DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Document No. AMS–SC–16–0091]

National Research, Promotion, and Consumer Information Programs; Request for Extension and Revision of a Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), this document announces the Agricultural Marketing Service’s (AMS) intention to request approval from the Office of Management and Budget (OMB). AMS requests an extension of and revision to the currently approved information collection 0581–0093 on the National Research, Promotion, and Consumer Information Programs.

DATES: Comments must be received by January 30, 2017.

ADDRESSES: Interested persons are invited to submit written comments concerning this notice. Comments should be submitted on the Internet at http://www.regulations.gov or to Promotion and Economics Division, Specialty Crops Program, AMS, U.S. Department of Agriculture (USDA), 1400 Independence Avenue SW., Stop 0244, Room 1406–S, Washington, DC 20250–0244. All comments should reference the document number, the date and the page number of this issue of the Federal Register and will be made available for public inspection in the above office during regular business hours or at http://www.regulations.gov.

FOR FURTHER INFORMATION CONTACT: Marlene M. Betts, Marketing Specialist, Promotion and Economics Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW., Stop 0244, Room 1406–S, Washington, DC 20250–0244; telephone at (202) 720–9915, or by email at marlene.betts@ams.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: National Research, Promotion, and Consumer Information Programs.

OMB Number: 0581–0093.

Expiration Date of Approval: June 30, 2017.

Type of Request: Extension and Revision of a currently approved information collection.

These programs carry out projects relating to research, consumer information, advertising, sales, promotion, producer information, market development, and product research to assist, improve, or promote the marketing, distribution, and utilization of their respective commodities. Approval of the programs is required through referendum of affected parties. The programs are administered by the industry boards composed of producer, handler, processor, manufacturers, and in some cases, importer and public members appointed by the Secretary of Agriculture. Program funding is generated through assessments on designated industry segments.

The Secretary also approves the board’s budgets, plans, and projects. These responsibilities have been delegated to AMS. The applicable commodity program areas within AMS have direct oversight of the respective programs.

The information collection requirements in this request are essential to carry out the intents of the various Acts authorizing such programs, thereby providing a means of administering the programs. The objective in carrying out this responsibility includes assuring the following: (1) Funds are collected and properly accounted for; (2) expenditures of all funds are for the purposes authorized by the enabling legislation; and, (3) the board’s administration of programs conforms to USDA policy. The forms covered under this collection require the minimum information necessary to effectively carry out the requirements of the respective orders, and their use is necessary to fulfill the intents of the Acts as expressed in orders. The information collected is used only by authorized employees of the various boards and authorized employees of USDA.

The various boards utilize a variety of forms including: Reports concerning status information such as handler and importer reports; transaction reports; exemption from assessment forms and reimbursement forms; forms and
information concerning board nominations and selection and acceptance statements; certification of industry organizations; and recordkeeping requirements. The forms and information covered under this information collection require minimum information necessary to effectively carry out the requirements of the programs and their use is necessary to fulfill the intent of the applicable authority.

AMS is committed to comply with the E-Government Act, which requires Government agencies in general to provide the public the option of submitting information or transacting business electronically to the maximum extent possible.

For National Research, Promotion, and Consumer Information Program—0581–0093

**Estimate of Burden:** Public reporting burden for this collection of information is estimated to average 0.347 hours per response.

**Respondents:** Producers, processors, handlers, manufacturers, importers, and others in the marketing chain of a variety of agricultural commodities, and recordkeepers.

**Estimated Number of Respondents:** 117,942.

**Estimated Total Annual Responses:** 450,673.

**Estimated Number of Responses per Respondent:** 3.82.

**Estimated Total Annual Burden on Respondents:** 156,460.

For Paper and Paper-Based Packaging Promotion, Research, and Information (Referendum Ballot)

**Estimate of Burden:** Public reporting burden for this collection of information is estimated to average 0.25 hours per response.

**Respondents:** Manufacturers and importers.

**Estimated Number of Respondents:** 70.

**Estimated Number of Responses per Respondent:** 1 every 7 years (0.14).

**Estimated Total Annual Burden on Respondents:** 2.45.

This referendum ballot is being merged into the information collection 0581–0093 the National Research, Promotion, and Consumer Information Programs.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this document will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Authority: 44 U.S.C. Chapter 35.

Eleanor Sturmer, Administrator.

**Forest Service**

Craig and Thorne Bay Ranger Districts, Tongass National Forest; Alaska; Prince of Wales Landscape Level Analysis Project Environmental Impact Statement

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** The U.S. Department of Agriculture, Forest Service will prepare an Environmental Impact Statement (EIS) to propose a variety of projects for multiple resource benefits at a landscape level to implement over the course of 10 to 15 years. Both the Craig and Thorne Bay Ranger Districts encompass Prince of Wales Island (POW) and surrounding islands, which serves as the project area for the Prince of Wales Landscape Level Analysis (POW LLA) Project. Our intention is that this project will be a highly collaborative process involving the public at all stages throughout the development of this analysis.

**DATES:** Comments concerning the scope of the analysis must be received by December 30, 2016. The publication date of this NOI in the Federal Register is the exclusive means for calculating the comment period for this scoping opportunity. If the comment period ends on a Saturday, Sunday, or Federal holiday, comments will be accepted until the end of the next Federal working day (11:59 p.m.). The POW LLA Project is an activity implementing the forest plan and is subject to 36 CFR 218, subparts A and B. Only individuals or entities who submit timely and specific written comments about this proposed project or activity during this or another public comment period established by the Responsible Official will be eligible to file an objection. The draft environmental impact statement is expected January of 2018 and the final environmental impact statement is expected July of 2018.

**ADDRESSES:** Send written comments to Thorne Bay Ranger District, at P.O. Box 19001, Thorne Bay, AK 99919. Comments may also be submitted electronically at https://cara.ecosystem-management.org/Public/CommentInput?project=50337, or via facsimile to (907) 828–3309.

**FOR FURTHER INFORMATION CONTACT:** Matthew Anderson, District Ranger, Craig and Thorne Bay Ranger Districts, at 504 9th Street, Craig, AK 99921, by telephone at (907) 826–3271; or Delilah Brigham, Project Leader, at 1312 Federal Way, Thorne Bay, AK 99919, by telephone at (907) 828–3232.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

**SUPPLEMENTARY INFORMATION:**

**Purpose and Need for Action**

The purpose of the POW LLA Project is to improve forest ecosystem health on Craig and Thorne Bay Ranger Districts, help support community resiliency, and provide economic development through an integrated approach to meet multiple resource objectives.

There is a need to provide a sustainable level of forest products to contribute to the economic viability of the region. There is also a need to provide old-growth timber to help maintain the expertise and infrastructure of the existing timber industry so the forest products industry can prepare for an increasing amount of merchantable young-growth offerings. These businesses are fundamental to both the young-growth and restoration components of the evolving timber program, and to the economic vitality of the region.

Timber stand establishment (TSE) and timber stand improvement (TSI) activities that restore and enhance early seral forests are necessary. This translates to the need for commercial and precommercial treatments of young-growth forests to produce future desired resource values, products, services, and forest health conditions that sustain the diversity and productivity of forested ecosystems.
