

fuel system functioning or, in case of the presence of an ignition source, an airplane fire.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Inspection of Motorized Fuel Valves

Within the compliance time defined in paragraph (g)(1) or (g)(2) of this AD, as applicable, do a general visual inspection of each motorized fuel valve having part number (P/N) 7923227F for the presence of fuel on the electrical connectors and inside the receptacles, as specified in, and in accordance with the instructions of Airbus Defense and Space Alert Operators Transmission (AOT) AOT-CN235-28-0001 or Airbus Defense and Space AOT-C295-28-0001, both dated February 19, 2016, as applicable.

(1) For airplanes that, as of the effective date of this AD, have accumulated 6,000 flight cycles or more since first flight: Do the inspection within 30 flight cycles or 30 days after the effective date of this AD, whichever occurs first.

(2) For airplanes that, as of the effective date of this AD, have accumulated fewer than 6,000 flight cycles since first flight: Do the inspection within 400 flight hours after the effective date of this AD.

(h) Replacement of Affected Parts

If, during the inspection required by paragraph (g) of this AD, any leaking of a motorized fuel valve having P/N 7923227F is detected: Before the next flight, replace the affected fuel valve with a serviceable part, in accordance with the instructions of Airbus Defense and Space AOT-CN235-28-0001 or Airbus Defense and Space AOT-C295-28-0001, both dated February 19, 2016, as applicable. A serviceable part is defined as a part that is not defective; it could be a used or brand new part.

(i) Parts Installation Limitation

As of the effective date of this AD, replacement of a motorized fuel valve having P/N 7923227F with a serviceable used part on an airplane is allowed, provided that, within 30 flight cycles or 30 days, whichever occurs first after installation, the part passes an inspection done in accordance with the instructions of Airbus Defense and Space AOT-CN235-28-0001 or AOT-C295-28-0001, both dated February 19, 2016, as applicable.

(j) Reporting Requirement

At the applicable time specified in paragraph (j)(1) or (j)(2) of this AD, report the inspection results (both positive and negative) to Airbus DS Technical Assistance Center (AMTAC); telephone +34 91 600 79 99; email mta.technicalservice@airbus.com. The report must include the inspection results, a description of any discrepancies found, operator name, the airplane model and serial number, valve part number and serial number, and the number of landings and flight hours on the airplane.

(1) If the inspection was done on or after the effective date of this AD: Submit the report within 60 days after the inspection.

(2) If the inspection was done before the effective date of this AD: Submit the report within 60 days after the effective date of this AD.

(k) Other FAA AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs)*: The Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the International Branch, send it to ATTN: Shahram Daneshmandi, Aerospace Engineer, International Branch, ANM-116, Transport Airplane Directorate, FAA, 1601 Lind Avenue SW., Renton, WA 98057-3356; telephone 425-227-1112; fax 425-227-1149. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office. The AMOC approval letter must specifically reference this AD.

(2) *Contacting the Manufacturer*: For any requirement in this AD to obtain corrective actions from a manufacturer, the action must be accomplished using a method approved by the Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA; or European Aviation Safety Agency (EASA); or Airbus Defense and Space S.A.'s EASA Design Organization Approval (DOA). If approved by the DOA, the approval must include the DOA-authorized signature.

(3) *Reporting Requirements*: A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. The OMB Control Number for this information collection is 2120-0056. Public reporting for this collection of information is estimated to be approximately 5 minutes per response, including the time for reviewing instructions, completing and reviewing the collection of information. All responses to this collection of information are mandatory. Comments concerning the accuracy of this burden and suggestions for reducing the burden should be directed to the FAA at: 800 Independence Ave. SW., Washington, DC 20591, Attn: Information Collection Clearance Officer, AES-200.

(l) Related Information

(1) Refer to Mandatory Continuing Airworthiness Information (MCAI) Airworthiness Directive 2016-0071, dated April 11, 2016, for related information. This MCAI may be found in the AD docket on the Internet at <http://www.regulations.gov> by

searching for and locating Docket No. FAA-2016-9386.

(2) For service information identified in this AD, contact Airbus Defense and Space, Technical Services/Engineering Support, Avenida de Aragón 404, 28022 Madrid, Spain; telephone +34 91 585 55 84; fax +34 91 585 55 31 0527; email MTA.TechnicalService@airbus.com. You may view this service information at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, WA. For information on the availability of this material at the FAA, call 425-227-1221.

Issued in Renton, Washington, on November 2, 2016.

Michael Kaszycki,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2016-9138; Airspace Docket No. 16-AWP-13]

Proposed Amendment of Class E Airspace, Willows, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Class E airspace extending upward from 700 feet above the surface at Willows-Glenn County Airport, Willows, CA. Decommissioning of the Maxwell VHF Omni-directional Range/Tactical Air Navigation (VORTAC) navigation aid and cancellation of associated approaches has made this action necessary for the safety and management of Instrument Flight Rules (IFR) operations at the airport. The airport's geographic coordinates also would be adjusted to match the current FAA aeronautical database.

DATES: Comments must be received on or before January 9, 2017.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12-140, Washington, DC 20590; telephone: 1-800-647-5527, or (202) 366-9826. You must identify FAA Docket No. FAA-2016-9138; Airspace Docket No. 16-AWP-13, at the beginning of your comments. You may also submit comments through the Internet at <http://www.regulations.gov>. You may review the public docket containing the

proposal, any comments received, and any final disposition in person in the Dockets Office between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays.

FAA Order 7400.11A, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at http://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: 202-267-8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11A at NARA, call 202-741-6030, or go to http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

FOR FURTHER INFORMATION CONTACT: Tom Clark, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA 98057; telephone (425) 203-4511.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class E airspace at Willows-Glenn County Airport, Willows, CA.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic,

environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Persons wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2016-9138; Airspace Docket No. 16-AWP-13." The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web page at http://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue SW., Renton, WA 98057.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations

(14 CFR) Part 71 by modifying Class E airspace extending upward from 700 feet above the surface at Willows-Glenn County Airport, Willows, CA. This action would remove the segment extending from the 6.4-mile radius of the airport to 3 miles north of the Maxwell VORTAC as the Maxwell VORTAC navigation aid, was decommissioned and removed from service on May 31, 2016. This modification is necessary to ensure the safety and management of IFR operations at the airport, with a minimum degree of airspace restriction. Additionally, the airport's geographic coordinates would be updated to match the current FAA aeronautical database.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11A, dated August 3, 2016, and effective September 15, 2016, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal

Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AWP CA E5 Willows, CA [Modified]

Willows-Glenn County Airport, CA
(Lat. 39°30'57" N., long. 122°13'02" W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of Willows-Glenn County Airport.

Issued in Seattle, Washington, on November 8, 2016.

Tracey Johnson,

Manager, Operations Support Group, Western Service Center.

BILLING CODE 4910–13–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 11

[Docket No. RM16–19–000]

Annual Charges for Use of Government Lands in Alaska

AGENCY: Federal Energy Regulatory Commission, Department of Energy.

ACTION: Notice of Inquiry.

SUMMARY: The Federal Energy Regulatory Commission (Commission) is inviting comments on a narrow question related to its current methodology for calculating annual charges for the use of government lands under Part 11 of the Commission's regulations—whether regional per-acre land values based on data published in the National Agricultural Statistics Service (NASS) Census result in reasonably accurate land valuations for hydropower lands in Alaska. This Notice of Inquiry (NOI)

will assist the Commission in evaluating an alternative proposal raised in a petition for rulemaking, which requests that the Commission use a statewide average per-acre land value for the purposes of calculating annual charges for use of government lands for hydropower projects in Alaska.

DATES: Comments on this NOI are due January 24, 2017.

ADDRESSES: Comments, identified by Docket No. RM16–19–000 may be filed in the following ways:

- **Electronic Filing through *http://www.ferc.gov*.** Documents created electronically using word processing software should be filed in native applications or print-to-PDF format and not in a scanned format.

- **Mail/Hand Delivery:** Those unable to file electronically may mail or hand-deliver comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE., Washington, DC 20426.

Instructions: For detailed instructions on submitting comments see the Comment Procedures section of this document.

FOR FURTHER INFORMATION CONTACT:

Tara DiJohn (Legal Information), Office of the General Counsel, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502–8671, *tara.dijohn@ferc.gov*.

Norman Richardson (Technical Information), Office of the Executive Director, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502–6219, *norman.richardson@ferc.gov*.

SUPPLEMENTARY INFORMATION:

1. The Federal Power Act (FPA) requires hydropower licensees that use federal lands to compensate the United States for the use, occupancy, and enjoyment of its lands.¹ Since 2013, the Federal Energy Regulatory Commission (Commission) has used a fee schedule, based on the U.S. Bureau of Land Management's (BLM) methodology for calculating rental rates for linear rights of way, to calculate annual charges for use of federal lands. The Commission's fee schedule identifies a fee for each county or geographic area, which is the product of four components: A per-acre land value, an encumbrance factor, a rate of return, and an annual adjustment factor. The per-acre land value for a particular county or geographic area is determined using the average per-acre land values published in the National

Agricultural Statistics Service (NASS) Census.

2. The Commission is issuing this Notice of Inquiry (NOI) to seek public and agency comment on a narrow question—whether regional per-acre land values based on data published in the NASS Census result in reasonably accurate land valuations for hydropower lands in Alaska. In particular, the Commission is interested in receiving input on whether, for the state of Alaska, the use of a statewide average per-acre land value or the use of regional per-acre land values (as is currently used) would be preferable to the use of county or geographic area land values.

I. Background

3. Section 10(e)(1) of the Federal Power Act (FPA) requires Commission hydropower licensees using federal lands to:

pay to the United States reasonable annual charges in an amount to be fixed by the Commission . . . for recompensing [the United States] for the use, occupancy, and enjoyment of its lands or other property . . . and in fixing such charges the Commission shall seek to avoid increasing the price to the consumers of power by such charges, and any such charges may be adjusted from time to time by the Commission as conditions may require . . .²

In other words, licensees that use and occupy federal lands for project purposes must compensate the United States through payment of an annual fee, to be established by the Commission.³

4. The Commission has adopted various methods over the years to accomplish this statutory directive.⁴ Currently, the Commission uses a fee schedule method to calculate annual charges for use of government lands. The Commission adopted this approach

² 16 U.S.C. 803(e)(1) (2012) (emphasis added). Section 10(e)(1) also requires licensees to reimburse the United States for the costs of administering Part I of the FPA. Those charges are calculated and billed separately from the land use charges, and are not the subject of this NOI.

³ Pursuant to FPA section 17(a), 16 U.S.C. 810(a) (2012), the fees collected for use of government lands are allocated as follows: 12.5 percent is paid into the Treasury of the United States, 50 percent is paid into the federal reclamation fund, and 37.5 percent is paid into the treasuries of the states in which particular projects are located. No part of the fees discussed in this NOI is used to fund the Commission's operations.

⁴ See *Annual Charges for Use of Government Lands*, Order No. 774, FERC Stats. & Regs. ¶ 31,341, at PP 3–20 (2013) (cross-referenced at 142 FERC ¶ 61,045) (examining the myriad methodologies the Commission has used or considered for assessing annual charges for the use of government lands since 1937) (Order No. 774).

¹ 16 U.S.C. 803(e)(1) (2012).
