

EPA's role is to approve state choices, provided that they meet the criteria of the CAA. EPA is proposing to determine that the prong 4 portion of the aforementioned SIP submission does not meet Federal requirements. Therefore, this proposed action does not impose additional requirements on the state beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
 - does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
 - is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
 - does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
 - does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

I. Background

In consultation with the Federal Aviation Administration (FAA), PHMSA (also "we" or "us") proposes to amend the Hazardous Materials Regulations (HMR; 49 CFR parts 171-180) to more closely align with certain provisions of the International Civil Aviation Organization's Technical Instructions for the Safe Transport of Dangerous Goods (ICAO TI). This NPRM also responds to four petitions for rulemaking submitted by the regulated community. The intended effect of these amendments is to update miscellaneous regulatory requirements for hazardous materials offered for transportation, or transported, in commerce by aircraft. The petitions are included in the docket for this proceeding and are discussed at length in Section II ("Overview of Proposals in this NPRM") of this rulemaking.
