

survey until the questions are peer reviewed and deemed reliable by a panel of non-NPS social scientists. The final version of the survey will be submitted to OMB for review and a separate **Federal Register** Notice will be published at that time. Neither the date nor the parks to be used in the study have been determined. Thank you again and your comment and our response will be reported to OMB in our request for approval—of the focus groups.”

Comment #2 from the American Motorcyclist Association dated November 3, 2016 (received by postal mail November 7, 2016): This comment addressed the following issues: (1) Whether additional data collection is necessary, and a request for consultation in drafting language for policies addressing excessive noise; (2) A recommendation to measure vehicle noise levels according to established methods, and to consider the implications of alternative study funding sources; and, (3) A request to consider alternative data collection modes that may be less burdensome to visitors such as internet administration or mail-back postcards.

NPS response on November 8, 2016: Further refinement and testing of survey materials is necessary because previous focus group results, and an expert peer review, indicated that fundamental aspects of the valuation scenario and questionnaire were not functioning properly. No new noise measurement efforts will be conducted in conjunction with this study. Rather, existing recordings will be utilized to test respondent sensitivity to noise, and elicit a value for reducing or eliminating noises. To ensure that these audio recordings are properly and consistently administered to visitors in the full survey, it will be necessary to intercept them in the park units. NPS will take whatever measures are feasible to minimize respondent burden in the full survey.

We again invite comments concerning this information collection on:

- Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful;
- The accuracy of the agency's estimate of the burden of the proposed collection of information;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of

public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

[MMAA104000]

Final Programmatic Environmental Impact Statement for the 2017–2022 Outer Continental Shelf (OCS) Oil and Gas Leasing Program

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Notice of availability.

SUMMARY: BOEM announces the availability of the Final 2017–2022 OCS Oil and Gas Leasing Program Programmatic Environmental Impact Statement (Programmatic EIS) to inform the 2017–2022 Proposed Final Program. The Final Programmatic EIS provides a discussion of potential impacts of the proposed action, provides an analysis of reasonable alternatives to the proposed action, and recognizes BOEM's preferred alternative. Under Council on Environmental Quality (CEQ) regulations at 40 CFR 1506.10(b)(2), the Secretary of the Interior will not finalize the 2017–2022 OCS Oil and Gas Leasing Program until at least 30 days after publication of the Final Programmatic EIS.

FOR FURTHER INFORMATION CONTACT: Jill Lewandowski, Ph.D., Bureau of Ocean Energy Management, 45600 Woodland Road VAM-OEP, Sterling, VA 20166. Dr. Lewandowski may also be reached by telephone at (703) 787-1703.

SUPPLEMENTARY INFORMATION: A Draft Programmatic EIS was published on March 18, 2016, with a 45-day public comment period that ended on May 2, 2016. BOEM considered all comments submitted on the Draft Programmatic EIS during preparation of the Final Programmatic EIS. Persons interested in

obtaining the Final Programmatic EIS, OCS EIS/EA BOEM 2016–060, can download it from www.boemoceaninfo.com, or may contact BOEM at the address and phone number provided above to request a paper copy or a CD-ROM version. Please specify if you wish a CD-ROM or paper copy. If neither is specified, a CD-ROM containing the Final Programmatic EIS will be provided. The Final Programmatic EIS will also be available at libraries in states adjacent to the proposed lease sales. These libraries are listed at www.boemoceaninfo.com.

Authority: This Notice of Availability of a Final Programmatic EIS is in compliance with the National Environmental Policy Act of 1969, as amended (Pub. L. 91-190, 42 U.S.C. 4231 *et seq.*), and is published pursuant to 40 CFR 1506.6.

Dated: November 3, 2016.

**INTERNATIONAL TRADE
COMMISSION**

[Investigation Nos. 731-TA-1082-1083
(Second Review)]

**Chlorinated Isocyanurates From China
and Spain**
Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that revocation of the antidumping duty orders on chlorinated isocyanurates from China and Spain would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission, pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)), instituted these reviews on September 1, 2015 (80 FR 52789) and determined on December 7, 2015 that it would conduct full reviews (80 FR 79358, December 21, 2015).

Notice of the scheduling of the Commission’s reviews and of a public hearing to be held in connection therewith was given by posting copies

of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on April 20, 2016 (81 FR 23328). The hearing was held in Washington, DC, on September 13, 2016, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on November 16, 2016. The views of the Commission are contained in USITC Publication 4646 (November 2016), entitled *Chlorinated Isocyanurates from China and Spain: Investigation Nos. 731-TA-1082-1083 (Second Review)*.

By order of the Commission.

Issued: November 16, 2016.

Lisa R. Barton,

Secretary to the Commission.

**NUCLEAR REGULATORY
COMMISSION**

[NRC-2016-0239]

**Biweekly Notice: Applications and
Amendments to Facility Operating
Licenses and Combined Licenses
Involving No Significant Hazards
Considerations**

AGENCY: Nuclear Regulatory
Commission.

ACTION: Biweekly notice.

SUMMARY: Pursuant to Section 189a. (2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular biweekly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued, from October 25 to November 7, 2016. The last biweekly notice was published on November 8, 2016.

DATES: Comments must be filed by December 22, 2016. A request for a hearing must be filed by January 23, 2017.
