**Notice of Federal Competitive Coal Lease Sale, Greens Hollow Tract, Utah (Coal Lease Application UTU-84102)**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the United States Department of the Interior, Bureau of Land Management (BLM) Utah State Office, will offer the Federal coal resources described below as the Greens Hollow Tract (UTU-84102) for competitive sale by sealed bid, in accordance with the Mineral Leasing Act of 1920, as amended, and the applicable implementing regulations. The sale tract is located in Sanpete and Sevier Counties, Utah. The Greens Hollow coal lease sale was originally scheduled to be held on September 22, 2016. Due to a Notice of Appeal and Petition for Stay on the BLM's Record of Decision filed with the Interior Board of Land Appeals (IBLA) by four environmental groups, BLM was required to postpone the previous lease sale. Under the Department of the Interior's regulations, when a decision is appealed to the IBLA and a stay is requested, the BLM's decision is stayed while the Board considers the stay request. On October 26, 2016, the IBLA denied the request for a stay, holding that the environmental groups failed to show a likelihood of immediate and irreparable harm resulting from BLM's

decision to hold a competitive coal lease sale for the Greens Hollow tract. This notice announces a new date for the previously postponed lease sale.

**DATES:** The lease sale will be held at 1 p.m. Mountain Time, on January 4, 2017. Sealed bids must be sent by certified mail, return receipt requested, to the Collections Officer, BLM, Utah State Office, or be hand-delivered to the BLM public room Contact Representatives, BLM Utah State Office, at the address indicated below, and must be received on or before 10 a.m. Mountain Time, on January 4, 2017. Any bid received after the time specified will not be considered and will be returned. The BLM Contact Representatives will issue a receipt for each hand-delivered, sealed bid. The outside of the sealed envelope containing the bid must clearly state the envelope contains a bid for Coal Lease Sale UTU-84102, and is not to be opened before the date and hour of the sale.

**ADDRESSES:** Sealed bids must be mailed to the Collection Officer or hand-delivered to the BLM public room Contact Representative at BLM, Utah State Office, 440 West 200 South, Suite 500, Salt Lake City, Utah 84101-1345. The opening of the sealed bids will take place at the Salt Lake City Public Library, 210 East 400 South, Salt Lake City, Utah at 1 p.m. Mountain Time on January 4, 2017.

**FOR FURTHER INFORMATION CONTACT:** Contact Jeff McKenzie, 440 West 200 South, Suite 500 Salt Lake City, Utah 84101-1345 or telephone 801-539-4038. **SUPPLEMENTARY INFORMATION:** This Competitive Coal Lease Sale is being held in response to a lease by application submitted by Ark Land Company (Ark). That application was assigned by Ark to Canyon Fuel Company, LLC, a subsidiary of Bowtie Resource Partners, LLC. The assignment was effective September 1, 2013, and was approved by the BLM on July 1, 2014. The coal resources to be offered consist of all recoverable reserves available in the lands identified below. These lands are located in Sanpete and Sevier Counties, Utah, approximately 10.5 miles west of Emery, Utah, under surface lands managed by the Manti-La

Sal and Fishlake National Forests. Those lands are described as follows:

The area described contains 6,175.39 acres.

The coal in the Greens Hollow Tract has one minable coal bed, which is designated as either the Upper Hiawatha or the Lower Hiawatha seam. These seams are approximately 11 feet in thickness. The coal beds contain approximately 73.4 million in-place tons of coal. However, based on BLM's assessment and mitigation proposed by the Forest Service to address subsidence impacts, the tract being offered for sale is projected to contain approximately 55.7 million tons of technically recoverable high-volatile C bituminous coal. The "as received basis" coal quality in the Upper Hiawatha coal bed is: 11,565 Btu/lb., 7.46 percent moisture, 9.81 percent ash, 36.55 percent volatile matter, 46.1 percent fixed carbon, and 0.55 percent sulfur. The "as received basis" coal quality in the Lower Hiawatha coal bed is: 11,538 Btu/lb., 7.21 percent moisture, 9.69 percent ash, 38.88 percent volatile matter, 43.85 percent fixed carbon, and 1.26 percent sulfur.

Pursuant to the applicable regulations, the Greens Hollow Tract may be leased to the qualified bidder (as established at 43 CFR subpart 3472) that submits the highest cash bonus bid that is equal to or exceeds the Fair Market Value (FMV) for the tract as determined by the authorized officer after the sale. The BLM has prepared its fair market value estimate for the tract, which has been reviewed by the Department of the Interior's Office of Valuation Services.

The Department of the Interior has established a general minimum bid of \$100 per acre or fraction thereof for the tract. The minimum bid is not intended to represent the FMV, and a tract will not be sold unless the bid received
