

planning, U.S.-flag service can generally be obtained at fair and reasonable rates. Early planning and coordination are the key factors to meeting cargo preference requirements in Title XI, as in all Federal programs.

In evaluating whether U.S.-flag vessels are available at fair and reasonable rates, MARAD may consider, at its discretion: (1) U.S.-flag rates offered in response to the shipper's solicitation; (2) U.S.-flag commercial rates being offered on the same trade route under similar circumstances taking into account, as available, information obtained from interviews with U.S.-flag carriers, historic rates, published rates, and applicable index rates; (3) As available and applicable, guideline rates calculated under 46 CFR part 382; and (4) Whether the shipper has made a demonstrably diligent effort to obtain U.S.-flag service, including evidence of advanced planning and requests for proposals for ocean transportation issued by the shipper. Vessel availability is assessed in consideration of shipper's reasonable required laycan and delivery dates.

Section 5: What if non-compliance with Cargo Preference requirements occurs?

At MARAD's direction, as the administrator of the Title XI program, non-compliant parties may be denied a letter commitment or, consistent with 46 U.S.C. 55305(d)(2)(B), may be required to provide make-up cargoes for carriage aboard U.S.-flag vessels to offset the lost cargo carriage supporting work under the Title XI financing application. Where knowing and willful violations occur, consistent with 46 U.S.C. 55305(d)(2)(C), MARAD may issue a civil penalty of not more than \$25,000 for each violation, with each day of a continuing violation following the date of shipment counting as a separate violation. Additionally, CPA 1954 requirements are incorporated into Title XI letter commitments; therefore, failure to properly adhere to cargo preference requirements could impact MARAD's ability to close on a Title XI guarantee because the recipient has not met its obligations under the letter commitment. However, with early planning and coordination with MARAD, no CPA 1954 violations need occur.

Section 6: What is the purpose of Cargo Preference?

The CPA 1954 provides cargo that helps to retain and encourage a privately-owned and operated U.S.-flag merchant fleet. The U.S.-flag fleet is a vital resource, providing essential sealift capability to globally project and sustain

the U.S. Armed Forces or support other national emergencies, maintaining a cadre of skilled seafarers available in time of national emergencies, and helping to protect U.S. economic interests. The U.S. maritime industry also supports thousands of sea-going, shore-based, and secondary, associated jobs, supporting the Nation's economic growth. It is imperative that Federal programs, such as Title XI, and beneficiary Title XI applicants and shipyards, as members of the U.S. maritime industry, support this national priority through proper adherence to cargo preference requirements. Therefore, while the use of U.S.-flag vessels to carry 50 percent of the gross tons of ocean borne cargoes is the statutory minimum, MARAD, as the agency charged with administering both Title XI and the CPA 1954, encourages the use of U.S.-flag vessels for greater than the minimum whenever possible.
