SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection.

The Chesapeake Bay Watershed Agreement of 2014 requires monitoring of progress towards the environmental literacy goal: "Enable students in the region to graduate with the knowledge and skills needed to act responsibly to protect and restore their local watersheds." NOAA, on behalf of the Chesapeake Bay Program, will ask the state education agencies for Maryland, Pennsylvania, Delaware, Virginia, West Virginia, and the District of Columbia to survey their local education agencies (LEAs) to determine: (1) LEA capacity to implement a comprehensive and systemic approach to environmental literacy education, (2) student participation in Meaningful Watershed Educational Experiences during the school year, (3) sustainability practices at schools, and (4) LEA needs for improving environmental literacy education programming. LEAs (generally school districts, in some cases charter school administration) are asked to complete the survey on the status of their LEA on a set of key indicators for the four areas listed above. One individual from each LEA is asked to complete this survey once every two years.

II. Method of Collection

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved collection.

The Office of Management and Budget (OMB) issued government-wide guidance to enhance the practice of peer review of government science documents. OMB's Final Information Quality Bulletin for Peer Review ("Peer Review Bulletin" or PRB) (available at <http://www.whitehouse.gov/omb/memoranda/fy2005/m05-03.pdf>) establishes minimum peer review standards for influential scientific information that Federal agencies intend to disseminate.

The Peer Review Bulletin also directs Federal agencies to adopt or adapt the National Academy of Sciences (NAS) policy for evaluating conflicts of interest when selecting peer reviewers who are not Federal government employees (federal employees are subject to Federal ethics requirements). For peer review purposes, the term "conflicts of interest" means any financial or other interest which conflicts with the service of the individual because it could: (1) Significantly impair the individual's objectivity; or (2) create an unfair competitive advantage for any person or organization. NOAA has adapted the NAS policy and developed two confidential conflict disclosure forms which the agency will use to examine prospective reviewers' potential financial conflicts and other interests that could impair objectivity or create an unfair advantage. One form is for peer reviewers of studies related to government regulation and the other form is for all other influential scientific information subject to the Peer Review Bulletin. In addition, the latter form has been adapted by NOAA's Office of

Oceanic and Atmospheric Research for potential reviewers of scientific laboratories.

The forms include questions about employment as well as investment and property interests and research funding. Both forms also require the submission of curriculum vitae. NOAA is seeking to collect this information from potential peer reviewers who are not government employees when conducting a peer review pursuant to the PRB. The information collected in the conflict of interest disclosure is essential to NOAA's compliance with the OMB PRB, and helps to ensure that government studies are reviewed by independent, impartial peer reviewers.

II. Method of Collection

Forms may be downloaded from the Internet and are fillable and signable electronically or manually. They may be submitted, along with the Curriculum Vitae, via email or regular mail.
