

BLM provided the Utah Governor with a detailed response and made editorial modifications in preparing the Approved NCA RMPs and RMP Amendment to address issues raised by the Governor. The NCA RMPs are the culmination of a significant effort by the BLM and interested members of the public, community stakeholders, and other local, state and federal partners to provide long-term management direction for the first NCAs designated by Congress in Utah.

Certain decisions in the Approved NCA RMPs are implementation decisions and are appealable to the Interior Board of Land Appeals. These implementation level decisions are noted in the RODs for the Beaver Dam Wash and Red Cliffs NCAs (under livestock grazing and recreation) and are appealable under 43 CFR part 4. Any party adversely affected by the implementation level decisions may appeal within 30 days of publication of this Notice of Availability in accordance with the provisions of 43 CFR, part 4, subpart E. The appeal should state the specific numbered decision and the rationale for the appeal. Within 30 days of the posting of this decision (“date of service”), a Notice of Appeal must be filed in writing to: State Director-BLM Utah State Office 440 West 200 South, Suite 500 Salt Lake City, Utah 84101-1345. At the same time, a copy of the Notice of Appeal must also be sent to: Regional Solicitor—U.S. Department of the Interior, 6201 Federal Building, 1235 South State Street, Salt Lake City, Utah 84138-1180.

Please consult the appropriate regulations (43 CFR, part 4, subpart E) for further appeal requirements.

Authority: 40 CFR 1506.6.

Edwin L. Roberson,

State Director.

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection is required under the Reclamation Reform Act of 1982 (RRA), Acreage Limitation Rules and Regulations, 43 CFR part 426, and Information Requirements for Certain Farm Operations In Excess of 960 Acres and the Eligibility of Certain Formerly Excess Land, 43 CFR part 428. This information collection requires certain landholders (direct or indirect landowners or lessees) and farm operators to complete forms demonstrating their compliance with the acreage limitation provisions of Federal reclamation law. The forms in this information collection are submitted to districts that use the information to establish each landholder’s status with respect to landownership limitations, full-cost

pricing thresholds, lease requirements, and other provisions of Federal reclamation law. In addition, forms are submitted by certain farm operators to provide information concerning the services they provide and the nature of their farm operating arrangements. All landholders whose entire westwide landholdings total 40 acres or less are exempt from the requirement to submit RRA forms. Landholders who are “qualified recipients” have RRA forms submittal thresholds of 80 acres or 240 acres depending on the district’s RRA forms submittal threshold category where the land is held. Only farm operators who provide multiple services to more than 960 acres held in trusts or by legal entities are required to submit forms.

II. Changes to the RRA Forms and Their Instructions

No changes have been made to the currently approved RRA forms and the corresponding instructions to generate the proposed RRA forms that will be effective in the 2018 water year.

SUPPLEMENTARY INFORMATION:

I. Abstract

Identification of limited recipients—Some entities that receive Reclamation irrigation water may believe that they are under the Reclamation Reform Act of 1982 (RRA) forms submittal threshold and, consequently, may not submit the appropriate RRA form(s). However, some of these entities may in fact have a different RRA forms submittal

threshold than what they believe it to be due to the number of natural persons benefiting from each entity and the location of the land held by each entity. In addition, some entities that are exempt from the requirement to submit RRA forms due to the size of their landholdings (directly and indirectly owned and leased land) may in fact be receiving Reclamation irrigation water for which the full-cost rate must be paid because the start of Reclamation irrigation water deliveries occurred after October 1, 1981 [43 CFR 426.6(b)(2)]. The information obtained through completion of the Limited Recipient Identification Sheet (Form 7-2536) allows us to establish entities' compliance with Federal reclamation law. The Limited Recipient Identification Sheet is disbursed at our discretion.

Trust review—In order to administer section 214 of the RRA and 43 CFR 426.7, we are required to review and approve all trusts. Land held in trust generally will be attributed to the beneficiaries of the trust rather than the trustee if the criteria specified in the RRA and 43 CFR 426.7 are met. We may extend the option to complete and submit for our review the Trust Information Sheet (Form 7-2537) instead of actual trust documents when we become aware of trusts with a relatively small landholding (40 acres or less in districts subject to the prior law provisions of Federal reclamation law, 240 acres or less in districts subject to the discretionary provisions of Federal reclamation law). If we find nothing on the completed Trust Information Sheet that would warrant the further investigation of a particular trust, that trustee will not be burdened with submitting trust documents to us for in-depth review. The Trust Information Sheet is disbursed at our discretion.
