

## Special Accommodations

Individuals requiring special accommodations to access the public meeting should contact Ms. Kendal Brown at least five (5) business days prior to the meeting so that appropriate arrangements can be made.

## Written Statements

Any member of the public wishing to provide comments to the DHB Health Care Delivery Subcommittee may do so in accordance with section 10(a)(3) of the Federal Advisory Committee Act, 41 CFR 102–3.105(j) and 102–3.140, and the procedures described in this notice.

Individuals desiring to provide comments to the DHB Health Care Delivery Subcommittee may do so by submitting a written statement to the DHB Designated Federal Officer (DFO) (see **FOR FURTHER INFORMATION CONTACT**). Written statements should not be longer than two type-written pages and address the following details: The issue, discussion, and a recommended course of action. Supporting documentation may also be included, as needed, to establish the appropriate historical context and to provide any necessary background information.

If the written statement is not received at least five (5) business days prior to the meeting, the DFO may choose to postpone consideration of the statement until the next open meeting.

The DFO will review all timely submissions with the Subcommittee Chair and ensure they are provided to members of the Health Care Delivery Subcommittee before the meeting that is subject to this notice. After reviewing the written comments, the Subcommittee Chair and the DFO may choose to invite the submitter to orally present their issue during an open portion of this meeting or at a future meeting. The DFO, in consultation with the Subcommittee Chair, may allot time for members of the public to present their issues for review and discussion by the Health Care Delivery Subcommittee.

Dated: November 23, 2016.

**Aaron Siegel,**

## DEPARTMENT OF DEFENSE

### Department of the Army, U.S. Army Corps of Engineers

#### Withdrawal of Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Lower Passaic River Ecosystem Restoration Project, Essex, Hudson, Passaic, and Bergen Counties, NJ: Feasibility Phase

**AGENCY:** Department of the Army, U.S. Army Corps of Engineers, DoD.

**ACTION:** Notice of Intent; Withdrawal.

**SUMMARY:** The U.S. Army Corps of Engineers, New York District (NY District), is withdrawing its intent to prepare a Draft Environmental Impact Statement (EIS) for the Study. The Notice of Intent to prepare the Draft EIS was published in the Tuesday, December 28, 2004 issue of the **Federal Register** (69 FR 77744).

**ADDRESSES:** U.S. Army Corps of Engineers, New York District, Planning Division, Environmental Analysis Branch, 26 Federal Plaza, Room 2151, New York, NY 10278–0090.

**FOR FURTHER INFORMATION CONTACT:** Diana Kohtio, Project Biologist, at [diana.m.kohtio@usace.army.mil](mailto:diana.m.kohtio@usace.army.mil) or 917.790.8619.

**SUPPLEMENTARY INFORMATION:** The U.S. Army Corps of Engineers, NY District published a notice of intent to prepare a Draft Environmental Impact Statement in the December 28, 2004 issue of the **Federal Register** (FR Doc. 2004–28332). In an effort to streamline work in early 2015, the U.S. Army Corps of Engineers, New York District, consolidated multiple parallel USACE ecosystem restoration feasibility studies into the Hudson Raritan Estuary Ecosystem Restoration Feasibility Study (HRE) Study.

This streamlining is consistent with the Civil Works Transformation Initiative and Specific, Measurable, Attainable, Risk Informed, Timely (SMART) Planning principles, and maximizes efficiencies, resources and benefits. The other feasibility studies include:

- HRE—Lower Passaic River Ecosystem Restoration Feasibility Study;
- HRE—Hackensack Meadowlands Ecosystem Restoration Feasibility Study;
- Flushing Creek and Bay Ecosystem Restoration Feasibility Study;
- Bronx River Basin Ecosystem Restoration Feasibility Study;
- Jamaica Bay, Marine Park, Plumb Beach Ecosystem Restoration Feasibility Study.

As such, a Draft EIS is no longer necessary. Each Feasibility Study was at a different stage prior to the decision to consolidate into the HRE Feasibility Report/Environmental Assessment (FR/EA). The planning was conducted independently with their non-federal sponsor and resulted in the selection of specific recommendations within each watershed. These combined efforts resulted in the recommendations included in the broader HRE FR/EA. The HRE FR/EA will be prepared and circulated for review by agencies and the public. The New York District invites participation and consultation of agencies and individuals that have special expertise, legal jurisdiction, or interest in the preparation of the draft environmental assessment. Comments received, including the names and addresses of those who comment, will be considered part of the public record for this proposal. As a result of the process, if it is determined that the project may have significant impacts, the EIS process will be reinitiated and a NOI published.

**Peter Weppler,**

*Chief, Environmental Analysis Branch.*
