MARS Eligible Contracts
The Exchange’s proposal to replace the 5,000 Eligible Contracts with ADVs of either: 2,500, 5,000 or 10,000 does not impose an undue burden on intra-market competition because the criteria for Eligible Contracts and ADVs will be uniformly applied to all qualifying NOM Participants. Also, only counting liquidity from Firms, Non-NOM Market Makers, Broker-Dealers, JBOs and Professionals which are electronically delivered and executed does not impose an undue burden on intra-market competition because the Exchange will uniformly calculate the number of Eligible Contracts for all NOM Participants.

MARS Payment
The Exchange’s proposal to replace the $0.10 per contract MARS Payment with a 3 tiered MARS Payment based on Eligible Contract ADVs does not impose an undue burden on intra-market competition because the Exchange will uniformly pay all NOM Participants the proposed 3 tiered MARS Payments provided the NOM Participant has executed the requisite number of Eligible Contracts. Moreover, the Exchange believes that the proposed MARS Payments offered by the Exchange does not impose an undue burden on intra-market competition because any qualifying NOM Participant that offers market access and connectivity to the Exchange and/or utilizes such functionality themselves may earn the MARS Payment for all Eligible Contracts. The Exchange’s proposal to pay the applicable MARS Payment on all executed Eligible Contracts that add liquidity, which are routed to NOM through a participating NOM Participant’s System, does not impose an undue burden on intra-market competition because the Exchange will uniformly calculate the MARS Payment for all NOM Participants and uniformly pay the MARS Payment on all executed Eligible Contracts that add liquidity, which are routed to NOM through a participating NOM Participant’s System.

The Exchange believes that paying the proposed MARS Payment to qualifying NOM Participants that have System eligibility and have executed the Eligible Contracts does not create an undue burden on intra-market competition, even when a different NOM Participant, other than the NOM Participant receiving the subsidy, may be liable for transaction charges, because this sort of arrangement already exists on the Exchange and would be uniformly applied to all qualifying NOM Participants.
