Supplementary information: This ICR seeks OMB authority for the Leave Supplement to the American Time Use Survey (ATUS) information collection. The leave supplement includes questions about workers’ access to and use of paid and unpaid leave, job flexibilities, and their work schedules. Information collected in the supplement will be published as a public use data set to facilitate research on numerous topics, such as: The characteristics of people with paid and unpaid leave; occupations with the greatest and least access to paid leave; reasons workers are able to take leave from their jobs; how many workers have access to job flexibilities such as the ability to work from home or adjust their start and stop times; and the relationship between workers’ time use and their access to job flexibilities. The supplement would survey eligible wage and salary workers aged 15-years and up from a nationally representative sample of approximately 2,060 sample households each month. The BLS Authorizing Statue authorizes this information collection. See 29 U.S.C. 1.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public generally cannot conduct or sponsor a collection of information, unless it is approved by the OMB under the PRA. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the Federal Register on July 26, 2016 (81 FR 48850).
