

between different systems was clarified so that agencies better understand the requirement and public notice will be improved.

- Includes a “History” section in the system of records notice templates for agencies to provide citations to the last full **Federal Register** notice, as well as any subsequent notices of revision. This will improve transparency and assist the public in learning about systems of records as they are established and revised over time.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 16–090]

### Notice of Intent To Grant Exclusive Term License

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Notice of intent to grant exclusive patent license.

**SUMMARY:** NASA hereby gives notice of its intent to grant an exclusive patent license in the United States to practice the invention described and claimed in U.S. Patent Application entitled, “System, Apparatus, and Method for Liquid Purification,” LEW–18732–1, to SageGuard Solutions, LLC, having its principal place of business in Westlake, Ohio. The fields of use may be limited to anaerobic digestion of agricultural by-products and run-off, semiconductor manufacturing process water and wastewater treatment, and food and beverage manufacturing process water and wastewater treatment.

**DATES:** The prospective exclusive license may be granted unless, within fifteen (15) days from the date of this published notice, NASA receives written objections including evidence and argument that establish that the grant of the license would not be consistent with the requirements regarding the licensing of federally owned inventions as set forth in the Bayh-Dole Act and implementing regulations. Competing applications completed and received by NASA within fifteen (15) days of the date of this published notice will also be treated as objections to the grant of the contemplated exclusive license.

Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act.

**ADDRESSES:** Objections relating to the prospective license may be submitted to Patent Counsel, Office of Chief Counsel, MS 142–7, NASA Glenn Research Center, 21000 Brookpark Rd, Cleveland, OH 44135. Phone (216) 433–3663. Facsimile (216) 433–6790.

**FOR FURTHER INFORMATION CONTACT:**

Robert Earp, Patent Counsel, Office of Chief Counsel, MS 142–7, NASA Glenn Research Center, 21000 Brookpark Rd, Cleveland OH 44135. Phone (216) 433–3663. Facsimile (216) 433–6790.

**SUPPLEMENTARY INFORMATION:** This notice of intent to grant an exclusive patent license is issued in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i). The patent rights in these inventions have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective exclusive license will comply with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

*Information about other NASA inventions available for licensing can be found online at <http://technology.nasa.gov>.*

**Mark P. Dvorscak,**

*Agency Counsel for Intellectual Property.*

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA)

[Notice (16–091)]

### National Environmental Policy Act: Kennedy Space Center—Center Master Plan

**AGENCY:** National Aeronautics and Space Administration

**ACTION:** Notice of Availability (NOA)

**SUMMARY:** NASA has prepared and issued a Final Programmatic Environmental Impact Statement (FPEIS) for implementation of the Kennedy Space Center (KSC) Center Master Plan (CMP). The purpose of the CMP is to provide overall management guidance for KSC from 2016 to 2032. Implementation of the CMP will facilitate a two-decade transformation from a single, government-user launch complex to a multi-user spaceport. This multi-user spaceport will be developed in concert with NASA’s programmatic missions and requirements to explore destinations outside of low Earth orbit.

The need for the action is to update KSC’s CMP in a manner that supports achievement of NASA’s programmatic mission objectives, at the same time as maximizing the provision of excess capabilities and assets in support of non-NASA access to space.

**DATES:** NASA will issue a Record of Decision (ROD) for the FPEIS on the proposed KSC CMP either by December 19, 2016, or after 30 days from the date of publication of the NOA for the FPEIS in the **Federal Register** by the U.S. Environmental Protection Agency (EPA), whichever is later.

**ADDRESSES:** The FPEIS may be reviewed at the NASA Headquarters Library (Washington, DC), as well as public libraries in Florida including New Smyrna Beach, Cocoa Beach, Merritt Island, Port St. John, Cape Canaveral and Titusville. Limited hard copies of the FPEIS are available and may be requested by contacting Mr. Donald Dankert at the address, telephone number, or electronic mail address indicated below. The FPEIS is available electronically to download and read at <http://environmental.ksc.nasa.gov/projects/peis.htm>. NASA’s ROD will also be placed on this Web site when it is issued. Anyone who desires a hard copy of NASA’s ROD when it is issued should contact Mr. Dankert.

**FOR FURTHER INFORMATION CONTACT:** Mr. Donald Dankert, Environmental Management Branch, NASA Kennedy Space Center, Mail Code: TA–A4C, Kennedy Space Center, FL 32899, Email: [Donald.J.Dankert@nasa.gov](mailto:Donald.J.Dankert@nasa.gov), Telephone: (321) 861–1196.

**SUPPLEMENTARY INFORMATION:** Pursuant to the National Environmental Policy Act (NEPA) of 1969, as Amended (42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality (CEQ) Regulations for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500–1508), and NASA NEPA regulations (14 CFR part 1216 subpart 1216.3), NASA has prepared and issued a FPEIS for implementation of the CMP.

Overall, KSC is transitioning to a re-focused mission that redefines its relationship with industry and leverages the potential of partnerships. Amid the challenges of an aging and unsustainable asset base, as well as a highly constrained federal budget, NASA must adopt and implement strategies that preserve the institutional infrastructure needed to support its purpose and programs.

This FPEIS is a programmatic document. In keeping with guidance from CEQ, the FPEIS outlines and broadly describes actions associated with KSC’s proposed programs in the

limited detail with which they are known at present. Three programmatic alternatives are described—No Action, Proposed Action, and Alternative 1—and their potential environmental effects are assessed in fairly general terms. At such time as a given specific project of detailed dimensions and scale is proposed at a specific location, and is in the process of being reviewed and approved, the FPEIS can serve as a master NEPA document to which future NEPA compliance documents may be “tiered”. That is, having already been addressed at a programmatic level, the action or project can incorporate discussion from the broader FPEIS by reference and focus on the issues specific to the subsequent tiered proposal. Ideally, this will serve to expedite the environmental review process and facilitate project approval, funding, and implementation. The FPEIS provides an overview of the affected environment at and near the Kennedy Space Center and the potential environmental consequences associated with the Proposed Action and alternatives. There would be a number of direct and indirect adverse impacts but none that are considered to be significantly adverse. Beneficial impacts would also occur. Under each of the three alternatives evaluated, NASA would continue to work closely with its partners, including the U.S. Fish and Wildlife Service, National Park Service, Federal Aviation Administration, Space Florida, Cape Canaveral Air Force Station, U.S. Army Corps of Engineers, and state agencies.

Of the three alternatives considered in the FPEIS, NASA prefers Alternative 1. This alternative would allow for implementation of the CMP while at the same time protecting natural resources and the environment to a greater extent than the Proposed Action.

As a result of comments received during internal and external (public) scoping, NASA developed three alternatives that are assessed in this FPEIS. Under the first of these, the Proposed Action, KSC would transition to a multi-user spaceport. A number of new land uses are proposed, including two seaports and horizontal and vertical launch and landing facilities. There would be changes in the acreage of existing designated land use categories at KSC. Alternative 1 was crafted as a direct response to concerns expressed in comments received during the PEIS public scoping period in June 2014, as well as other observations and data acquired from stakeholders and other agencies during the scoping process. Alternative 1 is similar to the Proposed Action in many regards, but is

differentiated in several key respects, primarily, differences in the siting and size of vertical and horizontal launch and landing facilities. Also, the two new seaports would not be constructed.

In the No Action Alternative, KSC management would continue its emphasis on dedicated NASA Programs and would not transition in the coming years towards a multi-user spaceport. Rather, each NASA Program would continue to be operated as an independent entity to a significant degree, to be funded separately, and to manage activities and buildings in support of its own program. There would continue to be a limited non-NASA presence at KSC. Under the three PEIS alternatives, there would be differences in the sizes of the areas of designated land uses at KSC. These varying acreages are a function of the different emphases, priorities, and projects of the three PEIS alternatives. Only in the recreation and water categories are the acreages identical in all three alternatives.

The FPEIS assesses potential environmental impacts for all three alternatives under the topics of soils and geology, water resources, hazardous materials and waste, air quality, climate change, noise, biological resources, cultural resources, land use, transportation, utilities, socioeconomic, recreation, environmental justice, and protection of children.

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Information Security Oversight Office

[NARA–2017–016]

#### State, Local, Tribal, and Private Sector Policy Advisory Committee Meeting

**AGENCY:** Information Security Oversight Office (ISOO). National Archives and Records Administration (NARA).

**ACTION:** Notice of Federal Advisory Committee Meeting.

**SUMMARY:** In accordance with the Federal Advisory Committee Act, NARA announces an upcoming State, Local, Tribal, and Private Sector Policy Advisory Committee (SLTPS–PAC) meeting.

**DATES:** The meeting will be on January 25, 2017, from 10:00 a.m. to 12:00 p.m. EDT.

**ADDRESSES:** National Archives and Records Administration (NARA); 700 Pennsylvania Avenue NW., Jefferson Room; Washington, DC 20408.

**FOR FURTHER INFORMATION CONTACT:** Robert J. Skwirot, Senior Program Analyst, ISOO, by mail at National Archives Building; 700 Pennsylvania Avenue NW., Washington, DC 20408, by telephone at 202.357.5398, or by email at [robert.skwirot@nara.gov](mailto:robert.skwirot@nara.gov). Contact ISOO at [ISOO@nara.gov](mailto:ISOO@nara.gov).

**SUPPLEMENTARY INFORMATION:** The meeting’s purpose is to discuss matters relating to the Classified National Security Information Program for State, Local, Tribal, and Private Sector entities. This meeting is open to the public. However, due to space limitations and access procedures, you must register in advance if you wish to attend the meeting. Submit your name and telephone number to ISOO at the contact information above no later than Wednesday, January 18, 2017. ISOO will provide additional instructions for gaining access to the Jefferson Room.

**Authority:** 5 U.S.C. app 2.
