protection of investors and the maintenance of fair and orderly markets to assure the availability to brokers, dealers, and investors of information with respect to quotations for, and transactions in, securities. Information regarding NAV-based trading prices, best bids and offers for Shares, and volume of Shares traded will be continually available on a real-time basis throughout the day on brokers’ computer screens and other electronic services. All bids and offers for Shares and all Share trade executions will be reported intraday in real time by the Exchange to the Consolidated Tape and separately disseminated to member firms and market data services through the Exchange data feeds.

Once a Fund’s daily NAV has been calculated and disseminated, Nasdaq will price each Share trade entered into during the day at the Fund’s NAV plus or minus the trade’s executed premium or discount. Using the final trade price, each executed Share trade will then be disseminated to member firms and market data services via an FTP file that will be created for exchange-traded managed funds and that will be confirmed to the member firms participating in the trade to supplement the previously provided information with final pricing.

The Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily (on each business day that the New York Stock Exchange is open for trading) and will disseminate the value to market participants and market data vendors via the Mutual Fund Dissemination Service (“MFQS”) so that all firms will receive the NAV per share at the same time.

The Exchange further represents that it may consider all relevant factors in exercising its discretion to halt or suspend trading in Shares. Nasdaq will halt trading in Shares under the conditions specified in Nasdaq Rule 4120 and in Nasdaq Rule 5745(d)(2)(C). Additionally, Nasdaq may cease trading Shares if other unusual conditions or circumstances exist that, in the opinion of Nasdaq, make further dealings on Nasdaq detrimental to the maintenance of a fair and orderly market. To manage the risk of a non-regulatory Share trading halt, Nasdaq has in place back-up processes and procedures to ensure orderly trading.

Prior to the commencement of market trading in Shares, each Fund will be required to establish and maintain a public Web site through which its current prospectus may be downloaded. In addition, a separate Web site (www.nextshares.com) will include the prior business day’s NAV, and the following trading information for that business day expressed as premiums or discounts to NAV: (a) Intraday high, low, average, and closing prices of Shares in Exchange trading; (b) the midpoint of the highest bid and lowest offer prices as of the close of Exchange trading, expressed as a premium or discount to NAV (“Closing Bid/Ask Midpoint”); and (c) the spread between highest bid and lowest offer prices as of the close of Exchange trading (“Closing Bid/Ask Spread.”). The Web site at www.nextshares.com will also contain charts showing the frequency distribution and range of values of trading prices, Closing Bid/Ask Midpoints, and Closing Bid/Ask Spreads over time.

The Exchange represents that all statements and representations made in this filing regarding (a) the description of the Funds’ portfolios, (b) limitations on portfolio holdings or reference assets, or (c) the applicability of Exchange rules and surveillance procedures shall constitute continued listing requirements for listing the Shares of the Funds on the Exchange. The issuer has represented to the Exchange that it will advise the Exchange of any failure by any Fund to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(b)(1) of the Act, the Exchange will monitor compliance with the continued listing requirements. If a Fund is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under Nasdaq Rules 5800, et seq.

This approval order is based on all of the Exchange’s representations, including those set forth above, in the Notice and Amendment No. 1, and the Exchange’s description of the Funds. The Commission notes that the Funds and the Shares must comply with the requirements of Nasdaq Rule 5745 and the conditions set forth in this proposed rule change to be listed and traded on the Exchange on an initial and continuing basis.

For the foregoing reasons, the Commission finds that the proposed rule change, as modified by Amendment No. 1, is consistent with Section 6(b)(5) of the Act and the rules and regulations thereunder applicable to a national securities exchange.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR–NASDAQ–2016–134), as modified by Amendment No. 1, be, and it hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.\[Robert W. Errett,\]

Deputy Secretary.

26 According to Nasdaq, File Transfer Protocol ("FTP") is a standard network protocol used to transfer computer files over the Internet. Nasdaq will arrange for the daily dissemination of an FTP file with executed Share trades to member firms and market data services.

27 The Commission notes that certain other proposals for the listing and trading of Managed Fund Shares include a representation that the exchange will “surveil” for compliance with the continued listing requirements. See, e.g., Securities Exchange Act Release No. 78005 (Jun. 7, 2016), 81 FR 38247 (Jun. 13, 2016) (SR–BATS–2015–100). In the context of this representation, it is the Commission’s view that “monitor” and “surveil” both mean ongoing oversight of a fund’s compliance with the continued listing requirements. Therefore, the Commission does not view “monitor” as a more or less stringent obligation than “surveil” with respect to the continued listing requirements.

28 See supra notes 3 and 4, respectively.
