

surface) estate. The BLM State Director is the Authorized Officer for the BLM, and will decide whether or not to modify the existing coal lease under the Mineral Leasing Act, as amended, and the federal regulations under 43 CFR 3400. The Uncompahgre Field Office Manager/Southwest District Manager is responsible for providing the State Director with briefings and recommendations. Specifically, the BLM will decide whether to:

- Adopt the No-Action Alternative (no leasing);
- Adopt the coal lease modifications as applied for by the applicants;

BLM cannot issue lease modifications without the consent of the surface managing agency. BLM's must also decide whether to approve the exploration plan and allow the activities to occur on the coal leases, consistent with lease rights if granted, in the manner described in the plan, disapprove the plan with a statement of conformity, or approve the plan with additional conditions (43 CFR 3482.2(a)(1)), if needed to minimize impacts. BLM cannot approve an exploration plan without concurrence by the surface management agency (concurrence is not a "decision" subject to Forest Service objection process).

OSM

Office of Surface Mining Reclamation Enforcement (OSM) is a cooperating agency in preparing this EIS. If the leases are modified, OSM will determine if there is a need for a federal mining plan modification at the time the actual permitting process is underway. If a federal mining plan modification is needed, OSM would be responsible to recommend that the DOI Assistant Secretary for Lands and Minerals approve, approve with conditions, or not approve the modification.

DRMS

In Colorado, the Division of Reclamation Mining and Safety (DRMS) operates under an OSM-approved program for administering coal mining operations in the state, as codified by the Colorado Surface Coal Mining Reclamation Act (CRS 34-33-101) and attendant regulations which are consistent with the overarching federal regulations (30 CFR part 906, Appendix B). Any applications submitted to the State of Colorado to revise the state mining and reclamation permit, including applications to allow mining and its related surface disturbances, reclamation, and the changing of the approved mine permit boundary to include the modification area, would be reviewed by the DRMS.

Preliminary Issues

Issues have previously been addressed in the Final EIS (Table 1.9) and will be carried forward in this analysis. It is believed that new issues will arise during this the Supplemental EIS process including, but not limited to: Changes in fish recovery status prompting reconsideration of GMUG's Programmatic Biological Opinion for Water Depletions related to Endangered Big River Fishes and request for Social Cost of Methane analysis.

Scoping Process

In addition to receiving and considering previous comments from the public, the agency continues to accept and consider public comments to guide the development of this Supplemental EIS and the resulting decision. Additional comments should clearly articulate the reviewer's concerns and contentions, and focus on the adequacy of stipulations proposed as they relate to the protection of surface resources or specific to analysis that must be undertaken relative to exploration activities. Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

International Trade Administration

Notice of Imminent Establishment of the United States-Mexico Energy Business Council and Solicitation of Nominations for U.S. Private Sector Members

AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of Imminent Establishment of the United States-Mexico Energy Business Council and Solicitation of Nominations for U.S. Private Sector Members.

SUMMARY: The U.S. Department of Commerce announces the imminent establishment of the United States-Mexico Energy Business Council (the "Council") with U.S. Department of Energy, the Ministry of Economy of the United Mexican States, and the Ministry of Energy of the United Mexican States, and is soliciting nominations for U.S. private sector members. The Council is expected to have as its objective bringing together representatives of the respective energy industries of the United States and Mexico to discuss issues of mutual interest, particularly ways to strengthen the economic and commercial ties between energy industries in the two countries, and communicating actionable, non-binding recommendations to the U.S. and Mexican governments.

DATES: All nominations must be received by the Office of North America by 5:00 p.m. Eastern Standard Time (EST) on April 18, 2016.

ADDRESSES: Please submit nominations to Patrick Krissek, International Trade Specialist, Office of North America, U.S. Department of Commerce either by email at Patrick.Krissek@trade.gov or by mail to U.S. Department of Commerce, 1401 Constitution Avenue NW., Room 30014, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Patrick Krissek, Office of North America, U.S. Department of Commerce, telephone: (202) 482-4231, email Patrick.Krissek@trade.gov.

SUPPLEMENTARY INFORMATION: The U.S. Department of Commerce, the U.S. Department of Energy, the Ministry of Economy of the United Mexican States, and the Ministry of Energy of the United

Mexican States anticipate formally establishing the Council following the U.S.-Mexico High-Level Economic Dialogue meeting in late February 2016. Please consult www.trade.gov/hled for more information, where the Terms of Reference of the Council will be published following its formal establishment. The expected objective of the Council is to bring together representatives of the respective energy industries of the United States and Mexico to discuss issues of mutual interest, particularly ways to strengthen the economic and commercial ties between energy industries in the two countries, and communicating actionable, non-binding recommendations to the U.S. and Mexican Governments.

The Council is expected to consist of the U.S. Department of Commerce, represented by the Under Secretary of Commerce for International Trade, and the U.S. Department of Energy, represented by the Assistant Secretary of Energy for International Affairs, for the United States Government (the "U.S. Participants"); the Ministry of Energy of the United Mexican States, represented by General Director of Investor Relations and Promotion, and the Ministry of Economy of the United Mexican States, represented by the Under Secretary of Foreign Trade, for the Government of Mexico (the "Mexican Participants"); and a Committee comprised of private sector members from both countries. The Committee would be composed of a U.S. Section and a Mexican Section, each consisting of approximately ten members from the private sector appointed by their respective Government, representing the views and interests of the private sector business community, including their respective energy industry sub-sector and the energy industry more broadly. Each Government would seek to appoint at least one representative from each of the oil and gas, renewable energy, electricity, nuclear energy, and energy efficiency industry sub-sectors. Members of the Sections would freely exchange information, best industry practices, and points of view among themselves and provide actionable, non-binding recommendations jointly addressed to both Governments that reflect their views, needs, and concerns regarding creating an environment in which their respective energy industries can participate, thrive, and enhance bilateral commercial ties that could form the basis for expanded trade and investment between the United States and Mexico.

Nominations are currently being sought for membership on the U.S.
