii) . . .” Without this revision, paragraph (6)(iii) would remain unused in Procedure 2. This typographical correction is necessary to fulfill the intent of Procedure 2, section 10.4(6), when promulgated. See 69 FR 1786.

### III. Statutory and Executive Order Reviews

#### A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This action is not a significant regulatory action and was, therefore, not submitted to the Office of Management and Budget (OMB) for review.

#### B. Paperwork Reduction Act (PRA)

This action does not impose an information collection burden under the PRA. This action does not contain any information collection activities.

#### C. Regulatory Flexibility Act (RFA)

I certify that this action will not have a significant economic impact on a substantial number of small entities under the RFA. This action will not impose any requirements on small entities. There are no small entities in the regulated industry for which Procedure 2 applies.

#### D. Unfunded Mandates Reform Act (UMRA)

This action does not contain any unfunded mandate as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. This action imposes no enforceable duty on any state, local or tribal governments, or the private sector.

#### E. Executive Order 13132: Federalism

This action does not have federalism implications. It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

#### F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications, as specified in Executive Order 13175. Procedure 2 is applicable to facility owners and operators who are responsible for one or more PM CEMS used for monitoring emissions. Thus, Executive Order 13175 does not apply to this action.

#### G. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

The EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern environmental health or safety risks that the EPA has reason to believe may disproportionately affect children, per the definition of “covered regulatory action” in section 2–202 of the Executive Order. This action is not subject to Executive Order 13045 because it does not concern an environmental health risk or safety risk.

#### H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

This action is not subject to Executive Order 13211 because it is not a significant regulatory action under Executive Order 12866.

#### I. National Technology Transfer and Advancement Act

This rulemaking does not involve technical standards.

#### J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

The EPA believes that this action is not subject to Executive Order 12898 (59 FR 7629, February 16, 1994) because it does not establish an environmental health or safety standard. This regulatory action is a procedural change and does not have any impact on human health or the environment.

#### K. Congressional Review Act

This action is subject to the CRA, and the EPA will submit a rule report to each House of Congress and to the Comptroller General of the United States. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

#### L. Determination Under Section 307(d)

Pursuant to CAA section 307(d)(1)(V), the Administrator determines that this action is subject to provisions of section 307(d). Section 307(d) establishes procedural requirements specific to

rulemaking under the CAA. Section 307(d)(1)(V) provides that the provisions of section 307(d) apply to “such other actions as the Administrator may determine.”

#### List of Subjects in 40 CFR Part 60

Environmental protection, Administrative practice and procedure, Air pollution control, Continuous emission monitoring systems, Particulate matter, Procedures.

Dated: November 8, 2016.

**Gina McCarthy**,  
Administrator.

For the reasons stated in the preamble, title 40, chapter I of the Code of Federal Regulations is amended as follows:

### PART 60—STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

■ 1. The authority citation for Part 60 continues to read as follows:

**Authority:** 42 U.S.C. 7401 *et seq.*

■ 2. In Appendix F, Procedure 2, in section 10.4, paragraphs (5) and (6) are revised to read as follows:

#### Appendix F to Part 60—Quality Assurance Procedures

\* \* \* \* \*

#### Procedure 2—Quality Assurance Requirements for Particulate Matter Continuous Emission Monitoring Systems at Stationary Sources

10.4 \* \* \*

(5) What are the criteria for passing a RCA? To pass a RCA, you must meet the criteria specified in paragraphs (5)(i) through (iii) of this section. If your PM CEMS fails to meet these RCA criteria, it is out of control, with the following exception: If any of the PM CEMS response values resulting from your RCA are lower than the lowest PM CEMS response value of your existing correlation curve, you may extend your correlation regression line to the point corresponding to the lowest PM CEMS response value obtained during the RCA. This extended correlation regression line must then be used to determine if the RCA data meets the criteria specified in paragraphs (5)(i) through (iii) of this section.

(i) For all 12 data points, the PM CEMS response value can be no greater than the greatest PM CEMS response value used to develop your correlation curve.

(ii) For 9 of the 12 data points, the PM CEMS response value must lie within the PM CEMS output range used to develop your correlation curve.

(iii) At least 75 percent of a minimum number of 12 sets of PM CEMS and reference method measurements must fall within a specified area on a graph of the correlation regression line. The specified area on the graph of the correlation regression line is

defined by two lines parallel to the correlation regression line, offset at a distance of  $\pm 25$  percent of the numerical emission limit value from the correlation regression line.

(6) What are the criteria to pass a RRA? To pass a RRA, you must meet the criteria specified in paragraphs (6)(i) through (iii) of this section. If your PM CEMS fails to meet these RRA criteria, it is out of control, with the following exception: If any of the PM CEMS response values resulting from your RRA are lower than the lowest PM CEMS response value of your existing correlation curve, you may extend your correlation regression line to the point corresponding to the lowest PM CEMS response value obtained during the RRA; this extended correlation regression line must then be used to determine if the RRA data meets the criteria specified in paragraphs (6)(i) through (iii) of this section.

(i) For all three data points, the PM CEMS response value can be no greater than the greatest PM CEMS response value used to develop your correlation curve.

(ii) For two of the three data points, the PM CEMS response value must lie within the PM CEMS output range used to develop your correlation curve.

(iii) At least two of the three sets of PM CEMS and reference method measurements must fall within the same specified area on a graph of the correlation regression line as required for the RCA and described in paragraph (5)(iii) of this section.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 180

EPA-HQ-OPP-2014-0613; FRL-9953-97]

#### Endothall; Pesticide Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

**SUMMARY:** This regulation establishes tolerances for residues of endothall in or on multiple commodities which are identified and discussed later in this document. United Phosphorus, Inc. requested these tolerances under the Federal Food, Drug, and Cosmetic Act (FFDCA).

**DATES:** This regulation is effective November 21, 2016. Objections and requests for hearings must be received on or before January 20, 2017 and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

**ADDRESSES:** The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2014-0613, is

available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

**FOR FURTHER INFORMATION CONTACT:** Michael Goodis, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; main telephone number: (703) 305-7090; email address: [RDfRNNotices@epa.gov](mailto:RDfRNNotices@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

###### A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

###### B. How can I get electronic access to other related information?

You may access a frequently updated electronic version of EPA's tolerance regulations at 40 CFR part 180 through the Government Printing Office's e-CFR site at [http://www.ecfr.gov/cgi-bin/text-idx?&c=ecfr&tpl=/ecfrbrowse/Title40/40tab\\_02.tpl](http://www.ecfr.gov/cgi-bin/text-idx?&c=ecfr&tpl=/ecfrbrowse/Title40/40tab_02.tpl).

###### C. How can I file an objection or hearing request?

Under FFDCA section 408(g), 21 U.S.C. 346a, any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. You must file your objection or request a hearing on this regulation in accordance with the instructions provided in 40 CFR part 178. To ensure

proper receipt by EPA, you must identify docket ID number EPA-HQ-OPP-2014-0613 in the subject line on the first page of your submission. All objections and requests for a hearing must be in writing, and must be received by the Hearing Clerk on or before January 20, 2017. Addresses for mail and hand delivery of objections and hearing requests are provided in 40 CFR 178.25(b).

In addition to filing an objection or hearing request with the Hearing Clerk as described in 40 CFR part 178, please submit a copy of the filing (excluding any Confidential Business Information (CBI)) for inclusion in the public docket. Information not marked confidential pursuant to 40 CFR part 2 may be disclosed publicly by EPA without prior notice. Submit the non-CBI copy of your objection or hearing request, identified by docket ID number EPA-HQ-OPP-2014-0613, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be CBI or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

##### II. Summary of Petitioned-for Tolerance

In the **Federal Register** of December 17, 2014 (79 FR 75110) (FRL-9918-90), EPA issued a document pursuant to FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide petition (PP 4F8293) by United Phosphorus, Inc., 630 Freedom Business Center, Suite 402, King of Prussia, PA 19406. The petition requested that 40 CFR 180.293 be amended by amending tolerances for residues of the herbicide endothall, in or on cattle, fat from 0.01 to 0.05 parts per million (ppm); cattle, kidney from 0.20 to 0.06 ppm; cattle, liver from 0.10 to 0.05 ppm; cattle, meat from 0.03 to 0.05 ppm; goat, fat from 0.005 to 0.05 ppm; goat, kidney from 0.15 to 0.06 ppm; goat, meat from 0.015 to 0.05 ppm; hog, fat from 0.005 to 0.05 ppm; hog, kidney from 0.10 to 0.06 ppm; hog, meat
