

Court's final judgment affirming the 2010–2011 AR Final Results constitutes the Court's final decision which is not in harmony with the 2010–2011 AR Final Results. This notice is published in fulfillment of the publication requirements of *Timken*. Accordingly, the Department will continue the suspension of liquidation of the subject merchandise pending a final and conclusive court decision.

Amended Final Results of Review

Because there is now a final court decision, the Department is amending the 2010–2011 AR Final Results with respect to Jiheng and Kangtai, as follows:

Exporter	Weighted-average margin percentage
Hebei Jiheng Chemical Co., Ltd.	31.22
Juancheng Kangtai Chemical Co., Ltd.	34.21

In the event the Court's ruling is not appealed or, if appealed, upheld by a final and conclusive court decision, the Department will instruct the U.S. Customs and Border Protection to assess antidumping duties on unliquidated entries of subject merchandise based on the revised rate the Department determined and listed above.

Cash Deposit Requirements

Because there have been subsequent administrative reviews for Jiheng and Kangtai, the case deposit rates will remain the rates established in the 2012–2013 Final Results, which are 0.00 percent respectively for both Jiheng and Kangtai.⁷

NOAA, on behalf of the Chesapeake Bay Program, will ask the state education agencies for Maryland, Pennsylvania, Delaware, Virginia, West Virginia, and the District of Columbia to survey their local education agencies (LEAs) to determine: (1) LEA capacity to implement a comprehensive and systemic approach to environmental literacy education, (2) student participation in Meaningful Watershed Educational Experiences during the school year, (3) sustainability practices at schools, and (4) LEA needs for improving environmental literacy education programming. LEAs (generally school districts, in some cases charter school administration) are asked to complete the survey on the status of their LEA on a set of key indicators for the four areas listed above. One individual from each LEA is asked to complete this survey once every two years.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved collection.

The Office of Management and Budget (OMB) issued government-wide guidance to enhance the practice of peer review of government science documents. OMB's Final Information Quality Bulletin for Peer Review ("Peer Review Bulletin" or PRB) (available at <http://www.whitehouse.gov/omb/memoranda/fy2005/m05-03.pdf>) establishes minimum peer review standards for influential scientific information that Federal agencies intend to disseminate.

The Peer Review Bulletin also directs Federal agencies to adopt or adapt the National Academy of Sciences (NAS) policy for evaluating conflicts of interest when selecting peer reviewers who are not Federal government employees (federal employees are subject to Federal ethics requirements). For peer review purposes, the term "conflicts of interest" means any financial or other interest which conflicts with the service of the individual because it could: (1) Significantly impair the individual's objectivity; or (2) create an unfair competitive advantage for any person or organization. NOAA has adapted the NAS policy and developed two confidential conflict disclosure forms which the agency will use to examine prospective reviewers' potential financial conflicts and other interests that could impair objectivity or create an unfair advantage. One form is for peer reviewers of studies related to government regulation and the other form is for all other influential scientific information subject to the Peer Review Bulletin. In addition, the latter form has been adapted by NOAA's Office of
