Manufacturers of Category 3 engines are required to test each engine at the sea trial of the vessel in which the engine is installed or within the first 300 hours of operation, whichever comes first. This self-audit program allows manufacturers to monitor compliance and minimize the cost of correcting errors through early detection. In addition, owners and operators of marine vessels with Category 3 engines must record certain information and send minimal annual notifications to EPA to show that engine maintenance and adjustments have not caused engines to be noncompliant. From time to time, EPA may test in-use engines to verify compliance with emission standards throughout the marine engine’s useful life and may ask for information about the engine family to be tested.

Proprietary information is kept confidential in accordance with the Freedom of Information Act (FOIA), EPA regulations at 40 CFR parts 2 and 1042.915, and class determinations issued by EPA’s Office of General Counsel. Non-confidential business information may be disclosed as requested under FOIA. That information may be used by trade associations, environmental groups, and the public. Most of the information is collected in electronic format and stored in CD’s databases.

Respondents/affected entities: Manufacturers, owners or operators of marine compression-ignition engines above 30 liters per cylinder and the vessels in which those engines are installed, within the following North American Industry Classification System (NAICS) codes: 333618 (Other Engine Equipment Manufacturing), 336611 (Manufacturers of Marine Vessels); 811310 (Engine Repair and Maintenance); 483 (Water transportation, freight and passenger).

Respondent’s obligation to respond: Required to obtain or retain a benefit. Manufacturers must respond to this collection if they wish to sell and/or operate their Category 3 engines in the US, as prescribed by Section 206(a) of the CAA (42 U.S.C. 7521) and 40 CFR part 1042. Certification reporting is mandatory (Section 206(a) of CAA 42 U.S.C. 7521) and 40 CFR part 1042, subpart C. PLT reporting is mandatory (Section 206(b)(1) of CAA and 40 CFR part 1042, subpart D).

Estimated number of respondents: 201 (total).

Frequency of response: Quarterly, Annually, On Occasion, depending on the type of response.

Total estimated burden: 24,813 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $2,012,094 (per year), includes an estimated $760,734 annualized capital or maintenance and operational costs.

Changes in the Estimates: There is no change in the total estimated burden from the burden currently identified in the OMB Inventory of Approved ICR Burdens.
