

Exporter or producer	Weighted-average dumping margin (percent)
Tasmanian Electro Metallurgical Company Pty Ltd .....	12.03
All-Others .....	12.03

### All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated all-others rate shall be an amount equal to the weighted-average of the estimated weighted-average dumping margins established for exporters and producers individually investigated excluding any zero or *de minimis* margins, and margins determined entirely under section 776 of the Act. In this investigation, we calculated a weighted-average dumping margin for TEMCO, the only respondent in this investigation, that is above *de minimis* and which is not based on section 776 of the Act. Therefore, the Department assigned a margin to the all-others rate companies based on TEMCO's weighted-average dumping margin.

### Disclosure

We will disclose the calculations performed within five days of the date of any public announcement of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

### Suspension of Liquidation

Pursuant to section 735(c)(1)(B) of the Act, the Department will instruct U.S. Customs and Border Protection ("CBP") to continue to suspend liquidation of all of entries of silicomanganese from Australia, which were entered, or withdrawn from warehouse, for consumption on or after September 25, 2015, the date of publication of the *Preliminary Determination*. Further, pursuant to CFR 351.210(d), the Department will instruct CBP to require a cash deposit equal to the amount by which normal value exceeds U.S. price as follows: (1) For TEMCO, the mandatory respondent listed above, the cash deposit rate will be equal to the dumping margin which the Department determined in this final determination; (2) if the exporter is not a mandatory respondent identified in this investigation, but the producer is, the cash deposit rate will be the rate established for the producer of the subject merchandise; and (3) the cash deposit rates for all other producers or exporters will be 12.03 percent. The suspension of liquidation instructions will remain in effect until further notice.

### International Trade Commission Notification

In accordance with section 735(d) of the Act, we notified the U.S. International Trade Commission ("ITC") of our final determination. As our final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will determine within 45 days whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports or sales (or the likelihood of sales) for importation of the subject merchandise. If the ITC determines that such injury exists, the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department, antidumping duties on appropriate imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

### Return or Destruction of Proprietary Information

This notice will serve as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

### Notification to Interested Parties

We are issuing and publishing this determination and notice in accordance with sections 735(d) and 777(i)(1) of the Act.

Dated: February 12, 2016.

**Paul Piquado,**

*Assistant Secretary for Enforcement and Compliance.*

### Appendix I

#### Scope of the Investigation

The scope of this investigation covers all forms, sizes and compositions of silicomanganese, except low-carbon silicomanganese, including silicomanganese briquettes, fines, and slag. Silicomanganese is properly classifiable under subheading 7202.30.0000 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Low-carbon silicomanganese is excluded from the scope of this investigation. Low-carbon silicomanganese is classifiable under HTSUS subheading 7202.30.0000. The HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope is dispositive.

### Appendix II

#### List of Topics Discussed in the Issues and Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the Investigation
- IV. Discussion of the Issues
  - Issues:*
  - Comment 1: Indirect Selling Expenses Incurred in the United States
  - Comment 2: Constructed Export Price Offset ("CEP Offset")
  - Comment 3: CEP Profit Ratio
  - Comment 4: Double Counting of Packing/Loading Expenses
  - Comment 5: Valuation of Ferromanganese Slag
  - Comment 6: Inputs Purchased From Interested Parties
  - Comment 7: Interest Income
- V. Recommendation

#### Mid-Atlantic Fishery Management Council (MAFMC); Public Meetings

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meetings.

**SUMMARY:** The Mid-Atlantic Fishery Management Council's (Council) *Tilefish* Monitoring Committee will hold a public meeting.

**DATES:** The meeting will be held Tuesday, March 29, 2016, from 10 a.m. to 12 p.m.

**ADDRESSES:** The meeting will be held via WEBINAR with a telephone-only connection option.

*Council address:* Mid-Atlantic Fishery Management Council, 800 N. State St., Suite 201, Dover, DE 19901; telephone: (302) 674-2331.

**FOR FURTHER INFORMATION CONTACT:** Christopher M. Moore, Ph.D. Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526-5255. The Council's Web site, [www.mafmc.org](http://www.mafmc.org) also has details on the proposed agenda, webinar listen-in access, and briefing materials.

**SUPPLEMENTARY INFORMATION:** The purpose of this meeting is for the Monitoring Committee to review, and if necessary, revise the current management measures designed to achieve the recommended *Golden Tilefish* catch and landings limits for 2017.

Although non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during these meetings. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

### Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: February 17, 2016.

**Tracey L. Thompson,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

### Notice of Intent To Prepare an Environmental Impact Statement for Hatchery Programs Along the Oregon Coast

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; reopening of public comment period.

**SUMMARY:** On January 15, 2016, the National Marine Fisheries Service (NMFS) announced its intent to obtain information necessary to prepare an Environmental Impact Statement (EIS) for Hatchery and Genetic Management Plans (HGMPs) submitted by the Oregon Department of Fish and Wildlife (ODFW) for NMFS's evaluation and determination under Limit 5 of the Endangered Species Act (ESA) 4(d) Rule for threatened salmon and steelhead. NMFS also announced the availability of those HGMPs for public review and comment. The announcement opened a 30-day public comment period. In response to a request received from the

public, based on the number of HGMPs available for review, NMFS is reopening the comment period to March 17, 2016.

**DATES:** Written or electronic scoping comments must be received at the appropriate address or email mailbox (see **ADDRESSES**) no later than 5 p.m. Pacific Time March 17, 2016.

**ADDRESSES:** Written comments may be sent by any of the following methods:

- Email to the following address: *OregonCoastHatcheryEIS.wcr@noaa.gov* with the following identifier in the subject line: Oregon Coast Hatchery EIS.
- Mail or hand-deliver to NMFS Sustainable Fisheries Division, 2900 NW Stewart Parkway, Roseburg, OR 97471.
- Fax to (541) 957-3386.

Comments received will be available for public inspection, by appointment, during normal business hours at the above address. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

Additional information to assist with consideration of the notice of intent, as well as the HGMPs themselves, are available on the Internet at *www.westcoast.fisheries.noaa.gov*.

### FOR FURTHER INFORMATION CONTACT:

Lance Kruzic, NMFS, by phone at (541) 957-3381, or email to *lance.kruzic@noaa.gov*.

### SUPPLEMENTARY INFORMATION:

#### ESA-Listed Species Covered in This Notice

Coho salmon (*O. kisutch*): threatened, naturally produced and specified artificially produced stocks in the Southern Oregon/Northern California Coast and Oregon Coast Evolutionarily Significant Units (ESUs).

#### Background

The ODFW has submitted HGMPs for all hatchery programs along the Oregon Coast to NMFS, pursuant to Limit 5 of the 4(d) Rule for salmon and salmon promulgated under the ESA (65 FR 42422, July 10, 2000). NMFS' action of evaluating ODFW's HGMPs under Limit 5 of the 4(d) Rule is a major Federal action subject to environmental review under NEPA. Therefore, NMFS is seeking public input on the scope of the required NEPA analysis, including the range of reasonable alternatives, recommendations for relevant analysis methods, and information associated with impacts of the alternatives to the resources listed below or other relevant resources. Further, Limit 5 of the 4(d)

Rule also specifies the HGMPs be made available for public review and comment prior to NMFS making a decision on the HGMPs.

For more information on the scope of the proposed hatchery programs, and NMFS' review of those programs, and a description of input being sought from the public, see the January 15, 2016, **Federal Register** notice (81 FR 2197). A list of the hatchery facilities being considered and links to the HGMPs for their associated hatchery programs are available on the Internet (see **ADDRESSES**).

### Request for Comments

NMFS provides this notice to: (1) Advise other agencies and the public of its plans to analyze effects related to the action, and (2) obtain suggestions and information that may be useful to the scope of issues and the full range of alternatives to include in the EIS. Comments should be as specific as possible.

### Authority

The environmental review of the Oregon Coast HGMPs will be conducted in accordance with requirements of the NEPA of 1969 as amended (42 U.S.C. 4321 *et seq.*), NEPA Regulations (40 CFR parts 1500-1508), other appropriate Federal laws and regulations, and policies and procedures of NMFS for compliance with those regulations. This notice is being furnished in accordance with 40 CFR 1501.7 to obtain suggestions and information from other agencies and the public on the scope of issues and alternatives to be addressed in the EIS.

Under section 4 of the ESA, the Secretary of Commerce is required to adopt such regulations as he deems necessary and advisable for the conservation of species listed as threatened. The ESA salmon and steelhead 4(d) rule (65 FR 42422, July 10, 2000, as updated in 70 FR 37160, June 28, 2005) specifies categories of activities that contribute to the conservation of listed salmonids and sets out the criteria for such activities. Limit 5 of the updated 4(d) rule (50 CFR 223.203(b)(5)) further provides that the prohibitions of paragraph (a) of the updated 4(d) rule (50 CFR 223.203(a)) do not apply to activities associated with artificial propagation programs provided that an HGMP has been approved by NMFS to be in accordance with the salmon and steelhead 4(d) rule (65 FR 42422, July 10, 2000, as updated in 70 FR 37160, June 28, 2005).
