

inches thick. Imports of PET Film are currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under item number 3920.62.00.90. HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope of the order is dispositive.

Analysis of Comments Received

All issues raised in the case brief and rebuttal briefs are addressed in the Issues and Decision Memorandum, which is attached to this notice as an Appendix.

Changes Since the Preliminary Results

Based on our review of the record and comments received from interested parties regarding our *Preliminary Results*, we made changes to SRF's and Jindal's margin calculations.³ The margins for both SRF and Jindal are now zero. In addition, we adjusted Jindal's reported U.S. prices to account for changes in its export subsidies in the final results of the companion countervailing duty administrative review.⁴ Additionally, for companies not selected for individual review, we have assigned a zero rate in the final results of this review, in accordance with section 735(c)(5) of the Tariff Act of 1930, as amended (the Act).

Final Results of Review

As a result of our review, we determine the following weighted-average dumping margins exist for the period July 1, 2014, through June 30, 2015.

Producer or Exporter	Weighted-average dumping margin (percent)
Jindal Poly Films Limited ⁵ ...	0.00
SRF Limited	0.00
Garware Polyester Ltd	0.00
Vacmet India	0.00

³ See Memoranda to Thomas Gilgunn, Program Manager "Analysis Memorandum for the Final Results of the Antidumping Duty Administrative Review of Polyethylene Terephthalate Film, Sheet, and Strip from India: Jindal Poly Films Limited, and "Analysis Memorandum for the Final Results of the Antidumping Duty Administrative Review of Polyethylene Terephthalate Film, Sheet, and Strip from India: SRF Limited," both dated concurrently with these final results.

⁴ See *Polyethylene Terephthalate Film, Sheet, and Strip from India: Preliminary Results and Partial Rescission of Countervailing Duty Administrative Review*; 2014, 81 FR 51186 (August 3, 2016).

⁵ The Initiation Notice lists the company as Jindal Poly Films Limited of India. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 80 FR 53106 (September 2, 2015).

Disclosure

We intend to disclose the calculations performed to parties in this proceeding within five days after the public announcement of the final results, in accordance with section 735(a) of the Act, and 19 CFR 351.224(b).

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b)(1), the Department determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise, in accordance with the final results of this review. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of review. Because we have calculated zero margins in the final results of this review for both mandatory respondents during this POR, in accordance with 19 CFR 351.212 we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

Pursuant to 19 CFR 351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries produced and/or exported by Garware, Jindal, SRF, or Vacmet during the POR.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of PET Film from India entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review, as provided for by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for the companies under review will be zero; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published in the completed segment for the most recent period for that company; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established in the completed segment for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any other completed segment of this proceeding, then the cash deposit rate will be the all others rate for this proceeding, 5.71 percent. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notifications to Interested Parties

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

The Department is issuing and publishing these final results of administrative review in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.221.

Dated: December 12, 2016.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

Certain Cut-to-Length Carbon Steel Plate From the People's Republic of China: Final Results of the 2014-2015 Antidumping Administrative Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the "Department") has conducted an

administrative review of the antidumping duty order on certain cut-to-length carbon steel plate (“CTL plate”) from the People’s Republic of China (“PRC”), covering the period November 1, 2014, through October 31, 2015.

DATES: Effective December 19, 2016.

FOR FURTHER INFORMATION CONTACT: Jonathan Hill, AD/CVD Operations, Office IV, Enforcement & Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–3518.

Background

On August 12, 2016, the Department of Commerce (“Department”) published its *Preliminary Results* of the review of the antidumping duty order on CTL plate from the PRC for Hunan Valin Xiangtan Iron and Steel Co., Ltd. (“Hunan Valin”) and Wuyang Iron & Steel Co., Ltd. (“Wuyang Steel”).¹ Although invited to do so, interested parties did not comment on our *Preliminary Results*. Thus, we have adopted the *Preliminary Results* as the final results.

Scope of the Order

The product covered by the order is certain cut-to-length carbon steel plate from the PRC. Included in this description is hot-rolled iron and non-alloy steel universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 millimeters (“mm”) but not exceeding 1250 mm and of a thickness of not less than 4 mm, not in coils and without patterns of relief), of rectangular shape, neither clad, plated nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances; and certain iron and non-alloy steel flat-rolled products not in coils, of rectangular shape, hot-rolled, neither clad, plated nor coated with metal, whether or not painted, varnished, or covered with plastics or other nonmetallic substances, 4.75 mm or more in thickness and of a width which exceeds 150mm and measures at least twice the thickness. Included as subject merchandise in this order are flat-rolled products of nonrectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been “worked

after rolling”)—for example, products which have been beveled or rounded at the edges. This merchandise is currently classified in the Harmonized Tariff Schedule of the United States (“HTSUS”) under item numbers 7208.40.3030, 7208.40.3060, 7208.51.0030, 7208.51.0045, 7208.51.0060, 7208.52.0000, 7208.53.0000, 7208.90.0000, 7210.70.3000, 7212.40.5000, and 7212.50.0000. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the order is dispositive. Specifically excluded from subject merchandise within the scope of the order is grade X–70 steel plate.

Analysis

In the *Preliminary Results*, the Department determined that Hunan Valin was not eligible for separate rate status and was considered part of the PRC-wide entity, and that Wuyang Steel did not have reviewable transactions during the POR.² No parties commented on the *Preliminary Results*. For these final results of review, we have continued to treat Hunan Valin as part of the PRC-wide entity, and continued to find that Wuyang Steel did not have reviewable transactions during the POR. We are adopting the Preliminary Decision Memorandum for these final results of review.³ The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (“ACCESS”). ACCESS is available to registered users at <http://access.trade.gov> and in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly on the Internet at <http://enforcement.trade.gov/frn/index.html>. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Assessment Rates

Upon issuance of the final results, the Department will determine, and U.S.

Customs and Border Protection (“CBP”) shall assess, antidumping duties on all appropriate entries covered by this review. The Department intends to issue assessment instructions to CBP 15 days after the publication date of the final results of this review. The Department intends to instruct CBP to liquidate any entries of subject merchandise exported by Hunan Valin at 128.59 percent (the PRC-wide rate).

Additionally, pursuant to the Department’s practice in non-market economy cases, given that we have continued to find that Wuyang Steel had no shipments of subject merchandise during the POR, any suspended entries of subject merchandise exported by Wuyang Steel will be liquidated at the PRC-wide rate.⁴

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of review, as provided by section 751(a)(2)(C) of the Tariff Act of 1930, as amended (the “Act”): (1) For previously investigated or reviewed PRC and non-PRC exporters, which are not under review in this segment of the proceeding, but which have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (2) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, including Hunan Valin, the cash deposit rate will be the PRC-wide rate of 128.59 percent; and (3) for all non-PRC exporters of subject merchandise, which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification of Interested Parties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of the antidumping

² See Memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations to Ronald K. Lorentzen, Acting Assistant Secretary for Enforcement and Compliance “Decision Memorandum for the Preliminary Results of the Antidumping Duty Administrative Review of Certain Cut-to-Length Carbon Steel Plate from the People’s Republic of China,” dated August 5, 2016 (“*Preliminary Decision Memorandum*”) at 4–5.

³ See Preliminary Decision Memorandum.

⁴ For a full discussion of this practice, see *NME AD Assessment*, 76 FR 65694 (October 24, 2011).

duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (“APOs”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation that is subject to sanction.

This notice of the final results of this antidumping duty administrative review is issued and published in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.213 and 19 CFR 351.221(b)(5).

Dated: December 7, 2016.

Christian Marsh,
Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Circular Welded Carbon-Quality Steel Pipe From the Sultanate of Oman, Pakistan, and the United Arab Emirates: Amended Final Affirmative Antidumping Duty Determination and Antidumping Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce (the Department) and the International Trade Commission (the ITC), the Department is issuing antidumping duty orders on circular welded carbon-quality steel pipe from the Sultanate of Oman (Oman), Pakistan, and the United Arab Emirates (UAE). In addition, as explained in this notice, the Department is amending its final affirmative determination with respect to Oman as a result of a ministerial error.

DATES: Effective December 19, 2016.

FOR FURTHER INFORMATION CONTACT: Kate Johnson at (202) 482–4949 (Oman), David Lindgren at (202) 482–3870 (Pakistan), or Blaine Wiltse at (202) 482–6345 (UAE), AD/CVD Operations,

Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

In accordance with sections 735(d) and 777(i)(1) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.210(c), on October 28, 2016, the Department published its affirmative final determinations in the less-than-fair-value (LTFV) investigations of circular welded carbon-quality steel pipe from Oman, Pakistan, and the UAE.¹ On December 12, 2016, the ITC notified the Department of its affirmative determinations that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act, by reason of the LTFV imports of circular welded carbon-quality steel pipe from Oman, Pakistan, and the UAE.²

Scope of the Orders

The merchandise covered by these orders is welded carbon-quality steel pipes and tube, of circular cross-section, with an outside diameter (O.D.) not more than nominal 16 inches (406.4 mm), regardless of wall thickness, surface finish (e.g., black, galvanized, or painted), end finish (plain end, beveled end, grooved, threaded, or threaded and coupled), or industry specification (e.g., American Society for Testing and Materials International (ASTM), proprietary, or other), generally known as standard pipe, fence pipe and tube, sprinkler pipe, and structural pipe (although subject product may also be referred to as mechanical tubing). Specifically, the term “carbon quality” includes products in which:

(a) iron predominates, by weight, over each of the other contained elements;

(b) the carbon content is 2 percent or less, by weight; and

(c) none of the elements listed below exceeds the quantity, by weight, as indicated:

(i) 1.80 percent of manganese;

¹ See *Circular Welded Carbon-Quality Steel Pipe from the Sultanate of Oman: Final Determination of Sales at Less Than Fair Value*, 81 FR 75026 (October 28, 2016) (*Oman Final Determination*); *Circular Welded Carbon-Quality Steel Pipe From Pakistan: Final Determination of Sales at Less Than Fair Value*, 81 FR 75028 (October 28, 2016); and *Circular Welded Carbon-Quality Steel Pipe from the United Arab Emirates: Final Determination of Sales at Less Than Fair Value*, 81 FR 75030 (October 28, 2016).

² See ITC Notification Letter to the Deputy Assistant Secretary for Enforcement and Compliance, referencing ITC Investigation Nos. 701–TA–549 and 731–TA–1229, 1300, 1302, and 1303 (December 12, 2016) (ITC Notification).

(ii) 2.25 percent of silicon;

(iii) 1.00 percent of copper;

(iv) 0.50 percent of aluminum;

(v) 1.25 percent of molybdenum;

(vi) 0.30 percent of cobalt;

(vii) 0.40 percent of lead;

(viii) 1.25 percent of nickel;

(ix) 0.30 percent of tungsten;

(x) 0.15 percent of molybdenum;

(xi) 0.10 percent of niobium;

(xii) 0.41 percent of titanium;

(xiii) 0.15 percent of vanadium; or

(xiv) 0.15 percent of zirconium.

Covered products are generally made to standard O.D. and wall thickness combinations. Pipe multi-stenciled to a standard and/or structural specification and to other specifications, such as American Petroleum Institute (API) API–5L specification, may also be covered by the scope of these investigations. In particular, such multi-stenciled merchandise is covered when it meets the physical description set forth above, and also has one or more of the following characteristics: is 32 feet in length or less; Is less than 2.0 inches (50 mm) in outside diameter; has a galvanized and/or painted (e.g., polyester coated) surface finish; or has a threaded and/or coupled end finish.

Standard pipe is ordinarily made to ASTM specifications A53, A135, and A795, but can also be made to other specifications. Structural pipe is made primarily to ASTM specifications A252 and A500. Standard and structural pipe may also be produced to proprietary specifications rather than to industry specifications.

Sprinkler pipe is designed for sprinkler fire suppression systems and may be made to industry specifications such as ASTM A53 or to proprietary specifications.

Fence tubing is included in the scope regardless of certification to a specification listed in the exclusions below, and can also be made to the ASTM A513 specification. Products that meet the physical description set forth above but are made to the following nominal outside diameter and wall thickness combinations, which are recognized by the industry as typical for fence tubing, are included despite being certified to ASTM mechanical tubing specifications:

O.D. in inches (nominal)	Wall thickness in inches (nominal)	Gage
1.315	0.035	20
1.315	0.047	18
1.315	0.055	17
1.315	0.065	16
1.315	0.072	15
1.315	0.083	14
1.315	0.095	13
