

The NRC staff reviewed the licensee's request and finds allowing the use of either visual surveillance of the inlet and outlet screens or temperature monitoring of the inlets and outlets within 4 hours of the occurrence of off-normal, accident, or natural phenomena events, when limited to major snow and icing events, does not compromise safety. The exemption still requires the licensee to perform SR 3.1.6.1 to establish the operability of the Concrete Cask Heat Removal Systems every 24 hours via temperature monitoring or visual inspection of the inlet and outlet screens. In addition, the exemption provides no additional time to complete the required surveillance of the inlets and outlets screens in accordance with TS A 5.3. The use of either method will ensure that adequate air flows past the storage canisters and that heat transfer occurs. For these reasons, NRC the staff found the same level of safety is obtained by using either of the TS A 3.1.6 methods to comply with NAC-MPC TS A 5.3 during limited types off-normal, accident, or natural phenomena.

The NRC staff has determined that the thermal, structural, criticality, retrievability, and radiation protection requirements of 10 CFR part 72 and the offsite dose limits of 10 CFR part 20 will be maintained. For these reasons, the NRC staff finds the same level of safety is obtained by using either of the TS A 3.1.6 methods to comply with NAC-MPC TS A 5.3. Therefore, the NRC concludes that the exemption will not endanger life or property or the common defense and security.

The Exemption Presents No Undue Risk to Public Health and Safety

As described in the application, exempting the licensee from visual surveillance of cask inlet and outlet vents within 4 hours of a major snowstorm would allow the licensee to prioritize more effectively important storm-related activities at the HNP site. Snow and ice blockage of the inlet and outlet vents is unusual. Moreover, snow and ice blockages are identified reliably by temperature monitoring of individual casks. The NRC staff recognizes there is a risk to the safety of workers responsible for clearing snow and ice from cask pads during extreme winter conditions when visual surveillance of casks must be undertaken within 4 hours. The NRC staff finds this risk to workers can be reduced by using SR 3.1.6.1 to establish the operability of the Concrete Cask Heat Removal Systems via temperature monitoring or visual inspection of the inlet and outlet screens. In addition, the limiting

conditions for operation of the NAC-MPC System require the Concrete Cask Heat Removal System for each cask to be operable during storage operation, therefore ensuring public health and safety are not reduced.

Therefore, the NRC staff finds that allowing the licensee to use the SR, conditions, required actions, and completion times defined in NAC-MPC TS A 3.1.6 as an alternative to the single-method surveillance response in NAC-MPC TS A 5.3, would reduce worker safety risks to plant workers involved in snow removal. Therefore, granting the exemption is otherwise in the public interest.

Environmental Considerations

The NRC staff evaluated whether there would be significant environmental impacts associated with the issuance of the requested exemption. The NRC staff determined the proposed action fits a category of actions that do not require an environmental assessment or environmental impact statement. The exemption meets the categorical exclusion requirements of 10 CFR 51.22(c)(25)(i)-(vi).

Granting an exemption from the requirements of 10 CFR 72.212(b)(3), 10 CFR 72.212(b)(5)(i), and 10 CFR 72.214 for the CYAPC ISFSI involves the visual surveillance requirement associated with TS A 5.3. A categorical exclusion for inspection and SRs is provided under 10 CFR 51.22(c)(25)(vi)(C), if the criteria in 10 CFR 51.22(c)(25)(i)-(v) are also satisfied.

The granting of the exemption: (i) Would not involve a significant hazards consideration because it does not reduce a margin of safety, create a new or different kind of accident not previously evaluated, or significantly increase the probability or consequences of an unevaluated accident; (ii) would not create a significant change in the types or significant increase in the amounts of any effluents that may be released offsite because the exemption does not change or produce additional avenues of effluent release; (iii) would not significantly increase individual or cumulative public or occupational radiation exposure because the exemption does not introduce new or increased radiological hazards; (iv) would not result in significant construction impacts because the exemption would not involve construction or other ground disturbing activities, nor change the footprint of the existing ISFSI; (v) would not significantly increase the potential for or consequences from radiological accidents because the exemption

requires a surveillance method that ensures the heat removal system of casks is maintained within the limiting conditions for operation; and (vi) the request seeks exemption from inspection or surveillance requirements, specifically, the single-method SR in NAC-MPC TS A 5.3, may be substituted with the SR, conditions, required actions, and completion times defined in NAC-MPC TS A 3.1.6.

In its review of the exemption request, the staff determined the proposed exemption meets the eligibility criterion for categorical exclusion in 10 CFR 51.22(c)(25). Therefore, there are no significant radiological environmental impacts associated with the proposed action.

IV. Conclusion

The NRC has determined that, under 10 CFR 72.7, the exemption is authorized by law, will not endanger life or property or the common defense and security, and is otherwise in the public interest. Therefore, the NRC grants CYAPC an exemption from the requirements in 10 CFR 72.212(b)(3), 10 CFR 72.212(b)(5)(i), 10 CFR 72.214, and to TS A.5.3 for the NAC-MPC System CoC No. 1025 storage casks at the HNP ISFSI. The exemption authorizes the licensee to use the SR, conditions, required actions, and completion times defined in NAC-MPC TS A 3.1.6 to comply with NAC-MPC TS A 5.3 after off-normal, accident, or natural phenomena events, but is specifically limited to major snow or icing events (snow/ice events that have the potential to or that exceed blockage of greater than one-half of the inlet or outlet vents).

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 10th day of February, 2016.

For the Nuclear Regulatory Commission.

Bernard H. White IV,

*Acting Chief, Spent Fuel Licensing Branch,
Division of Spent Fuel Management, Office
of Nuclear Material Safety and Safeguards.*

BILLING CODE 7590-01-P

OFFICE OF PERSONNEL MANAGEMENT

Privacy Act of 1974; Computer Matching Program

AGENCY: Office of Personnel
Management.

ACTION: Notice—computer matching
between the Office of Personnel

Management and the Social Security Administration #1045.

SUMMARY: In accordance with the Privacy Act of 1974 (5 U.S.C. 552a), as amended by the Computer Matching and Privacy Protection Act of 1988 (Pub. L. 100-503), Office of Management and Budget (OMB) Guidelines on the Conduct of Matching Programs (54 FR 25818 published June 19, 1989), and OMB Circular No. A-130, revised November 28, 2000, "Management of Federal Information Resources," the Office of Personnel Management (OPM) is publishing notice of its new computer matching program with the Social Security Administration (SSA).

DATES: OPM will file a report of the subject matching program with the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on Oversight and Government Reform of the House of Representatives and the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). The matching program will begin 30 days after the **Federal Register** notice has been published or 40 days after the date of OPM's submissions of the letters to Congress and OMB, whichever is later. The matching program will continue for 18 months from the beginning date and may be extended an additional 12 months thereafter. Subsequent matches will run until one of the parties advises the other in writing of its intention to reevaluate, modify and/or terminate the agreement.

ADDRESSES: Send comments to Deon Mason, Chief, Business Services, Office of Personnel Management, Room 4316, 1900 E. Street NW., Washington, DC 20415.

FOR FURTHER INFORMATION CONTACT: Teresa R. Williams on (202) 606-2187.

SUPPLEMENTARY INFORMATION:

A. General

The Privacy Act (5 U.S.C. 552a), as amended, establishes the conditions under which computer matching involving the Federal government could be performed and adding certain protections for individuals applying for and receiving Federal benefits. Section 7201 of the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101-508) further amended the Privacy Act regarding protections for such individuals.

The Privacy Act, as amended, regulates the use of computer matching by Federal agencies when records in a system of records are matched with other Federal, State, or local government records. Among other things, it requires

Federal agencies involved in computer matching programs to:

- (1) Negotiate written agreements with the other agency for agencies participating in the matching programs;
- (2) Obtain the approval of the match agreement by the Data Integrity Boards (DIB) of the participating Federal agencies;
- (3) Furnish detailed reports about matching programs to Congress and OMB;
- (4) Notify applicants and beneficiaries that their records are subject to matching;
- (5) Verify match findings before reducing, suspending, termination or denying an individual's benefits or payments.

B. OPM Computer Matches Subject to the Privacy Act

We have taken action to ensure that all of OPM's computer matching programs comply with the requirements of the Privacy Act, as amended.

Notice of Computer Matching Program, Office of Personnel Management (OPM) With the Social Security Administration (SSA)

A. Participating Agencies
OPM and SSA.

B. Purpose of the Matching Program

The purpose of this agreement is to establish the conditions under which the Social Security Administration (SSA) will disclose tax return information to the Office of Personnel Management (OPM). OPM will match SSA's data with OPM's records on disability retirees under age 60, disabled adult child survivors, certain retirees in receipt of a supplemental benefit under the Federal Employees Retirement System (FERS), and certain annuitants receiving a discontinued service retirement benefit under the Civil Service Retirement System (CSRS). Law limits the amount these retirees, survivors, and annuitants can earn while retaining benefits paid to them. Retirement benefits cease upon re-employment in Federal service for discontinued service annuitants. OPM will use SSA data to determine continued eligibility for benefits.

C. Authority for Conducting the Matching Program

Chapters 83 and 84 of title 5 of the United States Code provide the basis for computing annuities under CSRS and FERS, respectively, and require release of information by SSA to OPM in order to administer data exchanges involving military service performed by an individual after December 31, 1956. The

CSRS requirement is codified at section 8332(j) of title 5 of the United States Code; the FERS requirement is codified at section 8422(e)(4) of title 5 of the United States Code. The responsibilities of SSA and OPM with respect to information obtained pursuant to this agreement are also in accordance with the following: the Privacy Act (5 U.S.C. 552a), as amended; section 307 of the Omnibus Budget Reconciliation Act of 1982 (Pub. L. 97-253), codified at section 8332 Note of title 5 of the United States Code; section 1306(a) of title 42 of the United States Code; and section 6103(1)(11) of title 26 of the United States Code.

D. Categories of Records and Individuals Covered by the Match

SSA will disclose data from its MBR file (60-0090, Master Beneficiary Record, SSA/OEEAS) and MEF file (60-0059, Earnings Recording and Self-Employment Income System, SSA/OEEAS) and manually-extracted military wage information from SSA's "1086" microfilm file when required (71 FR 1796, January 11, 2006). OPM will provide SSA with an electronic finder file from the OPM system of records published as OPM/Central-1 (Civil Service Retirement and Insurance Records) last published on March 20, 2008 (73 FR 15014). The system of records involved have routine uses permitting the disclosures needed to conduct this match.

E. Privacy Safeguards and Security

The Privacy Act (5 U.S.C. 552a(o)(1)(G)) requires that each matching agreement specify procedures for ensuring the administrative, technical and physical security of the records matched and the results of such programs.

All Federal agencies are subject to: The Federal Information Security Management Act of 2002 (FISMA) (44 U.S.C. 3541 *et seq.*); related OMB circulars and memorandum (*e.g.*, OMB Circular A-130 and OMB M-06-16); National Institute of Science and Technology (NIST) directives; and the Federal Acquisition Regulations (FAR). These laws, circulars, memoranda directives and regulations include requirements for safeguarding Federal information systems and personally identifiable information used in Federal agency business processes, as well as related reporting requirements. OPM and SSA recognize that all laws, circulars, memoranda, directives and regulations relating to the subject of this agreement and published subsequent to the effective date of this agreement must also be implemented if mandated.

FISMA requirements apply to all Federal contractors and organizations or sources that possess or use Federal information, or that operate, use, or have access to Federal information systems on behalf of an agency. OPM will be responsible for oversight and compliance of their contractors and agents. Both OPM and SSA reserve the right to conduct onsite inspection to monitor compliance with FISMA regulations.

F. Inclusive Dates of the Match

The matching program shall become effective upon the signing of the agreement by both parties to the agreement and approval of the agreement by the Data Integrity Boards of the respective agencies, but no sooner than 40 days after notice of this matching program is sent to Congress and the Office of Management and Budget or 30 days after publication of this notice in the **Federal Register**, whichever is later. The matching program will continue for 18 months from the effective date and may be extended for an additional 12 months thereafter, if certain conditions are met.

U.S. Office of Personnel Management.

Beth F. Cobert,

Acting Director.

BILLING CODE 6325-38-P

OFFICE OF PERSONNEL MANAGEMENT

Submission for Review: It's Time To Sign Up for Direct Deposit or Direct Express, RI 38-128, 3206-0226

AGENCY: U.S. Office of Personnel Management.

ACTION: 60-Day notice and request for comments.

SUMMARY: The Retirement Services, Office of Personnel Management (OPM) offers the general public and other federal agencies the opportunity to comment on an extension without change of a currently approved information collection (ICR) 3206-0226, It's Time to Sign Up for Direct Deposit or Direct Express. As required by the Paperwork Reduction Act of 1995, (Pub. L. 104-13, 44 U.S.C. chapter 35) as amended by the Clinger-Cohen Act (Pub. L. 104-106), OPM is soliciting comments for this collection. The Office of Management and Budget is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of functions

of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

DATES: Comments are encouraged and will be accepted until April 22, 2016. This process is conducted in accordance with 5 CFR 1320.1.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to U.S. Office of Personnel Management, Retirement Services 1900 E Street NW., Room 2347E, Washington, DC 20415, Attention: Alberta Butler or sent via electronic mail to *Alberta.Butler@opm.gov*.

FOR FURTHER INFORMATION CONTACT: A copy of this ICR, with applicable supporting documentation, may be obtained by contacting the Retirement Services Publications Team, U.S. Office of Personnel Management, 1900 E Street NW., Room 3316-L, Washington, DC 20415, Attention: Cyrus S. Benson or sent via electronic mail to *Cyrus.Benson@opm.gov* or faxed to (202) 606-0910.

SUPPLEMENTARY INFORMATION: RI 38-128 is primarily used by OPM to give recent retirees the opportunity to waive Direct Deposit of their annuity payments. The form is sent only if the separating agency did not give the retiring employee this election opportunity. This form may also be used to enroll in Direct Deposit, which was its primary use before Public Law 104-134 was passed. This law requires OPM to make all recurring benefits payments electronically to beneficiaries who live where Direct Deposit is available. Beneficiaries who do not enroll in the Direct Deposit Program will be enrolled in Direct Express.

Analysis

Agency: Retirement Operations, Retirement Services, Office of Personnel Management.

Title: It's Time to Sign Up for Direct Deposit or Direct Express.

OMB Number: 3206-0226.

Frequency: On occasion.

Affected Public: Individuals or Households.

Number of Respondents: 20,000.

Estimated Time per Respondent: 30 minutes.

Total Burden Hours: 10,000.

U.S. Office of Personnel Management.

Beth F. Cobert,

Acting Director.
