station at the Panda Stonewall Power Project both in Loudoun County. Finally, DTI would install one 15,900 hp unit at the Myersville Compressor Station in Frederick County, Maryland.

Background

On July 23, 2015, the Commission issued a Notice of Intent to Prepare an Environmental Assessment for the Proposed Leidy South Project and Request for Comments on Environmental Issues (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received comments from several state and federal agencies and from the Allegheny Defense Project, Wild Virginia, and Chesapeake Climate Action Network. The primary issues raised by the commentors are the purpose and need for the Project; potential impacts on wildlife, surface water, drinking water, and wetland resources; the potential for increased soil compactions and watershed impacts on the Tamarack Swamp Natural Area; noise impacts; climate change; and cumulative impacts.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of new dockets, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission’s Office of External Affairs at (866) 208–FERC or on the FERC Web site (www.ferc.gov). Using the “eLibrary” link, select “General Search” from the eLibrary menu, enter the selected date range and “Docket Number” excluding the last three digits (i.e., CP15–492), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208–3676, TTY (202) 502–8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.
