EPA requests that no individual or organization contact in any way the peer reviewers regarding the subject of the peer review meeting, send them written materials regarding the subject of the meeting, or make any offers or requests to any of them that appear to be linked to their participation in the peer review. The contractor (Versar, Inc.) will direct the reviewers to report any such contacts to the contractor (Versar, Inc.), who will take appropriate action in consultation with EPA to ensure the independence and impartiality of the peer review.

V. Information About the Peer Review Meeting

EPA has charged the peer reviewers with evaluating and preparing written comments on the draft BBDR model and draft model report. Specifically, reviewers will provide general comments, their overall impressions of the draft model and draft model report and responses to the charge questions. Reviewers will also consider the appropriateness of the quality, accuracy and relevance of the data in the documents. Versar will provide a summary of comments (along with the full text of the comments) submitted to EPA's public docket (Docket ID No. EPA-HQ-OW-2016-0438) during the 56-day public comment period on the draft model and draft model report to the peer reviewers ahead of the meeting for their consideration.

Peer reviewers will participate in the two-day, public peer review meeting to discuss the scientific basis supporting EPA's draft BBDR model and model report. Following the peer review meeting, Versar will provide a peer review summary report to EPA containing the comments and recommendations from the peer reviewers. EPA will make the final peer review report available to the public.

In preparing the final BBDR model and model report, EPA will consider Versar's report of the comments and recommendations from the external peer review meeting, as well as written public comments received through the official public docket during the previous 56-day comment period on the draft model and draft model report.
