SUPPLEMENTARY INFORMATION:

Background
On December 2, 2015 (80 FR 75590), FSIS published the final rule to establish a mandatory inspection program for fish of the order Siluriformes and products derived from these fish. The final regulations implement the provisions of the 2008 and 2014 Farm Bills, which amended the Federal Meat Inspection Act, mandating FSIS inspection of Siluriformes fish and fish products. On March 1, 2016, the final rule on Siluriformes fish and fish products goes into effect. By this date, foreign countries seeking to continue exporting Siluriformes fish and fish products to the United States during an 18-month transitional period are required to submit documentation showing that they have laws or other legal measures in place that provide authority to regulate the growing and processing of fish for human food and to assure compliance with the United States Department of Health and Human Services’ Food and Drug Administration (FDA) regulatory requirements in 21 CFR 123, Fish and Fishery Products. The foreign countries are also required to submit lists of establishments that currently export and will continue to export Siluriformes fish and fish products to the United States.

Foreign countries seeking to continue to export Siluriformes fish and fish products to the United States after the transitional period has expired are required to submit to FSIS, by September 1, 2017, adequate documentation showing the equivalence of their Siluriformes inspection systems with that of the United States. Foreign countries submitting such documentation by the deadline are permitted to continue exporting Siluriformes fish and fish products to the United States while FSIS undertakes an evaluation as to equivalency.

The purpose of the educational meetings for importers is to provide information on the final rule’s requirements, with a primary focus on the process for importing Siluriformes fish and fish products into the United States during the 18-month transitional period and on the date of full enforcement. Other topics presented will include the labeling requirements for imported Siluriformes fish and fish products, the FSIS sampling of these imported products, and the enforcement of the requirements.

For more information on the mandatory inspection of Siluriformes fish and fish products, visit the FSIS Web site: http://www.fsis.usda.gov/wps/portal/fsis/topics/inspection/siluriformes.

**SUPPLEMENTARY INFORMATION:**

I. Overview

Regulation I governs the issuance and cancellation of capital stock by the Reserve Banks. Under section 5 of the Federal Reserve Act and Regulation I, a member bank must subscribe to capital stock of the Reserve Bank of its district in an amount equal to six percent of the member bank’s capital and surplus. The member bank must pay for one-half of this subscription on the date that the Reserve Bank approves its application for capital stock, while the remaining half of the subscription shall be subject to call by the Board.

On December 4, 2015, President Obama signed the “Fixing America’s Surface Transportation Act” (“FAST Act”), which provides for a reduction in federal highway and public transit spending. The FAST Act amendments to section 7(a)(1) of the Federal Reserve Act, which governs dividend payments to Reserve Bank stockholders. Under the FAST Act amendments to section 7(a)(1) became effective on January 1, 2016, all member banks were entitled to a six percent dividend on their paid-in capital stock. Section 7(a)(1) continues
