

Transmittal No. 16–72

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser*: Poland

(ii) *Total Estimated Value*:

| | |
|---------------------------|----------------|
| Major Defense Equipment * | \$ 110 million |
| Other | \$ 90 million |

| | |
|-------------|----------------|
| TOTAL | \$ 200 million |
|-------------|----------------|

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase*:

Major Defense Equipment (MDE):

Seventy (70) AGM–158B Joint Air-to-Surface Standoff Missiles Extended Range (JASSM–ER)

Two (2) AGM–158B Flight Test

Vehicles—Live Fire with TIK & FTS

Two (2) AGM–158B Mass Simulant Vehicles

One (1) AGM–158B Flight Test

Vehicle—Captive Carry

Three (3) AGM–158B Separation Test Vehicles

Non-MDE includes:

Two (2) AGM–158B Weapon System Simulators, F–16 operational flight plan upgrade for the Polish F-16C/D, JASSM–ER integration, missile containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support.

(iv) *Military Department*: Air Force (X7–D–YAD)

(v) *Prior Related Cases, if any*: PL–D–SAC, PL–D–YAB and amendments

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid*: None

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold*: See Annex Attached

(viii) *Date Report Delivered to Congress*: November 28, 2016

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Poland—JASSM–ER with Support

The Government of Poland has requested a possible sale of seventy (70) AGM–158B Joint Air-to-Surface Standoff Missiles Extended Range (JASSM–ER), two (2) AGM–158B Flight Test Vehicles, two (2) AGM–158B Mass Simulant Vehicles, one (1) AGM–158B Flight Test Vehicle—Captive Carry,

three (3) AGM–158B Separation Test Vehicles. Also included are two (2) AGM–158B Weapon System Simulators, F–16 operational flight plan upgrade for the Polish F-16C/D, JASSM–ER integration, missile containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The total estimated program value is \$200 million.

The proposed sale will contribute to the foreign policy and the national security objectives of the United States by helping to improve the security of a NATO ally. Poland continues to be an important force for political stability and economic progress in Central Europe.

The proposed sale will improve Poland's capability to meet current and future threats of enemy air and ground weapons systems. Poland will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. These weapon and capabilities upgrades will allow Poland to strengthen its air-to-ground strike capabilities and increase its contribution to future NATO operations. Poland will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Lockheed Martin of Ft. Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 16–72

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The AGM–158B JASSM ER is an extended range low-observable, highly survivable subsonic cruise missile designed to penetrate next generation air defense systems en-route to target. It is designed to kill hard, medium-

hardened, soft and area type targets. The extended range over the baseline was obtained by going from a turbo jet to a turbo-fan engine and by reconfiguring the fuel tanks for added capacity. Classification of the technical data and information on the AGM–158's performance, capabilities, systems, sub-systems, operations, and maintenance will range from UNCLASSIFIED to SECRET.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that Poland can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary to further the US foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal are authorized for release and export to Poland.

ARLINGTON, VA 22202-5408

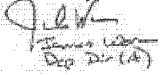

DEC 07 2016

The Honorable Paul D. Ryan
Speaker of the House
U.S. House of Representatives
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 16-65, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance for the Government of Finland for defense articles and services estimated to cost \$156 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

J. W. Rixey
Vice Admiral, USN
Director

POLICY JUSTIFICATION

Government of Finland—F-18 Mid-Life Upgrade Program

The Government of Finland has requested a possible sale of follow-on equipment and support for Finland's F/A-18 Mid-Life Upgrade (MLU) program,

consisting of: Ninety (90) Multifunctional Information Distribution System Joint Tactical Radio System (MIDS-JTRS) variant(s). The proposed program support also includes software test and integration center upgrades, flight testing, spare and repair parts, support and test equipment, transportation, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. Total estimated program cost is \$156 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United State by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in Europe.

The Finnish Air Force (FAF) intend to purchase this MLU program equipment and services to extend the useful life of its F/A-18 fighter aircraft and enhance their survivability and communications connectivity. The FDF needs this upgrade to keep pace with technology advances in sensors, weaponry, and communications. Finland has extensive experience operating the F/A-18 aircraft and will have no difficulty incorporating the upgraded capabilities into its forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Raytheon in Waltham, Massachusetts; Lockheed Martin in Bethesda, Maryland; The Boeing Company in St. Louis, Missouri; BAE North America in Arlington, Virginia; General Electric in Fairfield, Connecticut; General Dynamics in West Falls Church, Virginia; Northrop Grumman in Falls Church, Virginia; Rockwell Collins in Cedar Rapids, Iowa; ViaSat in Carlsbad, California; and Data Link Solutions in Cedar Rapids, Iowa. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Finland involving U.S. Government and contractor representatives for technical reviews, support, and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 16-65

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The Multifunctional Information Distribution System Joint Tactical Radio System (MIDS-JTRS) is not classified but is considered a COMSEC Controlled Item (CCI). There are no training devices, associated documentation, or services to be provided with the sale of these MIDS-JTRS units. No sensitive information is provided or associated with this sale.

2. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Finland.

Proposed Collection; Comment Request

AGENCY: Defense Security Service, DoD.

ACTION: Notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Defense Security Service (DSS) announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by February 13, 2017.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
